owers which are cast aside when the order cools or are carried indoors where their beauty soon fades Those who know the plants love them and like them best in their natural surroundings Flowers are most attractive in their native haunts and visitors to our mountains enjoy them from the trails If the depredations continue it will soon be necessary for the authorities to enact regulations against the plucking of all owers as they now prohibit the gathering of snow plants About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
