Moving Things:

Moving Subjects, Moving Objects Maruska Svasek, 2012 Most theories of material culture transnationalism and globalization have failed to incorporate a focus on emotions even though an increasing number of scholars in recent years have explored emotion dense processes This book fills the gap and examines how emotions can be theorized and serve as a useful analytical tool for understanding the interrelated mobility of humans objects and images Through diverse ethnographically rich and theoretically grounded case studies these chapters offer new perspectives that relate migration material culture and emotions by addressing the ways in which migrants and migrant artists express their emotions through objects and images in transnational contexts the ways in which particular works of art everyday objects and artifacts evoke specific feelings in migrants and members of migrant communities and the ways in which artists academics and policy makers may stimulate positive interaction between migrants and members of local communities Provided by publisher

Simplicius: On Aristotle Physics 7 C. Hagen,2014-04-10 There has recently been considerable renewed interest in Book 7 of the Physics of Aristotle once regarded as merely an undeveloped forerunner to Book 8 The debate surrounding the importance of the text is not new to modern scholarship for example in the fourth century BC Eudemos the Peripatetic philosopher associate of Aristotle left it out of his treatment of the Physics Now for the first time

Charles Hagen's lucid translation gives the English reader access to Simplicius commentary on Book 7 an indispensable tool for the understanding of the text Its particular interest lies in its explanation of how the chapters of Book 7 fit together and its reference to a more extensive second version of Aristotle's text than the one which survives today *Extension Bulletin* Iowa State University. Cooperative Extension Service,1907 *Plato, with an English Translation: Laws, Bks. VII-XII*
