Moral Responsibility In Prolonging Life Decisions:

Moral Responsibility in Prolonging Life Decisions Donald G. McCarthy, Albert S. Moraczewski, 1981 This book has been prepared as a resource contribution to the Church's ministry to suffering and dying persons and to the healing and caring ministry of countless health care professionals As chapter 7 indicates the theological tradition of a limited responsibility for prolonging life in the face of burdensome medical treatments has a long and honorable history in the Church The Pope John XXIII Center for Medical Moral Research and Education which has dedicated itself to the task of applying Church teaching to contemporary medical moral issues offers this resource volume as a continuation of that history from Preface **Source**

Book in Bioethics Albert R. Jonsen, Robert M. Veatch, LeRoy Walters, 1999-09-07 Government agencies and commissions courts and legislatures have during the past several decades produced reports rendered decisions and passed laws that have both defined the fundamental issues in the field of bioethics and established ways of managing them in our society Providing a history of these key bioethical decisions this Source Book in Bioethics is the first and only comprehensive collection of the critical public documents in biomedical ethics including many hard to find or out of print materials Covering the period from 1947 to 1995 this volume brings together core legislative documents court briefs and reports by professional organizations public bodies and governments around the world Sections on human experimentation care of the terminally ill genetics human reproduction and emerging areas in bioethics include such pivotal works as The Nuremberg Code The Tuskegee Report and In the Matter of Baby M as well less readily available documents as The Declaration of Inuyama the Council for International Organizations of Medical Sciences statement on genetic engineering and The Warnock Committee Report on reproductive technologies from the United Kingdom Three eminent scholars in the field provide brief introductions to each document explaining the significance of these classic sources This historical volume will be a standard text for courses in bioethics health policy and death and dying and a primary reference for anyone interested in this increasingly relevant field

Artificial Nutrition and Hydration and the Permanently Unconscious Patient Ronald P. Hamel, James J. Walter, 2007-09-13 During the past few decades high profile cases like that of Terry Schiavo have fueled the public debate over forgoing or withdrawing artificial nutrition and hydration from patients in a persistent vegetative state PVS These cases whether involving adults or young children have forced many to begin thinking in a measured and careful way about the moral legitimacy of allowing patients to die Can families forgo or withdraw artificial hydration and nutrition from their loved ones when no hope of recovery seems possible Many Catholics know that Catholic moral theology has formulated a well developed and well reasoned position on this and other end of life issues one that distinguishes between ordinary and extraordinary treatment But recent events have caused uncertainty and confusion and even acrimony among the faithful In his 2004 allocution Pope John Paul II proposed that artificial nutrition and hydration is a form of basic care thus suggesting that the provision of such care to patients neurologically incapable of feeding themselves should be considered a moral

obligation The pope's address which seemed to have offered a new development to decades of Catholic health care ethics sparked a contentious debate among the faithful over how best to treat permanently unconscious patients within the tenets of Catholic morality In this comprehensive and balanced volume Ronald Hamel and James Walter present twenty one essays and articles contributed by physicians clergy theologians and ethicists to reflect the spectrum of perspectives on the issues that define the Catholic debate Organized into six parts each with its own introduction the essays offer clinical information on PVS and feeding tubes discussions on the Catholic moral tradition and how it might be changing ecclesiastical and pastoral statements on forgoing or withdrawing nutrition and hydration theological and ethical analyses on the issue commentary on Pope John Paul II's 2004 allocution and the theological commentary court decisions and public policy resulting from the Clarence Herbert and Claire Conroy legal cases A valuable resource for students and scholars this teachable volume invites theological dialogue and ethical discussion on one of the most contested issues in the church today

