Shrinking Cities Karina Pallagst, Thorsten Wiechmann, Cristina Martinez-Fernandez, 2013-08-15 The shrinking city phenomenon is a multidimensional process that affects cities parts of cities or metropolitan areas around the world that have experienced dramatic decline in their economic and social bases Shrinkage is not a new phenomenon in the study of cities However shrinking cities lack the precision of systemic analysis where other factors now at work are analyzed the new economy globalization aging population a new population transition and other factors related to the search for quality of life or a safer environment This volume places shrinking cities in a global perspective setting the context for in depth case studies of cities within Mexico Brazil Indonesia Germany France Great Britain South Korea Australia and the USA which consider specific economic social environmental cultural and land use issues

Quietly Shrinking Cities Maxwell Hartt, 2021-04-01 At 5 percent Canada s population growth was the highest of all G7 countries when the most recent census was taken But only a handful of large cities drove that growth attracting human and monetary capital from across the country and leaving myriad social economic and environmental challenges behind Quietly Shrinking Cities investigates a trend that has been largely overlooked over 20 percent of Canadian cities shrank between 2011 and 2016 and twice that proportion grew more slowly than the national average Yet continuous ubiquitous growth is considered normal and policy and planning professionals have had little success in managing the practical challenges associated with population loss Declining birth rates and an aging population only compound the phenomenon This meticulous work demonstrates that shrinking cities need to rethink their planning and development strategies in response to a new demographic reality questioning whether population loss and prosperity are indeed mutually exclusive

Handbook on Shrinking Cities Pallagst, Karina, Bontje, Marco, Cunningham Sabot, Emmanuèle, Fleschurz, René, 2022-10-18 Compelling and engaging this Handbook on Shrinking Cities addresses the fundamentals of shrinkage exploring its causal factors the ways in which

planning strategies and policies are steered and innovative solutions for revitalising shrinking cities Chapters cover topics of governance greening and right sizing and regrowth laying the relevant groundwork for the Handbook s proposals for dealing with shrinkage in the age of COVID 19 and beyond Postsocialist Shrinking Cities Chung-Tong Wu, Maria Gunko, Tadeusz Strykiewicz, Kai Zhou, 2022-05-03 This book provides a comparative analysis of shrinking cities in a broad range of postsocialist countries within the so called Global East a liminal space between North and South While shrinking cities have received increased scholarly attention in the past decades theoretical and empirical research has remained predominantly centered on the Global North This volume brings to the fore a range of new perspectives on urban shrinkage identifying commonalities differences and policy experiences across a very diverse and vivid region with its various legacies and contemporary controversial developments With chapters written by leading experts in the field insider views assist in decolonizing urban theory Specifically the book includes chapters on shrinking cities in China Russia and postsocialist Europe presenting comparative discussions within countries and crossnational cases on theoretical and policy implications The book will be of interest to students and scholars researching urban studies urban geography urban planning urban politics and policy urban sociology and urban development **Shrinking Cities** Harry W. Richardson, Chang Woon Nam, 2014-03-14 This book examines a rapidly emerging new topic in urban settlement patterns the role of shrinking cities Much coverage is given to declining fertility rates ageing populations and economic restructuring as the factors behind shrinking cities but there is also reference to resource depletion the demise of single company towns and the micro location of environmental hazards The contributions show that shrinkage can occur at any scale from neighbourhood to macro region and they consider whether shrinkage of metropolitan areas as a whole may be a future trend Also addressed in this volume is the question of whether urban shrinkage policies are necessary or effective The book comprises four parts world or regional issues with reference to the European Union and Latin America national case studies the United States India China Korea Taiwan Germany Romania and Estonia city case studies Detroit Buffalo Cleveland Naples Belfast and Halle and broad issues such as the environmental consequences of shrinking cities This book will be of interest to scholars and practitioners working in the fields of urban studies economic geography and public policy **Doing International Research** Christopher Williams, 2015-05-15 This energetic and thought provoking book encourages a reflexive non nationalistic approach to doing world research and sets out how to understand plan do and use this research Williams introduces a range of frameworks from desk based studies and traditional ethnography to the use of internet satellites robots drones and big data and provides exciting interdisciplinary examples This book is presented in a clear international style and uses creative approaches to researching peoples places and world systems It explains desk based research using international data including documentaries museum objects archives data sets and working with groups such as refugees tourists and migrants distance research using online videos surveys and remote methods such as video conferencing and crowdsourcing fieldwork abroad

including ethnography street observation and mapping The book is also accompanied by a website with the following features For Students Weblinks for each chapter Examples summaries templates related to text marked with Additional thinking zones An overview of data capture technologies For Lecturers Copies of all the figures and thinking zones for use in teaching material PowerPoint slides for each chapter Built upon the foundations of the author s 30 years of research experience and including original case studies from international students this is an essential guide for anyone in the social sciences using or doing international and global research Parallel Patterns of Shrinking Cities and Urban Growth Rocky Piro,2016-05-06 Focussing particularly on urban fringe and rural areas this book addresses the parallel phenomena of growth and decline In doing so it not only broadens a debate which generally concentrates on urban municipalities especially inner city areas but also covers new ground by starting to build a new theoretical framework for the spatial planning related assessment of these phenomena Bringing together contributions from internationally renowned authors such as Sir Peter Hall Steve Ward and Johann Jessen the book compares international case studies and highlights their relationships with one another It concludes by emphasizing common themes that are addressed as well as showing applicability to other urban and rural regions Overall the book provides a timely and comprehensive analysis of the spatial consequences and related spatial planning concepts in theory and practice which aim to further sustainable development of city regions urban fringe and rural areas experiencing growth and decline A Research Agenda for Shrinking Cities Justin Hollander,2018-01-26 This prescient book presents the intellectual terrain of shrinking cities while exploring the key research questions in each of the field s sub domains and reviewing the range of methodologies within these topics
