Shrouded Planet:

The Planet of Doubt Stanley G. Weinbaum, 2018-03-16 This is a classic science fiction short story by Stanley G. Weinbaum that was originally published in *Astounding Stories* in 1935. This story is the third story of Weinbaum's to feature the characters of Hamilton Ham Hammond and Patricia Burlingame. In this instalment the pair travel to Uranus to explore its north pole where they encounter bizarre flora and fauna. This work is part of our Vintage Sci Fi Classics Series, a series in which we are republishing some of the best stories in the genre by some of its most acclaimed authors such as Isaac Asimov, Marion Zimmer Bradley, and Robert Sheckley. Each publication is complete with a short introduction to the history of science fiction.

The Tomb of the Devils Michael D. Christensen, 2006-01-26 Ninety five years ago the enormous interplanetary space vehicle the *Pacifica* with a numerous crew suddenly and inexplicably disappeared as it neared the planet Pluto. None of the probes directed towards the planet after the disaster found any evidence that the vessel and its crew had ever existed. Now a century later the wreck of the huge ship has been sighted lying shrouded in the hazy black starlight on the Plutonian surface. A shuttle has been fitted for the dangerous journey to the seventh planet and with three crewmembers aboard has made the first attempt to reach Pluto since the loss of the *Pacifica*. As the shuttle approaches the planet it also suddenly and inexplicably disappears and is lost. Although the crew of three is believed to have perished they have not and will carry on with their mission to determine how the *Pacifica* met its fate. The truth however may be found only beyond reason or even beyond imagination and the three astronauts may wish that they never sought answer to this great mystery.

Lives of the Planets Richard Corfield, 2007-08-01 *Lives of the Planets* describes a scientific field in the midst of a revolution. Planetary science has mainly been a descriptive science but it is becoming increasingly experimental. The space probes that went up between the 1960s and 1990s were primarily generalists; they collected massive amounts of information so that scientists could learn what questions to pursue. But recent missions have become more focused. Scientists know better what information they want and how to collect it. Even now probes are on their way to Mercury, Venus, Mars, and Pluto, with Europa, one of Jupiter's moons, on the agenda. In a sweeping look into the manifold objects inhabiting the depths of space, *Lives of the Planets* delves into the mythology and the knowledge humanity has built over the ages. Placing our current understanding in historical context, Richard Corfield explores the seismic shifts in planetary astronomy and probes why we must change our perspective of our place in the universe. In our era of extraordinary discovery, this is the first comprehensive survey of this new understanding and the history of how we got here.

God in Us Dr. John Sjostedt, 2018-07-03 In his lives, author Dr. John Sjostedt has been a soldier and a priest as well as a farmer in Iraq, a squaw with children, an Indian, a Sadhu, and many other incarnations. These experiences have given him a larger understanding of the world. With this sweeping knowledge, he shares a thought-provoking and spiritually enriching look on religion and its iterations. Through the collection of writings in *God in Us*, Sjostedt addresses an array of topics including Creation, The Law of Intended Consequences, and free will.

Modifying and moderating free will The Jews and the Essenes Jesus the origins of Christianity and the Bible The divinity of Jesus and the Christian church Parallels between Christianity and Paganism God in us Attaining enlightenment The presence of evil When God becomes wanton Lucifers tale In God in Us Sjostedt begins to unravel the content of Jesus true gospel An agnostic Sjostedt argues God is an unprovable hypothesis He cannot prove he exists but others cannot prove he doesnt However the beauty of the world attests to the hand of God God is the one power in from whom all life and matter evolve