Death and Dying Thomas A. Shannon, 2004-05-03 Over a decade ago the field of bioethics was established in response to the increased control over the design of living organisms afforded by both medical genetics and biotechnology Since its introduction bioethics has become established as an academic discipline with journals and professional societies is covered regularly in the media and affects people everyday around the globe In response to the increasing need for information about medical genetics and biotechnology as well as the ethical issues these fields raise Sheed Ward proudly presents the Readings in Bioethics Series Edited by Thomas A Shannon the series provides anthologies of critical essays and reflections by leading ethicists in four pivotal areas reproductive technologies genetic technologies death and dying and health care policy The goal of this series is twofold first to provide a set of readers on thematic topics for introductory or survey courses in bioethics or for courses with a particular theme or time limitation Second each of the readers in this series is designed to help students focus more thoroughly and effectively on specific topics that flesh out the ethical issues at the core of bioethics The series is also highly accessible to general readers interested in bioethics This volume collects critical essays by leading scholars on the definition of death consciousness quality of life tube feeding palliative care physician assisted suicide and the debate on euthanasia Included in this volume are works by Paul B Bascom David DeGrazia Ezekiel J Emanuel Kathleen Foley Herbert Hendin Michael Panicola Stephen G Post Thomas A Shannon Charles F von Gunten Susan W Tolle *Catholic Bioethics and the Gift of Human Life, 2nd Edition* William May, 2008-07-25 In this revision of his already classic text William May shows us once again the wisdom of the Catholic Church's moral tradition in its application to contemporary bioethics Illuminating and engaging and with the attention to nuance that marks all of May's writing Edward J Furton M A Ph D Ethicist and Director of Publications The National Catholic Bioethics Center With so much bioethical thinking supporting the culture of death I can think of no better champion of a culture of life than Professor William E May Professor May has given us a book which is useful not only for its masterful summery of the moral magisterium on bioethics but also for its treatment of such issues as

Breaking the Thread of Life Robert Barry, 2017-07-28. Suicide and how civilized people should respond to it is an increasingly controversial topic in modern society. In Holland, suicide is the third leading cause of death of people between the ages of fifteen and forty. In the United States, it is the second leading cause of death among older teenagers. Laws prohibiting assisted suicide are being directly and boldly confronted by activists in the United States, most notably Jack Kevorkian. Meanwhile, the American Civil Liberties Union has publicly declared suicide a fundamental human right that should be protected under the Constitution. The Hemlock Society has introduced referenda in California, Washington, and Oregon to legalize suicide and assisted suicide. The most vocal opposition to these initiatives has come from the Roman Catholic church. *Breaking the Thread of Life* marshalls philosophical, moral, medical, historical, and theological arguments in support of the Roman Catholic position against suicide. In a comprehensive study of the history of suicide, Barry shows that Christian civilization was one of only a few early societies that was able to bring suicide under control. He counters claims that Catholicism and the Bible endorse rational suicide. Barry also analyzes arguments in support of the rationality of suicide and illuminates their biases, inadequacies, and dangers. Barry presents the rationale for the Roman Catholic church's strong, extensive, and articulate opposition to efforts to gain legal and social endorsement of suicide and

assisted suicide His book represents the most complete study of the classical Roman Catholic view of rational suicide to date and it will be of significant interest to philosophers theologians physicians and lawyers **Catholic Moral Tradition, Revised** David Bohr, 2006-02-22 Too many Catholics tend to believe that morality is primarily about keeping laws and avoiding sin Catholic Moral Tradition Revised shows how from the beginning the Christian moral life is first and foremost about living our lives according to the new law of grace The gift of the Holy Spirit given us at baptism is a dynamic inner principle that transforms us into a new creation in Christ This book presents an introductory summary of contemporary Catholic moral teaching based upon the renewal mandated by the Second Vatican Council It also incorporates subsequent Church documents especially the moral encyclicals of John Paul II Veritatis Splendor and Evangelium Vitae along with his three encyclicals on Catholic social doctrine and the Catechism of the Catholic Church **Contemporary Perspectives on Rational Suicide** James L. Werth, 2013-06-17 This text brings together spokespersons from several different disciplines who can present their arguments for or against rational suicide as a viable concept and consequently a realistic option The pros and cons of the discussion format bring the readers to search for their beliefs and the final decision of acceptance or rejection of the concept is left to each individual reader [Legal and Ethical Issues for Health Professionals with Navigate Advantage Access](#) George D.
