Looking-Glass Wars: Spies on British Screens since 1960 Alan Burton, 2018-01-31. *Looking Glass Wars: Spies on British Screens since 1960* is a detailed historical and critical overview of espionage in British film and television in the important period since 1960. From that date the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema, the spy thriller and of the new style spy writing of John le Carr and Len Deighton, the espionage story. In the 1960s there developed a popular cycle of spy thrillers in the cinema and on television. The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films. The study also brings new attention to espionage on British television and popular secret agent series such as *Spy Trap*, *Quiller* and *The Sandbaggers*. It also gives attention to the more realistic representation of spying in the film and television adaptations of le Carr and Deighton and other dramas with a more serious intent. In addition there is wholly original attention given to nostalgic spy fictions on screen, adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s and to historical spy fiction dramas which treated real cases of espionage and their characters, most notably the notorious Cambridge Spies. Detailed attention is also given to the secret state thriller, a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light, best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service. The study is brought up to date with an examination of screen espionage in Britain since the end of the Cold War. The approach is empirical and historical. The study examines the production and reception, literary and historical contexts of the films and dramas. It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films, series and serials never previously considered.

Institutions, Interaction and Social Theory Will Gibson, Dirk vom Lehn, 2016-01-01

From hospitals and prisons to schools and corporations no matter how large or seemingly abstract all institutions are ultimately the result of the actions and interactions of people In this original and innovative text Gibson and Vom Lehn show the different ways in which studying people's own meaning making practices can help us understand the role of institutions in contemporary society Institutions Interaction and Social Theory takes the reader through the core conceptual foundations of Symbolic Interactionism Ethnomethodology and Conversation Analysis Engaging with a rich tradition in sociological thought it suggests that interactionist perspectives have remained largely absent in the study of institutions and how they contrast with and contribute to the broader field of research in institutional contexts With chapters on healthcare education markets and art and culture this text will be of interest to those studying institutions organisations and work in sociology and in business schools It will also be valuable for students of social theory interested in interactionism and in the challenges and opportunities of connecting complex theoretical discussions to real world examples
