Sydnor, 2010-01-01 U S Army chaplain Winfield Scott and his wife Helen founded Scottsdale in 1888 as a small farming and ranching settlement on undeveloped desert east of Phoenix After World War II many people were attracted by the dry climate desert landscape and business opportunities The community encouraged creativity in architecture and Frank Lloyd Wright Paolo Soleri and Paul Schweikher designed buildings here To draw tourists the business community adopted The West s Most Western Town as a slogan in 1947 By the time employers such as Motorola arrived fast paced construction was already underway and the architecture reflected that era In the 1970s an architectural debate took place between western and modern styles resulting in innovative architecture Transitioning into the 21st century Scottsdale witnessed more growth with downtown revitalization a new appreciation of contemporary projects and an awareness of desert preservation Scottsdale Joan Fudala, 2007 Just a century ago the now tony tourist destination of Scottsdale was a tiny farming village in the pristine desert east of Phoenix Named for its 1888 homesteaders U S Army chaplain Winfield Scott and his wife Helen Scottsdale remained a farming and ranching community through World War II After the war businesses and families flocked to Scottsdale for its climate and unlimited opportunities creating a place they branded The West s Most Western Town Throughout the decades residents and visitors alike have enjoyed adventures in the desert a thriving arts crafts and cultural community a healthful climate and healthcare industry and fun packed events and outdoor sports Residents have had the additional benefits of living and working in a great hometown with excelling schools an international reputation for environmental preservation and a diverse economy that boasts an eclectic array of businesses **Historic Scottsdale** Joan Fudala, 2001 **Desert Cities** Michael F. Logan, 2012-01-12 Phoenix is known as the Valley of the Sun while Tucson is referred to as The Old Pueblo These nicknames epitomize the difference in the public s perception of each city Phoenix continues to sprawl as one of America s largest and fastest growing cities Tucson has witnessed a slower rate of growth and has only one quarter of Phoenix s population This was not always the case Prior to 1920 Tucson had a larger population How did two cities with such close physical proximity and similar natural environments develop so differently Desert Cities examines the environmental circumstances that led to the starkly divergent growth of these two cities Michael Logan traces this significant imbalance to two main factors water resources and cultural differences Both cities began as agricultural communities Phoenix had the advantage of a larger water supply the Salt River which has four and one half times the volume of Tucson s Santa Cruz River Because Phoenix had a larger river it received federal assistance in the early twentieth century for the Salt River project which provided water storage facilities Tucson received no federal aid Moreover a significant cultural difference existed Tucson though it became a U S possession in 1853 always had a sizable Hispanic population Phoenix was settled in the 1870s by Anglo pioneers who brought their visions of landscape development and commerce with

them By examining the factors of watershed culture ethnicity terrain political favoritism economic development and history Desert Cities offers a comprehensive evaluation that illuminates the causes of growth disparity in two major southwestern cities and provides a model for the study of bi city resource competition
