Lowell Offering Writings By New England Mill Women 1840 1845:

Lowell Offering Benita Eisler,1998 Gathers letters stories and essays written by the female employees of the textile mills of Lowell Massachusetts The Lowell Offering Benita Eisler,1977 *The Lowell Offering* Benita Eisler,1977 **Mill Girls and Strangers** Wendy M. Gordon,2012-02-01 In the nineteenth century mill towns of Preston England Lowell Massachusetts and Paisley Scotland there were specific demands for migrant and female labor and potential employers provided the necessary respectable conditions in order to attract them Using individual accounts this innovative and comparative study examines the migrants lives by addressing their reasons for migration their relationship to their families the roles they played in the cities to which they moved and the dangers they met as a result of their youth gender and separation from family Gordon details both the similarities and differences in the women s migration experiences and somewhat surprisingly concludes that they became financially independent rather than primarily contributors to a family economy American Women's Fiction, 1790-1870 Barbara A. White,2013-05-07 An annotated bibliography on women who wrote fiction in the US during the period 1790 1870 The first part is an annotated list of sources that discuss women s fiction in the period and women authors born before 1840 who published before 1870 The second part is an alphabetical list of the approximately 325 19th century writers who meet those criteria There are indexes by pseudonym editor and subject The sources provide information not only about the individual authors but also about the history of criticism and literary politics especially women s place in the American literary canon **Hearts of Darkness: Melville, Conrad and Narratives of Oppression** Paweł Jędrzejko,Milton M. Riegelman,Zuzanna Szatanik,2010-01-01 The volume came about as a result of a joint effort at a bifocal reflection of the international community of Melvillians and Conradians in Szczecin Poland in August 2007 What became clear in formal and informal discussion among the participants of that international gam was that Herman Melville and Joseph Conrad Korzeniowski shared the intuition that the essential liquidity of the existential human condition necessitates a universal squeeze of the hand This idea beautifully conceptualized by Melville in chapter 94 of Moby Dick caused both writers to examine in their complex narratives the ways in which various kinds of oppression prevent this desired possibility read more in the Introduction *The Hidden Half of the Family* Christina K. Schaefer,1999 Offers information on finding female ancestors in each state highlighting those laws both federal and state that indicate when a woman could own real estate in her own name devise a will and enter into contracts In addition entries contain information on marriage and divorce law immigration citizenship passports suffrage and slave manumission Material is included on African American Native American and Asian American women as well as patterns of European immigration Period covered is from the 1600s to the outbreak of WWII Annotation copyrighted by Book News Inc Portland OR **There Is Power in a Union** Philip Dray,2011-09-20 From the nineteenth century textile mills of Lowell Massachusetts to the triumph of unions in the twentieth century and their waning influence today the contest between labor and capital for the American bounty has

shaped our national experience In this stirring new history Philip Dray shows us the vital accomplishments of organized labor and illuminates its central role in our social political economic and cultural evolution His epic character driven narrative not only restores to our collective memory the indelible story of American labor it also demonstrates the importance of the fight for fairness and economic democracy and why that effort remains so urgent today

Family Life in 19th-Century America

James M. Volo,Dorothy Volo,2007-08-30 Nineteenth century families had to deal with enormous changes in almost all of life s categories The first generation of nineteenth century Americans was generally anxious to remove the Anglo from their Anglo Americanism The generation that grew up in Jacksonian America matured during a period of nationalism egalitarianism and widespread reformism Finally the generation of the pre war decades was innately diverse in terms of their ethnic backgrounds employment social class education language customs and religion Americans were acutely aware of the need to create a

stable and cohesive society firmly founded on the family and traditional family values Yet the people of America were among the most mobile and diverse on earth Geographically socially and economically Americans and those immigrants who wished to be Americans were dedicated to change movement and progress This dichotomy between tradition and change may have been the most durable and common of American traits and it was a difficult quality to circumvent when trying to form a unified national persona Volumes in the Family Life in America series focus on the day to day lives and roles of families throughout history The roles of all family members are defined and information on daily family life the role of the family in society and the ever changing definition of family are discussed Discussion of the nuclear family single parent homes foster and adoptive families stepfamilies and gay and lesbian families are included where appropriate Topics such as meal planning homes entertainment and celebrations are discussed along with larger social issues that originate in the home like domestic violence child abuse and neglect and divorce Ideal for students and general readers alike books in this series bring the history of everyday people to life

destitution She also explores the necessity of suffrage for female workers who while expected to work alongside men as their equals in labor were hampered by lower wages and lack of control by their exclusion from the voting process
