The Cult of Saint Catherine of Siena Gerald Parsons, 2008 This book examines the origins development and history of the cult of Saint Catherine of Siena Gerald Parsons argues that the cult of Catherine of Siena constitutes a remarkable example of the cult of a particular saint which across more than six centuries has been the vehicle for an evolving sequence of civil religious rituals and meanings He shows how the cult of this particular saint developed firstly as an expression of Sienese civil religion secondly as a focus for Italian civil religion and finally into an expression of European civil religion Instead of the predominantly devotional and frequently essentially hagiographical approach of much of the literature on Catherine of Siena Parsons examines the significance of her cult from the perspective of civil religion and the social history of religion

Food, Sex and Strangers Graham Harvey, 2014-09-11 Religion is more than a matter of worshipping a deity or spirit For many people religion pervades every part of their lives and is not separated off into some purely private and personal realm Religion is integral to many people's relationship with the wider world an

aspect of their dwelling among other beings both human and other than human and something manifested in the everyday world of eating food having sex and fearing strangers Food Sex and Strangers offers alternative ways of thinking about what religion involves and how we might better understand it Drawing on studies of contemporary religions especially among indigenous peoples the book argues that religion serves to maintain and enhance human relationships in and with the larger than human world Fundamentally religion can be better understood through the ways we negotiate our lives than in affirmations of belief and it is best seen when people engage in intimate acts with themselves and others Republicanism Fabrizio Ricciardelli, Marcello Fantoni, 2020-04-24T16:26:00+02:00 We live in a world in which almost all states purport to be republican Very few adhere to the Ciceronian concept of res publica understood as that which belongs to the popolo respublica respopuli and which has the observance of the law and the commonality of interests as its foundation The concept of republicanism is traditionally connected to the principle that true political freedom consists of not being subject to the arbitrary will of any man or group of men and it requires equality of civil and political rights Republicanism has attracted scholars who aim to develop insights from the classical republican tradition into an attractive political doctrine suitable for modern pluralistic societies The volume examines republicanism from an historical and theoretical perspective after many years of scholarly investigation and debate *The Lay Saint* Mary Harvey Doyno, 2019-10-15 In *The Lay Saint* Mary Harvey Doyno investigates the phenomenon of saintly cults that formed around pious merchants artisans midwives domestic servants and others in the medieval communes of northern and central Italy Drawing on a wide array of sources vitae documenting their saintly lives and legends miracle books religious art and communal records Doyno uses the rise of and tensions surrounding these civic cults to explore medieval notions of lay religiosity charismatic power civic identity and the church's authority in this period Although claims about laymen's and laywomen's miraculous abilities challenged the church's expanding political and spiritual dominion both papal and civic authorities Doyno finds vigorously promoted their cults She shows that this support was neither a simple reflection of the extraordinary lay religious zeal that marked late medieval urban life nor of the Church's recognition of that enthusiasm Rather the history of lay saints cults powerfully illustrates the extent to which lay Christians embraced the vita apostolica the ideal way of life as modeled by the Apostles and of the church's efforts to restrain and manage such claims **Trames**, 2006 **Early Modern Visual Allegory** Cristelle Baskins, 2017-09-29 The first book in over twenty five years devoted solely to allegory and personification in art history this anthology complements current literary and cultural studies of allegory The volume re-examines early modern allegorical imagery in light of crucial material contextual and methodological questions how are allegories conceived for whom and for what purposes Contributors consider a wide range of allegorical representations in the visual arts and material culture of both early modern Europe and the colonial New World 1400 1800 Essays included here examine paintings sculpture prints architecture and the spaces of public ritual while discussing the process and theory of interpretation formation of audiences
