Of Shadows and Stars Brandon DenHartog, 2025-04-30 Sisters torn by fate Magic stirs monsters rise and chaos spreads but for some death is merely the beginning **American Anthropologist** , 1902 [Like the Stars](#) Glenn Parkinson, 2004-02-15 Should Christians be fighting a culture war or does the Bible call us to engage society in more positive and effective ways Pastor Glenn Parkinson selects seven key texts in both the Old and New Testaments that outline how evangelicals can recapture their potential to enrich life in America In a free and pluralistic culture the chief social

contribution of Christians is the inspiration of righteousness Responding to the moral decline of America with resentment and hostility does not inspire righteousness it only alienates our neighbors further from us and from the gospel from the Epilogue The Bible gives hope that Christians might turn a decaying society upside down but the answers are not easy We must stop reacting possessively to the crumbling of our Christian heritage and set about the task of winning hearts and minds The time has come to lay down the combative rhetoric that keeps us standing stationary on our principles and move out to engage a dying culture with the gospel that can make a difference And those who are wise shall shine like the brightness of the sky above and those who turn many to righteousness like the stars forever and ever Daniel 12 3

Walking to Australia David Robbins, 2018-04-26 David Robbins published his first short story at 19 and his first book 25 years later In 1986 for The 29th Parallel he was awarded South Africa's prestigious CNA Literary Award after having been shortlisted with Christopher Hope and J M Coetzee Since then he has published extensively on southern African themes becoming established as a writer of extraordinary perception in the literary travel and short fiction genres In 1995 he published the first of two travel books covering 22 countries on the African continent which enjoyed international success and in 2010 he received a Lifetime Achievement Literary Award from the South African Ministry of Arts and Culture A year before receiving this acknowledgement of his contribution to local literature he had already embarked on the major project currently under discussion Several visits to Australia had ignited his interest in the Out of Africa hypothesis of modern humanity's peopling of the world Walking to Australia has been the result of extensive travel in the countries occupying the northern shores of the Indian Ocean and of seven years of intermittent researching and writing The book describes a 21st century journey following the direction taken by anatomically modern humans who left the African nursery around 80000 years ago and reached Australia 20000 years later Along the way they laid the genetic foundations for humanity's oldest civilizations and ultimately inhabited every corner of the globe The result of these travels is not a scientific treatise Although the science is not ignored the centre lies elsewhere The author undertakes this west to east endeavor in the imagined company of his autistic grandson who serves both as confidant and as a human archetype This allows the book to verge upon a unique blend of factual travel writing and an almost magical internalised interpretation What the two travellers find together is a tangle of new experiences and responses from which the linkages between primeval past and complex present gradually emerge Here is a work of literary travel writing that describes an enchanted journey through some of the ancient places of the world and into the currently deeply troubled heart of the human adventure The evidence encountered on the journey suggests that a fundamental universality of humanity's place in the cosmos lies beneath all regional differences and is characterised as much by humility and co operation as it is by the imperative to survive and or the will to power The book does not set out to prove a point however but to celebrate the complexity of human responses It is more a creative work than it is a dissertation with an unambiguous conclusion Nevertheless the bibliography gives an indication of some of the sources

used which includes the work of historians archaeologists political scientists biographers and psychologists as well as authors writing on the various religions of the world
