eats at your soul. Anger never
changes someone elses heart,

Cosmic Consciousness: A Study in the Evolution of the Human Mind Richard Maurice Bucke,1948-01-01 WHAT is Cosmic Consciousness The present volume is an attempt to answer this question but

notwithstanding it seems well to make a short prefatory statement in as plain language as possible so as to open the door as it were for the more elaborate exposition to be attempted in the body of the work Cosmic Consciousness then is a higher form of consciousness than that possessed by the ordinary man This last is called Self Consciousness and is that faculty upon which rests all of our life both subjective and objective which is not common to us and the higher animals except that small part of it which is derived from the few individuals who have had the higher consciousness above named To make the matter clear it must be understood that there are three forms or grades of consciousness 1 Simple Consciousness which is possessed by say the upper half of the animal kingdom By means of this faculty a dog or a horse is just as conscious of the things about him as a man is he is also conscious of his own limbs and body and he knows that these are a part of himself 2 Over and above this Simple Consciousness which is possessed by man as by animals man has another which is called Self Consciousness By virtue of this faculty man is not only conscious of trees rocks waters his own limbs and body but he becomes conscious of himself as a distinct entity apart from all the rest of the universe It is as good as certain that no animal can realize himself in that way Further by means of self consciousness man who knows as the animal knows becomes capable of treating his own mental states as objects of consciousness The animal is as it were immersed in his consciousness as a fish in the sea he cannot even in imagination get outside of it or one moment so as to realize it But man by virtue of self consciousness can step aside as it were from himself and think Yes that thought that I had about that matter is true I know it is true and I know that I know it is true The writer has been asked How do you know that animals cannot think in the same manner The answer is simple and conclusive it is There is no evidence that any animal can so think but if they could we should soon know it Between two creatures living together as dogs or horses and men and each self conscious it would be the simplest matter in the world to open up communication Even as it is diverse as is our psychology we do by watching his acts enter into the dog s mind pretty freely we see what is going on there we know that the dog sees and hears smells and tastes we know that he has intelligence adapts means to ends that he reasons If he was self conscious we must have learned it long ago We have not learned it and it is as good as certain that no dog horse elephant or ape ever was self conscious Another thing on man s self consciousness is built everything in and about us distinctively human Language is the objective of which self consciousness is the subjective Self consciousness and language two in one for they are two halves of the same thing are the sine qua non of human social life of manners of institutions of industries of all kinds of all arts useful and fine If any animal possessed self consciousness it seems certain that it would upon that master faculty build as man has done a superstructure of language of reasoned out customs industries art But no animal has done this therefore we infer that no animal has self consciousness

Cosmic Consciousness - facsimile edition Dr. Richard Maurice Bucke, 2007-05-04 There is an ages old unexplained mystery of genius and enlightenment Many people talk of seeing the light as a temporary intense affair where all the world s knowledge and understanding is unveiled to an individual in a brief moment outside of time Bucke himself experienced this unique state in 1876 And spent the rest of his life working out how to understand and apply what he had learned in that instant Bucke provides three dozen very consistent examples of cosmic consciousness Some of these were contemporary case histories which he collected Bucke proposed that these enlightened figures are evolutionary jumps the predecessor of a more advanced species His 1901 final work was the masterpiece of an eclectic genius whose life encompassed medical science and mystical transcendence and posits a higher form of sentience that only a few humans have ever achieved This is a facsimile reproduction of Bucke s original work Get Your Copy Now

Face of the Enemy: An American Asian's War in Vietnam and at Home David O. Chung, Kerry O'Connell, 2023-08-23 Face of the Enemy is not your run of the mill memoir The second son of a mixed race family of mainly Asian descent was challenge enough His father s American values were overpowered by his mother s enforcement of the traditional Chinese culture of her homeland His home life couldn t have been more dissimilar than the culture of 1960s Chicago that was just outside his front door Out on the streets his Asian face said I m not one of you At home his status as the Number Two son said I am a servant Chung Doc to his friends quickly learned that he had two identities and that he was trapped in between them He had to fight many times with his fists to discover where his place was in his own country The Vietnam War was winding down when Chung joined the Air Force As a transportation specialist for the United States Air Force in Vietnam he made sure aircraft delivering supplies were loaded and balanced properly How much trouble could there be Plenty as he discovered Many of his American comrades in arms viewed him with suspicion He had the face of the enemy The Vietnamese took one look at his American uniform and knew he was not one of them After coming home from Vietnam Doc found his own country struggling to move on from an unpopular war The public blamed the veterans some of whom were struggling with the demons they had brought home with them The only defense from the public shaming was for veterans to

hide in plain sight Uniforms were packed away Nightmares weren't talked about The only thing that remained the same for Doc was the racism and bigotry How do you overcome having the face of the enemy How do you free yourself from the jaws of a trap that is part of who you are Doc found the answer in saying yes Saying yes to joining a fledgling company called Federal Express Saying yes to joining veterans groups to help change the way Vietnam veterans were treated Saying yes to the journey of driving the Vietnam Women's Memorial across the country to Washington DC Saying yes to a position in the Veterans Affairs Office in Washington DC Saying yes to changing his own life through helping others This is a memoir of an ordinary man with an extraordinary conviction to change the status quo first through activism and then through an uncanny understanding of how to navigate the bureaucratic obstacles of the United States government **Whale Snow** Chie

Sakakibara, 2020-10-06 As a mythical creature the whale has been responsible for many transformations in the world It is an enchanting being that humans have long felt a connection to In the contemporary environmental imagination whales are charismatic megafauna feeding our environmentalism and aspirations for a better and more sustainable future Using multispecies ethnography Whale Snow explores how everyday the relatedness of the Iupiat of Arctic Alaska and the bowhead whale forms and transforms the human through their encounters with modernity Whale Snow shows how the people live in the world that intersects with other beings how these connections came into being and most importantly how such intimate and intense relations help humans survive the social challenges incurred by climate change In this time of ecological transition exploring multispecies relatedness is crucial as it keeps social capacities to adapt relational elastic and resilient In the Arctic climate culture and human resilience are connected through bowhead whaling In Whale Snow we see how climate change disrupts this ancient practice and in the process affects a vital expression of Indigenous sovereignty Ultimately though this book offers a story of hope grounded in multispecies resilience *The Books in My Life* Henry Miller, 2016-08-25

In this unique work Henry Miller gives an utterly candid and self-revealing account of the reading he did during his formative years Some writers attempt to conceal the literary influences which have shaped their thinking but not Henry Miller In *The Books in My Life* he shares the thrills of discovery that many kinds of books have brought to a keenly curious and questioning mind Some of Miller's favorite writers are the giants whom most of us revere authors such as Dostoevsky Boccaccio Walt Whitman James Joyce Thomas Mann Lao Tse To them he brings fresh and penetrating insights But many are lesser known figures Krishnamurti the prophet sage the French contemporaries Blaise Cendrars and Jean Giono Richard Jeffries who wrote *The Story of My Heart* the Welshman John Cowper Powys and scores of others *The Books in My Life* contains some fine autobiographical chapters too Miller describes his boyhood in Brooklyn when he devoured the historical stories of G A Henty and the romances of Rider Haggard He tells of the men and women whom he regards as living books Lou Jacobs W E B DuBois Elizabeth Gurley Flynn and others He offers his reminiscences of the New York Theatre in the early 1900s including plays such as *Alias Jimmy Valentine* and *Nellie the Beautiful Cloak Model* And finally in Miller's best vein of humor he

provides a satiric chapter on bathroom reading In an appendix Miller lists the hundred books that have influenced him most
