Modelling the De Havilland Mosquito Roy Sutherland, 2012-07-20 First entering service in 1941 the legendary all wooden Mosquito was one of the best twin engined aircraft of its size to see action in World War II The addition of radar turned the Mosquito into the RAF s premier night fighter and it achieved great success in the defence of Britain with some 600 raiders and 600 V1 rockets falling to its guns between 1942 and 1945 The design s superb performance and ability to escape interception by enemy fighters also made the Mosquito the ideal choice for the RAF s photographic reconnaissance force This wide range of roles across multiple theatres and air forces are all reflected in the variety of kits built and colour schemes shown throughout this book
