Siblings In South Asia Brothers And Sisters In Cultural Context:

Siblings in South Asia Charles William Nuckolls,1993 Addressing the issues of greatest concern to psychologists and anthropologists alike this interdisciplinary volume including social and structural developmental psychological psychoanalytic and ethnopsychological perspectives examines the development of sibling relationships in several different

Brothers and Sisters in India G. N. Ramu,2006-01-01 Indian society is rapidly becoming more urban and while the level of urbanization and the values associated with it have yet to correspond with those of Western societies the traditional ethos governing sibling relations is becoming increasingly less relevant G N Ramu explores this phenomenon in *Brothers and Sisters in India* the first detailed study of adult siblings in contemporary Indian society Based on sixteen months of field work in the city of Mysore and over three decades of research in this area Ramu s study focuses on the three types of sibling relationships fraternal sororal and cross sibling and examines the frequency of interaction the level of mutual assistance and the incidence of conflict and strain between brothers and sisters *Brothers & Sisters: Myth and Reality* Henry

Abramovitch,2025-10-07 How would depth psychology have evolved if Freud and Jung had used the Bible for inspiration instead of Greek Mythology These founders both privileged firstborns would have immediately discovered the central role sisters and brothers play in our social life in our psyche and in our clinical work Drawing on the original Hebrew text of Genesis beginning with the primal story of Cain and Abel this unusual book explores the tension within the brother sister archetype between cooperation and competition and between the myth and the reality of being brothers having sisters as well as the repeating motif of the missing brother or absent sister Exploring all 33 brother sister stories in Scripture author Henry Abramovitch examines the developmental sequence within brotherhood sisterhood as we struggle to find a place for each other His knowledge of Indian epics linguistics anthropology and years of clinical experience deepen the work and so highlights the crucial role sibling dynamics plays in the formation of our identity in the transference and especially in the process of individuation Abramovitch develops a new vocabulary to examine the depth psychology of siblings such as shadow sibling sibling stranger Abel and Cain complex polarized identity and other innovative concepts The book concludes with a very personal account of his own relationship with his brother and sister This masterwork allows us to return to our roots and rediscover the significance of brothers and sisters in depth *A Group-Analytic Exploration of the Sibling Matrix* Val

Parker,2019-11-19 *A Group Analytic Exploration of the Sibling Matrix* How Siblings Shape our Lives offers a fresh approach to siblings recognising how these relationships are embedded in the framework of the family and how sibling experiences shape our lives influencing relationships with partners friends and colleagues and affecting how we take our place in groups and in society The book is divided into three parts Part One focuses on the sibling life cycle exploring how these relationships shift and change throughout life according to context and circumstances In Part Two Parker uses clinical examples to consider how therapists working with individuals and groups might expand their thinking to incorporate the sibling matrix

The final part investigates how the sibling matrix manifests in organisational life and considers how we might develop mutuality and cooperation in our universal sibling matrix Drawing on the author's wealth of experience as a clinician the book incorporates compelling personal stories and clinical examples to bring to life the realities and nuances the good and bad the healthy and supportive and also the potentially damaging aspects of sibling relationships Accessibly written this is a rich and rewarding invitation to reflect on our own experience whether as clinicians researchers or as members of our own sibling matrix

The Anthropology of Sibling Relations E. Alber, C. Coe, T. Thelen, 2013-07-17 Drawing on international case studies the contributors extrapolate a systematization of the ways in which siblingship is conceived on the basis of shared parentage shared childhoods and reciprocal care They explore what makes these relations worth maintaining and how they contribute to community processes and to material and emotional survival

Why Siblings Matter Naomi White, Claire Hughes, 2017-10-02 Many people grow up with at least one sibling These siblings are often fellow travellers through adversity or significant life events they can act as a source of support for some children while a source of conflict for others For these reasons siblings are a potentially powerful influence on development and this book is one of the first of its kind to provide an overview of cutting edge psychological research on this important relationship *Why Siblings Matter* is a cornerstone text on siblinghood Integrating findings from a 10 year longitudinal study alongside wider research it provides a lifespan perspective examining the impact of sibling relationships on children's development and well being This text situates siblings in their historical developmental and family context considers the influence of siblings on children's development and adjustment and provides an introduction to new research on siblings in diverse contexts The authors discuss sibling relationships in varied populations such as siblings with disabilities siblings in different cultures and siblings in non traditional families while also considering the practical implications of research Covering both classical studies and new results this book offers take home messages for promoting positive sibling interactions It will be invaluable reading for students and researchers in developmental psychology and family studies and professionals in education health and social work

Derne,1995-07-01 In Culture in Action Derne explores the interconnections between male dominance joint family living Indian emotional life and a cultural focus on group pressures Derne emphasizes the Hindu focus on the social group but shows that men often distance themselves from group culture by marrying for love separating from their parents or embracing closeness with their wives Derne s suggestion that Indian men s cultural focus on the group limits men s and women s strategies for breaking cultural norms offers a new approach to understanding how culture constrains He shows how the child rearing practices and emotional tensions associated with joint family living shape Indians group emphasis This approach suggests that the Hindu focus on the group is intimately connected with male dominance *The Right Spouse* Isabelle Clark-Decès,2014-04-30 The Right Spouse is an engaging investigation into Tamil South Indian preferential close kin marriages so called Dravidian Kinship This book offers a description and an interpretation of preferential marriages with close kin in South India as they used to be arranged and experienced in the recent past and as they are increasingly discontinued in the present Clark Dec s presents readers with a focused anthropology of this waning marriage system its past present and dwindling future The book takes on the main pillars of Tamil social organization considers the ways in which Tamil intermarriage establishes kinship and social rank and argues that past scholars have improperly defined Dravidian kinship Within her critique of past scholarship Clark Dec s recasts a powerful and vivid image of preferential marriage in Tamil Nadu and how those preferences and marital rules play out in lived reality What Clark Dec s discovers in her fieldwork are endogamous patterns and familial connections that sometimes result in flawed relationships contradictory statuses and confused roles The book includes a fascinating narration of the complex terrain that Tamil youth currently navigate as they experience the complexities and changing nature of marriage practices and seek to reconcile their established kinship networks to more individually driven marriages and careers **The Cultural Dialectics of Knowledge and Desire** Charles William Nuckolls,1996
