Rabindranath Tagore The Myriad Minded Man:

Rabindranath Tagore Krishna Dutta, Andrew Robinson, 2008-11-30 Rabindranath Tagore 1861 1941 poet philosopher painter novelist playwright composer traveller political commentator and Asia's first Nobel Laureate was one of his era's cultural icons Proclaimed as the greatest poet India has ever produced Tagore left an astonishing legacy undimmed nearly 70 years after his death But he was also an enigmatic complex and contradictory figure torn between India's spiritual values and the spirit of the West In this definitive biography Krishna Dutta and Andrew Robinson explore the man behind the myth presenting the power of his person the power of his name and the power of his work The result is an enlightening and exquisitely rendered portrayal not of the legend but to quote Tagore of the figure that once moved **Rabindranath Tagore's Journey as an Educator** Mohammad A. Quayum, 2022-12-20 This book looks at Rabindranath Tagore's experiments and journey as an educator and the influence of humanistic worldviews nationalism and cosmopolitanism in his philosophy of education It juxtaposes the educational systems and institutions set up by the British colonial administration with Tagore's pedagogical vision and schools in Santiniketan West Bengal Brahmacharya Asram 1901 Visva Bharati University 1921 and Sriniketan Institute of Village Reconstruction 1922 An educational pioneer and a poet teacher Tagore combined nature and culture tradition and modernity East and West in formulating his educational methodology The essays in this volume analyse the relevance of his theories and practice in encouraging greater cultural exchange and the dissolution of the walls between classrooms and communities This book will be useful for scholars and researchers of education Tagore studies literature cultural studies sociology of education South Asian studies and colonial and postcolonial studies **The Ecstatic Poetic Tradition** D.J. Moores, 2014-05-26 This work is not only a general inquiry into ecstatic states of consciousness and an historical outline of the ecstatic poetic tradition but also an intensive study of five representative poets Rumi Wordsworth Whitman Dickinson and Tagore In a refreshingly original wide ranging engagement with concepts in psychology religion philosophy aesthetics sociology and history this book demonstrates that the poetics and aesthetics of ecstasy represent an ancient ubiquitous theory of poetry that continues to influence writers in the current century The Vedantic Relationality of Rabindranath Tagore Ankur Barua, 2018-10-25 This book is a thematic study of the poet thinker Rabindranath Tagore's conceptual project of harmonizing the one and its many Tagore's writings in Bengali and in English on religious and social themes are held together by the leitmotif of a harmony which operates across several existential religious and social polarities the finite and the infinite the temporal and the eternal and the individual and the universal Tagore creatively appropriated materials from diverse sources such as the classical Hindu Vedantic systems the folk piety of Bengal and others to configure a dialectic which shapes his writings on both religious and social themes On the one hand each individual is irreducibly distinct from everyone else and on the other hand each individual gains their spiritual depth precisely by being placed within the dynamic matrices of an interrelated whole Thus we find Tagore rejecting certain

monastic forms of Hindu world renunciation and also certain ecstatic dimensions of devotional worship the former because they efface individuality and the latter because they can generate self absorbed styles of living Again Tagore is as sharply opposed to Bengali imitativeness of English modes of being in the world as he is to Bengali forms of insularity the former because it dilutes the concrete richness of indigenous lifeforms and the latter because it confines individuals to parochial enclosures Tagore s life long endeavor was to configure a third way by rejecting both the blank homogeneity of an undifferentiated one and the particularistic insularities of a multitude without a deeper center of coherence

