Mike Chasar,2012-11-13 Exploring poetry scrapbooks old time radio show recordings advertising verse corporate archives and Hallmark greeting cards among other unconventional sources Mike Chasar casts American poetry as an everyday phenomenon consumed and created by a vast range of readers He shows how American poetry in the first half of the twentieth century and its reception helped set the stage for the dynamics of popular culture and mass media today Poetry was then part and parcel of American popular culture spreading rapidly as the consumer economy expanded and companies exploited its profit making potential Poetry also offered ordinary Americans creative emotional political and intellectual modes of expression whether through scrapbooking participation in radio programs or poetry contests Reenvisioning the uses of twentieth century poetry Chasar provides a richer understanding of the innovations of modernist and avant garde poets and the American reading public s sophisticated powers of feeling and perception      **The Wapsipinicon Almanac**

democratic soul a soul menaced by the gathering leftwing totalitarianism of the USSR and the memory of fascism in Italy and Germany Workshops of Empire explores this history via the careers of Paul Engle at the University of Iowa and Wallace Stegner at Stanford In the story of these founding fathers of the discipline Eric Bennett discovers the cultural political literary intellectual and institutional underpinnings of creative writing programs within the university He shows how the model of literary technique championed by the first writing programs a model that values the interior and private life of the individual whose experiences are not determined by any community ideology or political system was born out of this Cold War context and continues to influence the way creative writing is taught studied read and written into the twenty first century

**The End of American Childhood** Paula S. Fass, 2017-11-07 How American childhood and parenting have changed from the nation's founding to the present The End of American Childhood takes a sweeping look at the history of American childhood and parenting from the nation's founding to the present day Renowned historian Paula Fass shows how since the beginning of the American republic independence self definition and individual success have informed Americans attitudes toward children But as parents today hover over every detail of their children's lives are the qualities that once made American childhood special still desired or possible Placing the experiences of children and parents against the backdrop of social political and cultural shifts Fass challenges Americans to reconnect with the beliefs that set the American understanding of childhood apart from the rest of the world Fass examines how freer relationships between American children and parents transformed the national culture altered generational relationships among immigrants helped create a new science of child development and promoted a revolution in modern schooling She looks at the childhoods of icons including Margaret Mead and Ulysses S Grant who as an eleven year old was in charge of his father's fields and explored his rural Ohio countryside Fass also features less well known children like ten year old Rose Cohen who worked in the drudgery of nineteenth century factories Bringing readers into the present Fass argues that current American conditions and policies have made adolescence socially irrelevant and altered children's road

to maturity while parental oversight threatens children's competence and initiative. Showing how American parenting has been firmly linked to historical changes, *The End of American Childhood* considers what implications this might hold for the nation's future.

**Frontiers in American Children's Literature** Dorothy Clark, Linda Salem, 2016-02-29

Frontiers in American Children's Literature is a groundbreaking work by both established and emerging scholars in the fields of children's literature, criticism, history, and education. It offers 18 essays which explore and critically examine the expanding canon of American children's books against the backdrop of a social history comprised of a deep layering of trauma and struggle, redefining what equality and freedom mean. The book charts new ground in how children's literature is telling stories of historical trauma, the racial violence of American slavery, the Mexican Repatriation Act, and the oppression and violence against African Americans in light of such murders as in the AME Mother Emanuel Church and the shooting of Michael Brown. This new frontier explores how truth-telling about racism, oppression, and genocide communicates with the young about violence and freedom in literature, transforming harsh truths into a moral vision. *Frontiers in American Children's Literature* will be an instant classic for fans of children's and adolescent literature, American literature, cultural studies, and students of literature in general, as well as teachers and prospective teachers. Those interested in art history, graphic novels, picture book art, African American and American Indian literature, the digital humanities, and new media will also find this volume compelling. Authors and artists covered in these essays include Laurie Halse Anderson, M.T. Anderson, Paolo Bacigalupi, Louise Erdrich, Eric Gansworth, Edward Gorey, Russell Hoban, Ellen Hopkins, Patricia Polacco, Ann Rinaldi, Peter S. Lynd Ward, and Naomi Wolf, among others. Essayists examine their subjects' most provocative works on the topics of realistic depictions of slavery, oppression, and trauma, and the triumph of truth in storytelling over these experiences. From *The Astonishing Life of Octavian Nothing* to *The Birchbark House*, from the graphic novel to picture books and the digital humanities in teaching and reading, there is something for everyone in this collection. Contributors include leaders in the fields of literature and education, such as the award-winning Katherine Capshaw and Anastasia Ulanowicz. Margaret Noodin, poet and leader in American Indian scholarship and education, leads the essays on American Indian children's literature, while Steven Herb, Director of the Pennsylvania Center for the Book and an affiliate of the Center for the Book in the Library of Congress, offers an insider's view of Caldecott Medal awardee Lynn Ward.

