the Preclassic and Classic Maya shaped their world Moving beyond the towering temples and palaces typically associated with the Maya civilization contributors present unconventional examples of monumental Maya landscapes Featuring studies from across the central Maya lowlands Belize and the northern and central Maya highlands and spanning over 10 000 years of human occupation in the region these chapters show how the word monumental can be used to describe natural and constructed landscapes political and economic landscapes and ritual and sacred landscapes Examples include a massive system of aqueducts and canals at the Kaminaljuyu site a vast arena designed for public spectacle at Chan Chich and even the complex realms of Maya cosmology as represented by the ritual cave at Las Cuevas By including physical conceptual and symbolic ways monumentality pervaded ancient Maya culture this volume broadens traditional understandings of how the Maya interacted with their environment and provides exciting analytical perspectives to guide future study A volume in the series Maya Studies edited by Diane Z Chase and Arlen F Chase

In Search of Maya Sea Traders Heather Irene McKillop, 2005 Stone temples rising above the rainforest canopy and elaborate hieroglyphs carved onto stone monuments give silent testimony to the high culture of the Maya ancestors of the indigenous peoples of Central America They have inspired generations of archaeologists professional and avocational to take to the field in search of the past One such archaeologist is Heather McKillop who in 1979 first visited the coast of Belize in search of a little known aspect of ancient Maya life the sea trade that helped move salt obsidian coral and other goods around the interior of the empire In 1982 she began bringing volunteers and students to the islands off the coast of Port Honduras Belize Since then she has returned many times to excavate sites that reveal the scope and diversity of the trade that passed by water throughout the Maya world In this book McKillop tells the story of the search for the Maya sea traders as well as the story of the traders themselves as it emerges from the excavations In Search of Maya Sea Traders describes the trading port of Wild Cane Cay where exotic obsidian jade gold and other goods including highly crafted pots were traded from distant lands McKillop also tells us about the more coastal inland trade of salt seafood and other marine resources Through the story of her own work and that of her students and volunteers McKillop models both the research design and the field work that are required to interpret the civilizations of the past She includes the adventure of discovery the challenges of working in wild environments from snakes and rising sea levels to falling coconuts and the tedium of daily measured digs in a near tropical setting Through her experiences the reader also gets to know some of the local residents of Port Honduras and Wild Cane Cay descendants of the ancient Maya In Search of Maya Sea Traders will appeal to that part of each of us that longs to explore distant places and cultures in quest of a seldom glimpsed past

Gender and Power in Prehispanic Mesoamerica Rosemary A. Joyce, 2009-06-23 Gender was a fluid potential not a fixed category before the Spaniards came to Mesoamerica Childhood training and ritual shaped but did not set adult gender which could encompass third genders and alternative sexualities as well as male and female At the height of the Classic period Maya rulers presented themselves as embodying the entire range of gender possibilities from male through female by wearing blended costumes and playing male and female roles in state ceremonies This landmark book offers the first comprehensive description and analysis of gender and power relations in prehispanic Mesoamerica from the Formative Period Olmec world ca 1500 500 BC through the Postclassic Maya and Aztec societies of the sixteenth century AD Using approaches from contemporary gender theory Rosemary Joyce explores how Mesoamericans created human images to represent idealized notions of what it meant to be male and female and to depict proper gender roles She then juxtaposes these images with archaeological evidence from burials house sites and body ornaments which reveals that real gender roles were more fluid and variable than the stereotyped images suggest **Quiriguá Reports, Volume II** Edward M.
