

Youth and Student Slang in British and American English: An Annotated Bibliography.

Félix Rodríguez González
Universidad de Alicante

ABSTRACT

This article contains an annotated bibliography of the slang used by young people, and specifically the slang of students, in both Britain and the United States. In addition, there is a brief account of the English influences on foreign youth slang. Some introductory remarks on the expressive nature of the language of such groups are also made.

Introduction

Slang is an area of lexis in a permanent state of flux consisting of vivid and colorful words and phrases which characterize various social and professional groups, especially when these terms are used for in-group communication. Slang provides and reinforces social identity but it is also used in society at large to achieve an air of informality and relaxation. Because of its nature and the multiplicity of its aims, slang is a meeting point for people working in different fields, lexicologists, sociolinguists, psychologists, and even for the lay public.

However, the study of slang, especially its lexicographic registration, is often overlooked or disregarded, due, in great part, to its ephemerality and the informal, humorous and taboo character of many of its expressions, which leads to the belief that it is a deviation from the standard language.

Of all social groups, the young are the most prone to the use and renovation of slang and unconventional language. They exhibit great social dynamism and are receptive to changes in fashion: in clothes, look, style, and also in speech. They have little political power but they may use slang as a counter-cultural tool, as an arm against established authority and conventions. In our modern and cultivated societies, students constitute one large subgroup within the young which deserves special study, for many a time they

The Short Story in English Dean R. Baldwin, Gregory Lynn Morris, 1993 *Teaching the Short Story* A. Cox, 2015-12-04

The short story is moving from relative neglect to a central position in the curriculum as a teaching tool it offers students a route into many complex areas including critical theory gender studies postcolonialism and genre This book offers a practical guide to the short story in the classroom covering all these fields and more **The Undergraduate's Companion to African Writers and Their Web Sites** Miriam E. Conteh-Morgan, 2005-10-30

Now a firmly established part of world literature course offerings in many general education curricula African literature is no longer housed exclusively with African Studies programs and is often studied in English French Portuguese Women's Studies and Comparative Studies departments This book helps fill the great need for research materials on this topic presenting the best resources available for 300 African writers These writers have been carefully selected to include both well known writers and those less commonly studied yet highly influential They are drawn from both the Sub Sahara and the Maghreb the major geographical regions of Africa The study of Africa was introduced into the curriculum of institutions of higher learning in the United States in the 1960s when the Black Consciousness movement in the United States and the Cold War and decolonization movements in Africa created a need for the systematic study of other regions of the world Between 1986 and 1991 three Africans won Nobel literature prizes Soyinka Mahfouz and Gordimer and the visibility of African writers increased They are now a firmly established part of world literature courses in many general education curricula throughout North America African Writers is meant to serve as a resource for introductory material on 300 writers from 39 countries These writers were selected on the basis on two criteria that there is material on them in an easily available reference work and that there is some information of research value on free Web sites Each writer is from the late 19th or 20th century with the notable exception of Olaudah Equiano an 18th century African whose slave narrative is generally considered the first work of African literature All entries are annotated *Recharting the Thirties* Patrick J. Quinn, 1996

The aim of *Recharting the Thirties* is to revitalize the awareness of the reading public with regard to eighteen writers whose books have been largely ignored by publishers and scholars since their major works first appeared in the thirties The selection is not based on a political agenda but encompasses a wide and divergent range of philosophies clearly the contrasts between Empson and Upward or between Powell and Slater indicated the wide ranging vision of the period Women writers of the period have largely been marginalized and the writings of Sackville West and Burdekin for example not only present distinct feminine voices of the period but also illuminate how much good literature has been forgotten *Flannery O'Connor* R. Neil Scott, 2002 *The Short Story in English* Dean Baldwin, Gregory L. Morris, 1994-06
