The Social Study of Judaism Jacob Neusner, 1988 *Inner-Midrashic Introductions and Their Influence on Introductions to Medieval Rabbinic Bible Commentaries* Michel G. Distefano, 2009-02-26 The opening sections of some exegetical Midrashim deal with the same type of material that is found in introductions to medieval rabbinic Bible commentaries The application of Goldberg's form analysis to these sections reveals the new form Inner Midrashic Introduction IMI as a thematic discourse on introductory issues to biblical books By its very nature the IMI is embedded within the comments on the first biblical verse 1:1 Further analysis of medieval rabbinic Bible commentary introductions in terms of their formal thematic and material characteristics reveals that a high degree of continuity exists between them and the IMIs including another newly discovered form the Inner Commentary Introduction These new discoveries challenge the current view that traces the origin of Bible introduction in Judaism exclusively to non Jewish models They also point to another important link between the Midrashim and the commentaries i.e. the decomposition of the functional form midrash in the new discursive context of the commentaries Finally the form analysis demonstrates how larger discourses are formed in the exegetical Midrashim

The Philosophical Mishnah: The tractates' agenda Jacob Neusner, 1989 **A History of Biblical Interpretation, Vol. 2** Alan J. Hauser, Duane F. Watson, 2009-11-10

History of Biblical Interpretation provides detailed and extensive studies of the interpretation of the Scriptures by Jewish and Christian writers throughout the ages. Written by internationally renowned scholars, this multivolume work comprehensively treats the many different methods of interpretation, the many important interpreters from various eras, and the many key issues that have surfaced repeatedly over the long course of biblical interpretation. This second installment contains essays by fifteen noted scholars discussing major methods, movements, and interpreters in the Jewish and Christian communities from the beginning of the Middle Ages until the end of the sixteenth century Reformation. The authors examine such themes as the variety of interpretive developments within Judaism during this period, the monumental work of Rashi and his followers, the achievements of the Carolingian era, and the later scholastic developments within the universities beginning in the twelfth century.

The Book of Jewish Wisdom Jacob Neusner, Noam M. M. Neusner, 2001. Presents parts of the Judaic tradition of wisdom concentrating on the oral part of the Torah represented by the documents of law and scriptural exegesis.

Mapping the New Testament Serge Ruzer, 2007. This volume consists of eight chapters dealing with a selected topic in New Testament biblical interpretation, its inherited elements, and its relevance for better understanding of wider Jewish exegetical trends.

Three Questions of Formative Judaism Jacob Neusner, 2021-10-01. The academic study of Judaism requires a systematic inquiry into the history, literature, and religion, and eventually the theology as revealed in the historical documents themselves. Under this premise, *Three Questions of Formative Judaism* encounters the canonical writings of Judaism in the context of their creation at a certain time and place. How something is said thus becomes as important as what is said. Bringing nearly fifty years of research to bear on these fundamental questions, Jacob Neusner challenges his readers to face the difficult, often unasked or neglected questions about the nature, background, and purposes of Rabbinic Judaism, and rewards them with an enriched understanding and a stronger foundation for tackling the even more elusive questions concerning the theology of formative Judaism. This publication has also been published in paperback; please click here for details.

The Documentary History of Judaism and Its Recent Interpreters Jacob Neusner, 2012-07-10. The result for the history of Judaism of a documentary reading of the Rabbinic canonical sources illustrates the working of that hypothesis. It is the first major outcome of that hypothesis, but there are other implications, and a variety of new problems emerge from time to time as the work proceeds. In the recent past, Neusner has continued to explore special problems of the documentary hypothesis of the Rabbinic canon. At the same time, Neusner notes others join in the discussion that have produced important and ambitious analyses of the thesis and its implications. Here, Neuser has collected some of the more ambitious ventures into the hypothesis and its current recapitulations. Neusner begins with the article written by Professor William Scott Green for the *Encyclopaedia Judaica* second edition, as Green places the documentary hypothesis into the context of Neusner's entire oeuvre. Neuser then reproduces what he regards as the single most successful venture of the documentary hypothesis, contrasting between the Mishnah's and the Talmuds' programs for the social order of Israel, the doctrines of economics,

politics and philosophy set forth in those documents respectively Then come the two foci of discourse Halakhah or normative law and Aggadah or normative theology Professors Bernard Jackson of the University of Manchester England and Mayer Gruber of Ben Gurion University of the Negev treat the Halakhic program that Neusner has devised and Kevin Edgecomb of the University of California Berkeley has produced a remarkable summary of the theological system Neusner discerns in the Aggadic documents Neusner concludes with a review of a book by a critic of the documentary hypothesis
