### **Microcosm A Portrait Of A Central European City:**

Microcosm Norman Davies, Roger Moorhouse, 2002 A vivid exploration of what it means to be Central European using the city of Breslau as a microcosm of the region Central Europe has always been endowed with a rich variety of migrants and settlers and has repeatedly been the scene of nomadic invasions mixed settlements and military conquests As a result the area has witnessed a profusion of languages cultures religions and nationalities The history of Silesia s main city can be seen as a fascinating tale in its own right but it is more than that It embodies all the experiences which have made Central Europe what it is the rich mixture of nationalities and cultures the German settlement and the reflux of the Slavs a Jewish presence of exceptional distinction a turbulent succession of Imperial rulers and the shattering exposure to both Nazis and Stalinists In short it is a Central European microcosm The third largest German city of the mid nineteenth century Breslau s population reached one million in 1945 before the bitter German defence of the city against the Soviets wrought almost total destruction Transferred to Poland after the war Breslau has risen from ruins and is again a thriving economic and cultural centre of the region

**Narratives of the European Border** R. Robinson, 2007-10-23 Richard Robinson examines the representation of shifting European borders in twentieth century narrative drawing together an unusual grouping of texts from different national canons and comparing the various ways that fictional settings transmute European placelessness into narrative

**A Modern History of European Cities** Rosemary Wakeman, 2020-01-23 Rosemary Wakeman s original survey text comprehensively explores modern European urban history from 1815 to the present day It provides a journey to cities and towns across the continent in search of the patterns of development that have shaped the urban landscape as indelibly European The focus is on the built environment the social and cultural transformations that mark the patterns of continuity and change and the transition to modern urban society Including over 60 images that serve to illuminate the analysis the book examines whether there is a European city and if so what are its characteristics Wakeman offers an interdisciplinary approach that incorporates concepts from cultural and postcolonial studies as well as urban geography and provides full coverage of urban society not only in western Europe but also in eastern and southern Europe using various cities and city types to inform the discussion The book provides detailed coverage of the often neglected urbanization post 1945 which allows us to more clearly understand the modernizing arc Europe has followed over the last two centuries

**Afterlight** Isa Milman, 2021-09-06 A haunting memoir of war genocide displacement and a daughter s search for the literary works of her mother s murdered twin Grieving the death of her mother in 2013 author Isa Milman embarked on a heart wrenching journey to unravel a family mystery the whereabouts of her aunt s long lost poems published in Poland in the early 1930s which evolved into a broader investigation of her family s life before during and after the Holocaust This powerful memoir chronicles a lesser known chapter of the Second World War through the story of two sisters Sabina Isa s mother who survived the war and Basia Sabina s twin who did not Exploring themes of loss and displacement regeneration and resilience

Isa discovers how her own story is woven into the immense yet intricate tapestry of the Jewish experience As she delves into her family s history accompanied by her husband a native British Columbian she travels to contemporary Poland Ukraine and Germany and tries to reconcile her shifting appreciation of people and place in a world where anti Semitism and other forms of extremism are on the rise once again **Explorations in Baltic Medical History, 1850-2015** Nils Hansson,Jonatan

Wistrand,2019 This book explores the history of medicine in the Baltic Sea region and provides different answers to one central question How has the circulation of knowledge in the Baltic Sea region influenced medicine as a discipline and illness as an experience during the nineteenth and twentieth centuries From synopsis The War of the World Niall

Ferguson,2012-11-06 From the bestselling author of The Ascent of Money and The Square and the Tower Even those who have read widely in 20th century history will find fresh surprising details The Boston Globe A fascinating read thanks to Ferguson s gifts as a writer of clear energetic narrative history The Washington Post Astonishing in its scope and erudition this is the magnum opus that Niall Ferguson s numerous acclaimed works have been leading up to In it he grapples with perhaps the most challenging questions of modern history Why was the twentieth century history s bloodiest by far Why did unprecedented material progress go hand in hand with total war and genocide His quest for new answers takes him from the walls of Nanjing to the bloody beaches of Normandy from the economics of ethnic cleansing to the politics of imperial decline and fall The result as brilliantly written as it is vital is a great historian s masterwork **The Abyss** Niall

