Performers And Players:

Seasoned Musicians Playing Beyond the 5th Decade Warren Brodsky, 2025-07-15 When you attend a live classical music concert have you noticed that the players are both younger and older musicians The younger members are clearly competent players having received their position in the orchestra after a series of auditions and a trial period but what about the older players How do they keep up with the younger musicians After all the differences in the musicians ages might be as much as 20 to 30 years Does age related wear and tear take a toll on the performance related skills of orchestra players *Seasoned Musicians Playing Beyond the 5th Decade* investigates the Symphony Orchestra lifestyle and its relationship with ageing The book is based on over 50 interviews with professional Symphony Orchestra musicians from the BBC Philharmonic Orchestra and the Halle Orchestra in the UK the Jerusalem Symphony Broadcasting Orchestra and the Israel Sinfonietta Orchestra in Israel and the Freiburg Philharmonic Orchestra in Germany as well as finger tapping exercises a think aloud protocol during deliberate practice and a music performance analysis It explores the attitudes perceptions and experiences of orchestra musicians and the resilience of seasoned musicians to ageing The book is divided into four parts Part I delineates the background and foreground of the orchestra musician Part II outlines various considerations of ageing in a music performance career Part III explores the performance abilities of musicians through empirical tasks Part IV finds meaning in the study of seasoned musicians This investigation into the vicissitudes of ageing and the orchestral community suggests there is a more positive and successful process of ageing than previously imagined

Maritime Musicians and Performers on Early Modern English Voyages James Seth, 2025-10-01 *Maritime Musicians and Performers on Early Modern English Voyages* aims to tell the full story of early English shipboard performers who have been historically absent from conversations about English navigation maritime culture and economic expansion Often described reductively in voyaging accounts as having one function in fact maritime performers served many communicative tasks Their lives were not only complex but often contradictory Though not high ranking officers neither were they lower ranking mariners or sailors They were influenced by a range of competing cultural practices having spent time playing on both land and sea and their roles required them to mediate parties using music dance and theatre as powerful forms of nonverbal communication Their performances transcended and breached boundaries of language rank race religion and nationality thereby upsetting conventional

,2015-11-19 This book addresses the question of how musicians are influenced by their room acoustical environment when playing on a concert hall stage Even though the concept of adapting a music performance to room acoustics is often taken for granted by musicians it is unclear if and how such adjustments take place in practice and which aspects of room acoustics play a role in this context Empirical investigations in both real world and simulated concert halls are presented in the book to shed light on the question A case study with a cellist performing in European concert halls as well as a laboratory study with musicians playing in virtual room acoustical environments simulated by means of dynamic binaural synthesis were conducted

Both investigations make use of room acoustical computer models to determine the room acoustical conditions typically encountered by musicians on stage. Software based performance analysis is employed to quantify musically and perceptually relevant aspects of performance. The influence of diverse room acoustical parameters on numerous performance characteristics is investigated with the statistical methods of multilevel regression models.

The Bodhrán Colin F. Harte, 2023-08-18 In the past fifty years the bodhrán or traditional Irish circular frame drum has undergone a rapid evolution in development. Traditionally it is a shallow drum ranging from ten to twenty six inches in diameter covered in goatskin on the top or drum side and open on the other. Unlike any other instrument associated with Irish traditional music the bodhrán has been dramatically altered by its confrontation with modern instrument design, performance techniques and musical practice. Colin Harte's *The Bodhrán: Experimentation, Innovation and the Traditional Irish Frame Drum* presents a definitive history of the bodhrán from its early origins to its present day resurgence in Irish American folk music. The bodhrán has global roots and bears many characteristics of older drums from northern Africa and the Middle East. Harte picks up on these basic similarities and embarks on an engaging tour of the instrument's historical and organological development, gradual evolution in playing styles and more recent history of performative practice. Drawing from a host of interviews over a multi year period with participants primarily located in Europe and North America, this work provides a platform for multiple perspectives regarding the bodhrán. Participants include bodhrán makers, professional performers, educators, amateur musicians, historians and enthusiasts. Growing out of rich ethnographic interviews, this book serves as the definitive reference for understanding and navigating the developments in the bodhrán's history, organology, performance practices and repertoire.

Seeing with Music Professor Emeritus of Anthropology Simon Ottenberg, 2012-04 In the course of his ongoing study of the aesthetic world of the Limba of Sierra Leone, anthropologist Simon Ottenberg met three men from Wara Wara Bafodea chiefdom who played an instrument called the kututeng, known elsewhere in Africa as the mbira and sometimes in the West as the thumb piano. Each of the three was blind, poor, unmarried and childless in a society where children bring status and where musicianship is not a standard role for the blind. Each man's life experiences had influenced the way he performed Kututeng, a traditional but changing form of music. In this book Ottenberg approaches Limba Kututeng music through the lives of these three musicians: Sayo Kamara, Muctaru Mansaray and Marehu Mansaray. He looks at their different styles of performance, the social settings in which they play, the meanings of their song texts and the relationships between their musical form and other Limba arts. Ottenberg filters his analysis through the concepts of personhood and agency; he is concerned with the actions and experiences of individuals within a larger cultural structure, with the way people act to maintain or re-create their culture and society as they go about their everyday business. By examining the lives and music of these three men, he is able to show how each one has been an agent for either innovation or stability in Kututeng music in this Limba chiefdom. Throughout the book Ottenberg attempts to let the musicians' voices and personalities be heard and seen. He believes that

looking at music and performance through their eyes rather than solely through the anthropologist s organized categories offers a useful alternative way of understanding how music is practiced responded to and changed by individuals At the same time Ottenberg makes readers aware of his own agency the effects his presence personality and life experiences had on his fieldwork Kututeng music is not an ancient tradition in Limba country or in Sierra Leone in general but dates to the early twentieth century In recent years it has begun to change in response to the popularity of other musical forms in Sierra Leone Ottenberg shows effectively how these three men have helped reformulate the nature of Kututeng in the chiefdom capital town giving it a new vitality that is consistent with the aesthetic values of the Limba world

Feminism in Play Kishonna L. Gray, Gerald Voorhees, Emma Vossen, 2018-10-04 Feminism in Play focuses on women as they are depicted in video games as participants in games culture and as contributors to the games industry This volume showcases women s resistance to the norms of games culture as well as women s play and creative practices both in and around the games industry Contributors analyze the interconnections between games and the broader societal and structural issues impeding the successful inclusion of women in games and games culture In offering this framework this volume provides a platform to the silenced and marginalized offering counter narratives to the post racial and post gendered fantasies that so often obscure the violent context of production and consumption of games culture
