Lawrence Jenkens, 2005-08-01 The art of Renaissance Siena is usually viewed in the light of developments and accomplishments achieved elsewhere but Sieneese artists were part of a dynamic dialogue that was shaped by their city s internal political turmoil diplomatic relationships with its neighbors internal social hierarchies and struggle for self definition These essays lead scholars in a new and exciting direction in the study of the art of Renaissance Siena exploring the cultural dynamics of the city and its art in a specifically Sieneese context This volume shapes a new understanding of Sieneese culture in the early modern period and defines the questions scholars will continue to ask for years to come What emerges is a picture of Renaissance Siena as a city focused on meeting the challenges of the time while formulating changes to shape its future Central to these changes are the city s efforts to fashion a civic identity through the visual arts **Siena and the Virgin** Diana Norman, 1999-01-01 Celebrating the Virgin Mary as both an object of religious affection and a focus of civic pride artists of fourteenth century Siena established for their city a vibrant tradition that continued into the early decades of the next century Such celebratory portraits of the Virgin were also common in Siena s extensive subject territories the contado This richly illustrated book explores late medieval Sieneese art how it was created commissioned and understood by the citizens of Siena Examining political economic and cultural relations between Siena and the contado Diana Norman offers a new understanding of Marian art and its political function as an expression of civic ideology Drawing on extensive unpublished archives Norman reconstructs the circumstances surrounding the commission of Marian art in the three most prestigious locations of fourteenth century Siena the cathedral the Palazzo Pubblico and the hospital of Santa Maria della Scala She analyzes similarly important commissions in the contado towns of Massa Marittima Montalcino and Montepulciano Casting new light on such topics as the original site for the reliquary tomb of Saint Cerbone patron saint of Massa Marittima

and the identity of the patrons of the Marian frescoes in the rural hermitage of San Leonardo al Lago the author deepens our insight into the origins and meanings of Sienese art production of the late medieval period **World of Art Sieneses**

Painting Timothy Hyman,2003-10-28 Perceptive visual analysis guides the reader through the golden age of Sienese painting from 1278 to 1477 featuring the masterpieces of Duccio and Lorenzetti also including discussion and illustration of less well known works by artists such as Giovanni di Paolo and the Master of Osservanza A broadly chronological approach is adopted with each chapter devoted to the work of one artist or group colour and spatial inventiveness in panel painting frescoes and manuscript illumination The first two executed for both religious and civic institutions form the focus of the book Painting is situated in its social and religious context with an emphasis on the Franciscan movement the cult of the Virgin Mary and the veneration of local saints and discussion of Siena s civic self consciousness and the dramatic impact of the Black Death among artists and historians and its relevance for modern painters **Art as Politics in Late Medieval**

and Renaissance Siena Timothy B. Smith,Judith Belle Steinhoff,2012 Clearly establishing uniquely Sienese artistic agendas and vocabulary the essays collected here broaden our understanding of the intersection of art politics and religion in Siena by revisiting its medieval origins and exploring its continuing role in the Renaissance Engaging issues of the politicization of art in Sienese painting sculpture architecture and urban design the volume challenges the still prevalent myth of Siena s cultural and artistic conservatism after the mid fourteenth century **Painting in Late Medieval and Renaissance**