Ferguson,2012-10-23 Excerpted from Niall Ferguson s sprawling bestseller The War of the World The Abyss now stands on its own as one of the most thrilling short histories of World War I ever written This is not a conventional military history about battles and generals Rather The Abyss examines how World War I saw the birth of total war fought between societies as much as armies and must therefore be understood in terms of the financial crises it unleashed the multinational empires it destroyed and the hateful ideas it propagated The most remarkable thing about the war Ferguson shows us is how shockingly unexpected it was At a time when economic integration and technology seemed to be rendering war between great powers impossible World War I was the moment when that process went into reverse and the lethal forces of ethnic disintegration took over Now on the cusp of the 100th anniversary of its outbreak we can see World War I as much more than just four years of industrialized slaughter Weaving together the economics of empire and the ideology of race and featuring an original preface by the author as well a teaser from his new paperback Civilization The Abyss is world history at its finest

Authority and Identity R. Millar,2010-07-21 This is a history of Europe unlike any other a theory informed history of its language use The rise and fall of languages are recounted along with an analysis of why periods of linguistic diversity are followed by hegemony How did the sociolinguistic past differ from the sociolinguistic present Annihilation Mark

**at the Water's Edge** Tricia Cusack, 2017-07-05 The water's edge whether shore or riverbank is a marginal territory that becomes invested with layers of meaning The essays in this collection present intriguing perspectives on how the water's edge has been imagined and represented in different places at various times and how this process contributed to the formation of social identities *Art and Identity at the Water's Edge* focuses upon national coastlines and maritime heritage on rivers and seashore as regions of liminality and sites of conflicting identities and on the edge as a tourist setting Such themes are related to diverse forms of art including painting architecture maps photography and film Topics range from the South African seaside resort of Durban to the French Riviera The essays explore successive ideological mappings of the Jordan River and how Czech cubist architecture and painting shaped a new nationalist reading of the Vltava riverbanks They examine post Hurricane Katrina New Orleans as a filmic spectacle that questions assumptions about American identity and the coast depicted as a site of patriotism in nineteenth century British painting The collection demonstrates how waterside structures such as maritime museums and lighthouses and visual images of the water's edge have contributed to the construction of cultural and national identities *Forbidden Music* Michael Haas, 2013-06-18 Offers a study of the Jewish composers and musicians banned by the Third Reich and describes the consequences for music around the world

**The Living Philosophy of Edith Stein** Peter Tyler,2022-12-29 Studying with Husserl in Göttingen becoming a Carmelite nun and finally meeting her death in Auschwitz the multifaceted life of Edith Stein 1891 1942 is well known But what about her writing Have the different aspects of her scholarship received sufficient attention Peter Tyler thinks not and by drawing on previously untranslated and neglected sources he reveals how Stein's work lies at the interface of philosophy psychology and theology Bringing Stein into conversation with a range of scholars and traditions this book investigates two core elements of her thinking From Nietzsche to Aquinas psychoanalysis to the philosophy of the soul and even the striking parallels between Stein's thought and Buddhist teaching Tyler first unveils the interdisciplinary nature of what he terms her spiritual anthropology Second he also explores her symbolic mentality Articulating its poetic roots with the help of English poetry and medieval theology he introduces Stein's self-named philosophy of life Considered in the context of her own times *The Living Philosophy of Edith Stein* unearths Stein's valuable contributions to numerous subjects that are still of great importance today including not only the philosophies of mind and religion but also social and political thought and the role of women in society By examining the richness of her thinking informed by three disciplines and the tumultuous first half of the twentieth century Tyler shows us how Edith Stein is the guide we all need as we seek to develop our own philosophy for life in the contemporary world

