Show Starts On The Sidewalk An Architectural History Of The Movie Theatre:

The Show Starts on the Sidewalk Maggie Valentine,1994-01-01 Documenting the evolution of the American movie theatre and exploring its role in American culture and architecture this work focuses on the career of S Charles Lee who designed more than 300 theatres between 1920 and 1950 buildings that became prototypes for the whole country **When Movies Were Theater** William Paul,2016-05-24 There was a time when seeing a movie meant more than seeing a film The theater itself shaped the very perception of events on screen This multilayered history tells the story of American film through the evolution of theater architecture and the surprisingly varied ways movies were shown ranging from Edison s 1896 projections to the 1968 Cinerama premiere of Stanley Kubrick s 2001 William Paul matches distinct architectural forms to movie styles showing how cinema s roots in theater influenced business practices exhibition strategies and film technologies

The Architecture of the Illusive Distance Amir H. Ameri,2016-03-03 Focusing on three secular institutional building types libraries museums and cinemas this book explores the intricate interplay between culture and architecture It explores the cultural imperatives which have seen to the formation of these institutions the development of their architecture and their transformation over time The relationship between culture and architecture is often perceived as a monologic relationship Architecture is seen to embody represent and or reflect the values the beliefs and the aesthetic ideals of a culture Ameri argues that this is at best a partial and restrictive view and that if architecture is a cultural statement it is a performative one It does not merely represent culture but constructs reifies and imposes culture as the unalterable shape of reality Whereas the concept and the study of cultural performatives have had an important critical impact on the humanities architecture as a cultural performative has not received the necessary scholarly attention and in part this book aims to fill this gap Whereas building type studies have been largely restricted to elucidating how best to design building types based on historic and contemporary precedents studies in the humanities that analytically and critically engage the secular institutions and their history as cultural performatives typically cast a blind or perfunctory glance at the performative complicity of their architecture This book aims to address the omissions in both these approaches The library the museum and the movie theater have been selected for close critical study because this book argues each has been instituted to house domesticate and restrain a specific form of representation The aim has been to protect and promulgate the metaphysics of presence as Jacques Derrida expounds the concept This book proposes that it is against the dangers of unconstrained cohabitation of reality and representation that the library the m **Envisioning Freedom** Cara Caddoo,2014-10-13 In Cara Caddoo s

perspective changing study African Americans emerge as pioneers of cinema from the 1890s to 1920s But as it gained popularity black cinema also became controversial Black leaders demanded self representation and an end to cinematic mischaracterizations which they charged violated the civil rights of African Americans **The Soundscape of Modernity** Emily Thompson,2004-09-17 A vibrant history of acoustical technology and aural culture in early twentieth century America

In this history of aural culture in early twentieth century America Emily Thompson charts dramatic transformations in what people heard and how they listened What they heard was a new kind of sound that was the product of modern technology They listened as newly critical consumers of aural commodities By examining the technologies that produced this sound as well as the culture that enthusiastically consumed it Thompson recovers a lost dimension of the Machine Age and deepens our understanding of the experience of change that characterized the era Reverberation equations sound meters microphones and acoustical tiles were deployed in places as varied as Boston's Symphony Hall New York's office skyscrapers and the soundstages of Hollywood The control provided by these technologies however was applied in ways that denied the particularity of place and the diverse spaces of modern America began to sound alike as a universal new sound predominated Although this sound clear direct efficient and nonreverberant had little to say about the physical spaces in which it was produced it speaks volumes about the culture that created it By listening to it Thompson constructs a compelling new account of the experience of modernity in America

The Palgrave Handbook of Neo-Victorianism Brenda Ayres, Sarah E. Maier, 2024-01-20 This handbook offers analysis of diverse genres and media of neo Victorianism including film and television adaptations of Victorian texts authors life stories graphic novels and contemporary fiction set in the nineteenth century Contextualized by Sarah E Maier and Brenda Ayres in a comprehensive introduction the collection describes current trends in neo Victorian scholarship of novels film theatre crime empire postcolonialism Gothic materiality religion and science amongst others A variety of scholars from around the world contribute to this volume by applying an assortment of theoretical approaches and interdisciplinary focus in their critique of a wide range of narratives from early neo Victorian texts such as A S Byatt's *Possession* 1963 and Jean Rhys's *Wide Sargasso Sea* 1966 to recent steampunk from musical theatre to slumming and from *The Alienist* to queerness in their investigation of how this fiction reconstructs the past informed by and reinforcing the present

Weimar Surfaces Janet Ward, 2001-04-04 Germany of the 1920s offers a stunning moment in modernity a time when surface values first became determinants of taste activity and occupation modernity was still modern spectacle was still spectacular Janet Ward's luminous study revisits Weimar Germany via the lens of metropolitan visual culture analyzing the power that 1920s Germany holds for today's visual codes of consumerism

Abandoned Images Stephen Barber, 2010-04-01 Broadway Avenue in downtown Los Angeles contains an extraordinary collection of twelve abandoned film palaces all built between 1910 and 1931 In most cities worldwide such a concentration of original cinema houses would have been demolished long ago

Signs, Streets, and Storefronts Martin Treu, 2012-10-30 Treu tackles the architectural history and signage of Main Street and the strip from painted boards nailed over crude storefronts to sleek cinemas topped with neon glitz Honorable Mention Architecture and Urban Planning 2012 PROSE Awards Signs Streets and Storefronts addresses more than 200 years of signs and place marking along America's commercial corridors From small town squares to Broadway State Street and Wilshire Boulevard Martin Treu follows design developments into the present

and explores issues of historic preservation Treu considers common architecture and its place defining business signs as well as influential high style design examples by taste making leaders Combining advertising and architectural history the book presents a full picture of the commercial landscape including design adaptations made for motorists and the migration from Main Street to suburbia The dynamic between individual businesses and the common good has a major effect on the appearance of our country s Main Streets Several forces are at work technological advances design imagination and the media corporate propaganda customer needs and municipal mandates Present day controls have often led to a denuding of traditional commercial corridors Such reform Treu argues has suppressed originality and radically cleared away years of accumulated history based on the taste of a single generation A must read for city planners town councils architects sign designers concerned citizens and anyone who cares about the appearance and vitality of America s commercial streets this heavily illustrated book is equally appealing to armchair historians small town enthusiasts and lovers of Americana

Business & Industry Gregory P. Marchildon, 2012 This fourth volume of the History of the Prairie West Series contains fifteen articles examining the rich history of business and early industry in Canada s Prairie Provinces prior to the Great Depression Without denying the central importance of agriculture in the development and growth of the early Prairie West the essays in Business and Industry explore the lesser known history of some of the earliest businesses in the region As we enter the second decade of the twenty first century a time when the three Prairie Provinces comprise the fastest growing and perhaps the most dynamic economic regions in Canada it may be worthwhile to cast our gaze back to an earlier and simpler era In these essays we can glimpse the origins of the entrepreneurial spirit and business ethos that have come to define the business culture of the Prairie West