*Let the Children Play* Pasi Sahlberg, William Doyle, 2020-10-22

According to a professional association of 67,000 pediatricians, the lifelong success of children is based on their ability to be creative and to apply the lessons learned from playing. But play, including physical activity, the arts, and even free play, is being eliminated in our society and schools, and despite huge financial investment, these education policies have not improved learning. In *Let the Children Play*, the authors, both fathers of school-age children, tell how switching countries, Pasi Sahlberg brought his Finnish family to the United States, while William Doyle brought his American family to Finland, shocked them into writing this book. With research breakthroughs and case histories from Finland, China, Singapore, Scotland,

New York Texas and around the world the authors reveal how intellectual and physical play is the ultimate engine of transforming education the key to giving our children the well being happiness and skills they need to thrive in the 21st century including curiosity creativity teamwork problem solving communication and empathy     *The Making of a Black Scholar* Horace A. Porter, 2003 This captivating and illuminating book is a memoir of a young black man moving from rural Georgia to life as a student and teacher in the Ivy League as well as a history of the changes in American education that developed in response to the civil rights movement the war in Vietnam and affirmative action Born in 1950 Horace Porter starts out in rural Georgia in a house that has neither electricity nor running water In 1968 he leaves his home in Columbus Georgia thanks to an academic scholarship to Amherst College and lands in an upper class mainly white world Focusing on such experiences in his American education Porter s story is both unique and representative of his time *The Making of a Black Scholar* is structured around schools Porter attends Georgia s segregated black schools until he enters the privileged world of Amherst College He graduates spending one semester at Morehouse College and moves on to graduate study at Yale He starts his teaching career at Detroit s Wayne State University and spends the 1980s at Dartmouth College and the 1990s at Stanford University Porter writes about working to establish the first black studies program at Amherst the challenges of graduate study at Yale the infamous Dartmouth Review and his meetings with such writers and scholars as Ralph Ellison Tillie Olsen James Baldwin and Henry Louis Gates Jr He ends by reflecting on an unforeseen move to the University of Iowa which he ties into a return to the values of his childhood on a Georgia farm In his success and the fulfillment of his academic aspirations Porter represents an era a generation of possibility and achievement     **Memoirs Of A Cold War Son** Gaines Post, 2002-04-25 In 1951 Gaines Post was a gangly bespectacled introspective teenager preparing to spend a year in Paris with his professorial father and older brother his mother who suffered from extreme depression had been absent from the family for some time Ten years later now less gangly but no less introspective he was finishing a two year stint in the army in West Germany and heading toward Oxford on a Rhodes scholarship having narrowly escaped combat in the Berlin crisis of 1961 His quietly intense coming of age story is both self revealing and reflective of an entire generation of young men who came to adulthood before the Cuban Missile Crisis and the Vietnam War Post s experiences in high school in Madison Wisconsin and Paris his Camus influenced undergraduate years at Cornell University and his army service in Germany are set very effectively against the events of the Cold War McCarthyism and American crackdowns on dissidents American foreign and military policy in Western Europe in the nuclear age French and German life and culture crises in Paris and Berlin that nearly bring the West to war and the Post family to dissolution these are the larger scenes and subjects of his self disclosure as a contemplative conflicted Cold War agnostic His intelligent talented mother and her fragile health hover over Post s narrative informing his hesitant relationships with women and his acutely questioning sense of self worth His story is strongly academic and historical as well as political and military his perceptions and judgments lean toward no ideological

extreme but remain true to the heroic ideals of his boyhood during the Second World War     *The American Child* ,1929
