Acousto-Optical Laser Systems for the Formation of Television Images Yu V. Gulyaev, M. A. Kazaryan, M. Mokrushnin, O.V. Shatkin, 2018-12-07 The book addresses various approaches to television projection imaging on large screens using lasers Results of theoretical and experimental studies of an acousto-optic projection system operating on the principle of projecting an image of an entire amplitude modulated television line in a single laser pulse are presented Characteristic features of image formation and requirements for individual components are discussed Particular attention is paid to nonlinear distortions of the image signal which show up most severely at low modulation signal frequencies The feasibility of improving the process efficiency and image quality using acousto-optic modulators and pulsed lasers is studied *Movies: Universal Language* Bede Sullivan, 1970 **International Commerce**, 1969 *Japan on Display* Morris Low, 2006-09-27 Sixty years on from the end of the Pacific War *Japan on Display* examines representations of the Meiji emperor Mutsuhito 1852-1912 and his grandson the Showa emperor Hirohito who was regarded as a symbol of the nation in both war and peacetime Much of this representation was aided by the phenomenon of photography The introduction and development of photography in the nineteenth century coincided with the need to make Hirohito's grandfather the young Meiji Emperor more visible Photo books and albums became a popular format for presenting seemingly objective images of the monarch reminding the Japanese of their proximity to the Emperor and the imperial family In the twentieth century these national albums provided a visual record of wars fought in the name of the Emperor while also documenting the reconstruction of Tokyo scientific expeditions and imperial tours Drawing on archival documents photographs and sources in both Japanese and English this book throws new light on the history of twentieth century Japan and the central role of Hirohito With Japan's defeat in the Pacific War the Emperor was transformed from wartime leader to peace-loving scientist *Japan on Display* seeks to understand this reinvention of a more human Emperor and the role that photography played in the process **New Serial Titles**, 1988 A union list of serials commencing publication after Dec 31 1949 **The Publishers' Trade List Annual**, 1971 **Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... Wherein the Copyright Has Been Completed by the Deposit of Two Copies in the Office** Library of Congress. Copyright Office, 1966 **Childhood** Chris Jenks, 2005 Childhood is an extremely complex and highly contested concept It refers to a life phase as well as to the age group defined as children but is also a cultural construction part of the social and economic structure of communities The key scholarship collected introduced and reprinted in these volumes reflects this complexity and introduces the reader to the wide variety of interpretations that have

been and continue to be placed on it It might be suggested that the push or initiative in theorizing childhood has derived from advances within sociology and anthropology However the future provides potential for interdisciplinary study which this collection also reflects The contemporary study of childhood must comprise a conjoining of disciplines sociology anthropology psychology social geography history philosophy and socio legal theory all have something to add to the field and are represented within the collection
