## **New Attitude:**

**Character** Mike Olawale,2020-10-18 In the ministry and in family and social relationships a person s character is of extreme importance because it paints a picture of his or her reputation Moreover an individual s character is an important factor in determining how successful one becomes in dealing with others in the ministry and in other aspects of human relations For example a person who has various talents or abilities but has a bad attitude or character may be successful for a moment but may not be able to sustain it The renowned bible scholar D L Moody makes a great correlation between character and reputation He stated If I take care of my character my reputation will take care of itself His statement makes sense in many different ways because your reputation is a by product of your character Even in the natural world bad tarnished or rotten seeds cannot bring about a good harvest or good products A writer once said You don t determine your destiny your character determines your destiny Therefore character is the covenant foundation upon which great futures are built Jesus was speaking about this interpretation in Matthew 7 15 20 He stated by their fruit you shall know them So developing a Christian God like character that gives glory to His name is a must We need to cultivate and develop God like character traits that portray us as His children

Sachin Srivastava,2020-10-16 Each of us has the power to choose a positive attitude over a negative one If you want an attitude that works for you that improves the quality of your life and enables you to accom plish your dreams you have to

work at it You can't just sit around and wait for a positive attitude to come over you In this book I will provide you with tools to tune and take control of your attitude even in the most challenging times The material in this book is not merely motivational It offers you step by step instructions and examples of how others including myself have benefited by taking responsibility for their attitudes You have made an investment in yourself an investment that will pay dividends when and only when you apply the principles and take action The fundamental principle is that attitude is all it takes to walk those nine yards You'll learn that no matter how old you are what your position or station in life your gender or your marital status a positive attitude can make an incredible difference In the chapters that follow I will give you the tools you need for an attitude tune up I'm going to provide you with ten steps for turning attitude into action      *Unfinished Business* Julia Staffel, 2025-03-04 Explaining how people reason is central to understanding ourselves as human beings Complex deliberations that take unexpected turns are central to many good detective stories but they are also ubiquitous in everyday life and academic research While philosophers have studied both ends of complex deliberations learning new information and reaching justified conclusions little has been said about our states of mind when we are in the middle of thought Yet this stage of intellectual limbo is where we often produce genuine insight Unfinished Business advances a new theory of the transitional stages of complex deliberation integrating theoretical research in philosophy with empirical results from cognitive science It postulates a new attitude type transitional attitudes that we hold towards potential answers to the question at hand while we're deliberating Transitional attitudes possess their own rationality conditions that differ from the norms of rationality typically applied to conclusions of reasoning The resulting abstract framework reveals deep structural similarities among such varied intellectual pursuits as determining the significance of a historical artefact deciding on a person's guilt in court deliberating about a philosophical problem or searching for a mathematical proof It can help us make progress on difficult philosophical questions such as how we should respond to misleading higher order evidence how we should formally model logical learning and how confident we can rationally be in our own philosophical positions In this book Julia Staffel makes a novel contribution to the study of reasoning and rationality Most of the theorizing in these areas either studies the nature of simple inferences or the conditions under which we can reach justified conclusions Unfinished Business examines how we should theorize about the attitudes we have towards possible answers to a question of interest while our reasoning is ongoing It focuses on complex reasoning processes that don't necessarily progress towards an answer in a linear way Based on both philosophical arguments and empirical research Staffel argues that there is a previously unrecognized attitude type transitional attitudes that play a key role in carrying out complex deliberations      *The Handbook of Attitudes* Dolores Albarracín, Blair T. **Then A Miracle Occurs** Christopher R. Agnew,Donal E.

Carlston,William G. Graziano,Janice R. Kelly,2009-11-25 Focusing attention on a multiplicity of issues surrounding the study of behavior is timely and important Some scholars believe that across various sub disciplines of the field social psychology actually has contributed a great deal to our understanding of behavior and its antecedents From this perspective there is considerable utility in drawing together such work in one place Other scholars suggest that though there has been great progress elucidating the internal cognitive affective and motivational underpinnings of behavior much less research focuses on external behavior itself From this perspective it is important to identify the theoretical gaps the empirical needs and the focal issues that still demand attention Chapters in this timely volume review some of these key issues with contributions from some of the world s leading social and personality psychologists
