Scribbled Stories Jack Patterson, 2002-07-30 Jack Patterson for 30 years taught school in the Redwood City School District in California He now resides in an enclave west of Redwood City called Emerald Hills As a retired teacher he finds he is a very busy person First it takes time to be a great grandfather to grandson K J Also writing and reading are ongoing activities for each day In spare moments he helps his lovely wife Phyllis with her wild garden Then once or twice a week he takes a bundle of sticks and attempts to strike a golf ball 40 or 50 times before he goes home a disheartened and discouraged man His Scribbled Stories come from his life as lived and remembered all true blue except for a few Socially Engaged Art and the Neoliberal City Cecilie Sachs Olsen, 2019-01-10 What are the social Henry, 1929 functions of art in the age of neoliberal urbanism This book discusses the potential of artistic practices to question the nature of city environments and the diverse productions of space moving beyond the reduction of the urban as a set of existing and static structures Adopting a practice led approach each chapter discusses case studies from across the world reflecting on personal experiences as well as the work of other artists While exposing the increasingly limiting constraints placed on public and socially engaged art by the dominance of commercial funding and neoliberal frameworks the author stays optimistic about the potential of artistic practices to transcend neoliberal logics through alternative productions of space Drawing upon a Lefebvrian framework of spatial practice and using a structuralist approach to challenge neoliberal structures the book draws links between art resistance criticism democracy and political change The book concludes by looking at how we might create a new course for socially engaged art within the neoliberal city It will be of great interest to researchers in urban studies urban geography and architecture as well as students who want to learn more about place making visual culture performance theory applied practice and urban culture Mavis Gallant Marta Dvorák, 2019-11-19 With a confidente s insights Marta Dvo k sets up an innovative connection between Mavis Gallant's dazzling writing and the whole spectrum of the arts She simultaneously engages with the feats of art making and the adventures of reading looking and listening Drawing on private correspondence and conversations with the Gallant she repositions as a late modernist Dvo k investigates the relationships between the Paris based master of the short story and visual and sound culture Through the filter of philosophical aesthetics she identifies the painterly cinematic and musical dynamics which light up Gallant s craft At the same time she opens a dialogue between Gallant and other international modernists and with those they were reading watching and listening to from the moving pictures which shaped Gallant's generation to the rhythm and dissonance of say Stravinsky and jazz which like the Cubist rupture with spatial perspective spearheaded modernity s aesthetics of breakage How does Gallant's work work Dvok's hands on rhetorical analyses of Gallant's stories and lesser known recently reissued novels illuminate the superb stylist's language and vision via an emphasis on both image and rhythm Providing keys to Gallant's famous sleights of hand and tonal shifts the discussions reveal a fictional world as multidimensional as a Cubist
