Should We Have Capital Punishment:

Debating the Death Penalty Hugo Adam Bedau, Paul G. Cassell, 2005-03-24 When news breaks that a convicted murderer released from prison has killed again or that an innocent person has escaped the death chamber in light of new DNA evidence arguments about capital punishment inevitably heat up Few controversies continue to stir as much emotion as this one and public confusion is often the result This volume brings together seven experts judges lawyers prosecutors and philosophers to debate the death penalty in a spirit of open inquiry and civil discussion Here as the contributors present their reasons for or against capital punishment the multiple facets of the issue are revealed in clear and thought provoking detail Is the death penalty a viable deterrent to future crimes Does the imposition of lesser penalties such as life imprisonment truly serve justice in cases of the worst offences Does the legal system discriminate against poor or minority defendants Is the possibility of executing innocent persons sufficient grounds for abolition In confronting such questions and making their arguments the contributors marshal an impressive array of evidence both statistical and from their own experiences working on death penalty cases The book also includes the text of Governor George Ryan's March 2002 speech in which he explained why he had commuted the sentences of all prisoners on Illinois's death row By representing the viewpoints of experts who face the vexing questions about capital punishment on a daily basis Debating the Death Penalty makes a vital contribution to a more nuanced understanding of the moral and legal problems underlying this controversy

Should America Have Capital Punishment? The Experts on Both Sides Make Their Best Case Hugo Adam Bedau Professor of Philosophy Tufts University (Emeritus), Paul G. Cassell Professor of Law University of Utah College of Law, 2004-02-05 When news breaks that a convicted murderer released from prison has killed again or that an innocent person has escaped the death chamber in light of new DNA evidence arguments about capital punishment inevitably heat up Few controversies continue to stir as much emotion as this one and public confusion is often the result This volume brings together seven experts judges lawyers prosecutors and philosophers to debate the death penalty in a spirit of open inquiry and civil discussion Here as the contributors present their reasons for or against capital punishment the multiple facets of the issue are revealed in clear and thought provoking detail Is the death penalty a viable deterrent to future crimes Does the imposition of lesser penalties such as life imprisonment truly serve justice in cases of the worst offences Does the legal system discriminate against poor or minority defendants Is the possibility of executing innocent persons sufficient grounds for abolition In confronting such questions and making their arguments the contributors marshal an impressive array of evidence both statistical and from their own experiences working on death penalty cases The book also includes the text of Governor George Ryan's March 2002 speech in which he explained why he had commuted the sentences of all prisoners on Illinois's death row By representing the viewpoints of experts who face the vexing questions about capital punishment on a daily basis Debating the Death Penalty makes a vital contribution to a more nuanced understanding of the moral and legal

problems underlying this controversy The Problem with Capital Punishment and Why It Should Be Abolished in America Vincent R. Jones Sr.,2023-11-06 One of the most controversial subjects in criminal law is whether or not we should continue to use capital punishment as the ultimate punitive sanction The intended focus of The Problem with Capital Punishment and Why It Should Be Abolished in America is to take a harsh critical look at theories in support of the use of this form of punishment and expose the truth about capital punishment it is extremely costly it is arbitrarily applied there have been too many innocent persons exonerated from death row and the only consistency with execution seems to be that of the mentally ill the poor and those without adequate legal representation and by using methods that are inhumane and cruel and unusual This book shows that our current system of capital punishment is fraught with error insanely expensive and administered in such a manner that the possibility of executing a completely innocent person is not only possible but likely if we continue upon our present course After reading this book the reader will be left with no reasonable doubt that the time has come to abolish capital punishment in America Questioning Capital Punishment James R. Acker,2014-06-13 The death penalty has inspired controversy for centuries Raising questions regarding capital punishment rather than answering them Questioning Capital Punishment offers the footing needed to allow for more informed consideration and analysis of these controversies Acker edits judicial decisions that have addressed constitutional challenges to capital punishment and its administration in the United States and uses complementary materials to offer historical empirical and normative perspectives about death penalty policies and practices This book is ideal for upper level undergraduate and graduate classes in criminal justice

Dialogues on the Ethics of Capital Punishment Dale Jacquette,2009-02-04 One in the series New Dialogues in Philosophy edited by the author himself Dale Jacquette presents a fictional dialogue over a three day period on the ethical complexities of capital punishment Jacquette moves his readers from outlining basic issues in matters of life and death to questions of justice and compassion with a concluding dialogue on the conditional and unconditional right to life Jacquette s characters talk plainly and thoughtfully about the death penalty and readers are left to determine for themselves how best to think about the morality of putting people to death *Capital Punishment* United States. Congress. House. Committee on the Judiciary. Subcommittee No. 3,1972 *Capital Punishment* Lill Scherdin,2016-04-08 As most jurisdictions move away from the death penalty some remain strongly committed to it while others hold on to it but use it sparingly This volume seeks to understand why by examining the death penalty s relationship to state governance in the past and present It also examines how international transnational and national forces intersect in order to understand the possibilities of future death penalty abolition The chapters cover the USA the only western democracy that still uses the death penalty and Asia the site of some 90 per cent of all executions Also included are discussions of the death penalty in Islam and its practice in selected Muslim majority countries There is also a comparative chapter departing from the response to the mass killings in Norway in 2011 Leading experts in law criminology and human rights combine theory and empirical research to further our understanding of

the relationships between ways of governance the role of leadership and the death penalty practices This book questions whether the death penalty in and of itself is a hazard to a sustainable development of criminal justice It is an invaluable resource for all those researching and campaigning for the global abolition of capital punishment **Should We Have Capital Punishment?** JoAnn Bren Guernsey,1993 Discusses capital punishment analyzing how it affects those condemned to die those who have been victimized our society and the enforcers **Report of the Capital Punishment Commission**,1866 **Capital Punishment** United States. Congress. Senate. Committee on the Judiciary,1981