**The Making of Modern Turkey** Ugur Ümit Üngör,2012-03-01 The eastern provinces of the Ottoman Empire used to be a multi-ethnic region where Armenians Kurds Syriacs Turks and Arabs lived together in the same villages and cities The disintegration of the Ottoman Empire and rise of the nation state violently altered this situation Nationalist elites intervened in heterogeneous populations they identified as objects of knowledge management and change These often violent processes of state formation destroyed historical regions and emptied multicultural cities clearing the way for modern nation states *The Making of Modern Turkey* highlights how the Young Turk regime from 1913 to 1950 subjected Eastern Turkey to various forms of nationalist population policies aimed at ethnically homogenizing the region and incorporating it in the Turkish nation state It examines how the regime utilized technologies of social engineering such as physical destruction deportation spatial planning forced assimilation and memory politics to increase ethnic and cultural homogeneity within the nation state Drawing on secret files and unexamined records Ugur Üngör demonstrates that concerns of state security ethnocultural identity and national purity were behind these policies The eastern provinces the heartland of Armenian and Kurdish life became an epicenter of Young Turk population policies and the theatre of unprecedented levels of mass violence

[The Blue Suitcase](#) Marianne Wheelaghan,2010-11-30 It is 1932 Silesia Germany and the eve of Antonia's 12th birthday Hitler's Brownshirts and Red Front Marxists are fighting each other in the streets Antonia doesn't care about the political unrest but it's all her family argue about Then Hitler is made Chancellor and order is restored across the country but not in Antonia's family The longer the National Socialists stay in

power the more divided the family becomes with devastating consequences Unpleasant truths are revealed and terrible lies uncovered Antonia thinks life can't get much worse and then it does Partly based on a true life story Antonia's gripping diary takes the reader inside the head of an ordinary teenage girl growing up Her journey into adulthood however is anything but ordinary

**Translation and Identity** Michael Cronin, 2006-09-27 Michael Cronin looks at how translation has played a crucial role in shaping debates about identity language and cultural survival in the past and in the present He explores how everything from the impact of migration on the curricula for national literature courses to the way in which nations wage war in the modern era is bound up with urgent questions of translation and identity Examining translation practices and experiences across continents to show how translation is an integral part of how cultures are evolving the volume presents new perspectives on how translation can be a powerful tool in enhancing difference and promoting intercultural dialogue Drawing on a wide range of materials from official government reports to Shakespearean drama and Hollywood films Cronin demonstrates how translation is central to any proper understanding of how cultural identity has emerged in human history and suggests an innovative and positive vision of how translation can be used to deal with one of the most salient issues in an increasingly borderless world

**Contested Cities in the Modern West** A. Hepburn, 2004-04-07 Cities are close knit communities When rival ethnic groups develop which refuse to concede predominance deep conflicts may occur Some have been managed peacefully as in Brussels and Montreal Other cases such as Danzig Gdansk and Trieste have more or less forcefully been resolved in favour of one of the parties In further cases such as Belfast and Jerusalem protracted violence has not delivered a solution Contested Cities in the Modern West examines the roles of international interventions state policies and social processes in influencing such situations with particular reference to the above cases

**The Destruction of Memory** Robert Bevan, 2007-04-20 Crumbled shells of mosques in Iraq the bombing of British cathedrals in World War II the fall of the World Trade Center towers on September 11 when architectural totems such as these are destroyed by conflicts and the ravages of war more than mere buildings are at stake The Destruction of Memory reveals the extent to which a nation weds itself to its landscape Robert Bevan argues that such destruction not only shatters a nation's culture and morale but is also a deliberate act of eradicating a culture's memory and ultimately its existence Bevan combs through world history to highlight a range of wars and conflicts in which the destruction of architecture was pivotal From Cortez's razing of Aztec cities to the carpet bombings of Dresden and Tokyo in World War II to the war in the former Yugoslavia The Destruction of Memory exposes the cultural war that rages behind architectural annihilation revealing that in this subliminal assault lies the complex aim of exterminating a people He provocatively argues for the fatally intertwined experience of genocide and cultural genocide ultimately proposing the elevation of cultural genocide to a crime punishable by international law In an age in which Frank Gehry I M Pei and Frank Lloyd Wright are revered and yet museums and temples of priceless value are destroyed in wars around the world Bevan challenges the notion of collateral damage arguing that it is in fact a deliberate

act of war