Tagore, Einstein and the Nature of Reality Partha Ghose, 2019-04-02 This volume consists of a selection of scholarly essays from literature philosophy and history on the conception of reality as understood by Rabindranath Tagore and Albert Einstein The nature of reality has been a long debated issue among scientists and philosophers Tagore 1861 1941 met Einstein 1879 1955 at the latter s house in Kaputh Germany on 14 July 1930 and had a long conversation on this issue This conversation has been widely quoted and discussed by scientists philosophers and scholars from the literary world The important question that Tagore and Einstein discussed was whether the world is a unity dependent on humanity or the world

is a reality independent of the human factor Einstein believed that reality is independent of the mind and the human factor On the other hand Tagore adopted the opposite view Nevertheless both Einstein and Tagore claimed to be realists their conceptions of reality were obviously fundamentally different Where does the difference lie Can it be harmonized at a deeper level This volume brings together for the first time a gamut of views on this subject from eminent scholars It presents some key reflections on reality language poetry truth science personality human sciences virtue ethics intelligibility and creativity It will be useful to scholars and researchers of philosophy literature history and political studies as also to those interested in Tagore

Children's Literature and Intergenerational Relationships Justyna Deszcz-Tryhubczak, Irena Barbara Kalla, 2021-04-23 Children's Literature and Intergenerational Relationships Encounters of the Playful Kind explores ways in which children's literature becomes the object and catalyst of play that brings younger and older generations closer to one another Providing examples from diverse cultural and historical contexts this collection argues that children's texts promote intergenerational play through the use of literary devices and graphic formats and that they may prompt joint play practices in the real world The book offers a distinctive contribution to children's literature scholarship by shifting critical attention away from the difference and conflict between children and adults to the exploration of inter age interdependencies as equally crucial aspects of human life presenting a new perspective for all who research and work with children's culture in times of global aging

APPLICATION OF MOTIVATIONAL THEORY IN CLASSROOM SITUATION Gazala Bhoje, Anti-Colonialism and the Crises of Interwar Fascism Michael Ortiz, 2023-01-12 What is fascism Is it an anomaly in the history of modern Europe Or its culmination In Anti Colonialism and the Crises of Interwar Fascism Michael Ortiz makes the case that fascism should be understood in part as an imperial phenomenon He contends that the Age of Appeasement 1935 1939 was not a titanic clash between rival socio political systems fascism and democracy but rather an imperial contest between satisfied and unsatisfied empires Historians have long debated the extent to which Western imperialisms served as ideological and intellectual precursors to European fascisms To date this scholarship has largely employed an inside out methodology that examines the imperial discourses that pushed fascist regimes outward into Africa Asia and the Americas While effective such approaches tend to ignore the ways in which these places and their inhabitants understood European fascisms Addressing this imbalance Anti Colonialism adopts an outside in approach that analyses fascist expansion from the perspective of Indian anti colonialists such as Jawaharlal Nehru Subhas Bose and Mohandas Gandhi Seen from India the crises of Interwar fascism the Second Italo Ethiopian War Spanish Civil War Second Sino Japanese War Munich Agreement and the outbreak of the Second World War were yet another eruption of imperial expansion analogous although not identical to the Scramble for Africa and the Treaty of Versailles Whether fascist democratic or imperialist Europe's great powers collectively negotiated the fate of smaller nations

through the widespread phenomenon of the US lecture tour Attending to these encounters Transatlantic Modernism and the US Lecture Tour reroutes our understanding of modernism away from the magazines and other mass media that have so far characterized its circulation and toward the unique form of cultural distribution that coalesced around the tour Offering many new and compelling archival insights this volume works across an admirably broad cultural landscape to reveal the US lecture tour as a primary mover of modernism The study highlights the role this circuit played in the formation of transatlantic modernism by following a diverse group of authors Oscar Wilde W B Yeats Rabindranath Tagore Gertrude Stein and W H Auden on their whistle stop tours across America illuminating in the process how this extremely physical form of circulation transformed authors into object like commodities to be sold in a variety of performance venues Moreover it shows how these writers responded to such wide ranging distribution by stretching their own ideas about modernist authorship In doing so Transatlantic Modernism and the US Lecture Tour adds to a critical tradition of exposing those popular dimensions of modernism that far exceeded its standard coterie definition while also uncovering something else how the circuit s particular diversity of social contexts forced modernists to take on a new authorial flexibility that would allow them to make in roads with practically any audience elite popular and everything in between *The Turn to Ethics* Marjorie B.
