Inner empire Daniel Maudlin, Alex Bremner, 2024-08-06 Inner Empire explores the impact of imperial cultures on the landscapes and urban environments of the British Isles from the sixteenth century through to the twentieth century It asserts that Britain's four hundred year entanglement with global empire left its mark upon the British Isles as much as it did the wider world Buildings stood as one of the most conspicuous manifestations of the myriad relationships that Britain maintained with the theory and practice of colonialism in its modern history Divided into two main sections the volume's content considers internal colonisation and its infrastructures of control order and suppression alongside wider relationships between architecture the imperial economy and cultural identity Taken together the essays in this volume present for the first time a coherent analysis of the British Isles as an imperial setting understood through its buildings spaces and infrastructure

François Gabriel, 2004 A richly illustrated carefully explained introduction to classical architecture Highly recommended Choice **The Elements of Classical Architecture** Georges Gromort, 2001 A treasury of drawings in the great Beaux Arts tradition Sir John Soane? Influence on Architecture from 1791 Oliver Bradbury, 2017-07-05 Sir John Soane's Influence on Architecture from 1791 A Continuing Legacy is the first in depth study of this eighteenth century British architect's impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753-1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane's late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane's influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane's is a continuing not negated legacy in architecture Architect, 1914 **RIBA Journal** Royal Institute of British Architects, 1914 Books on Architecture, Decoration and Furniture in the Library of the Peabody Institute, Baltimore, Maryland, Nineteen-twenty George Peabody Library, 1920 **A Dictionary of Architecture and Landscape Architecture**, **Railway News, Finance and Joint-stock Companies' Journal**, 1916
