Community of Peace Christopher Courtheyn,2022-03-29 Achieving peace is often thought about in terms of military operations or state negotiations Yet it also happens at the grassroots level where communities envision and create peace on their own The San Jos de Apartad Peace Community of small scale farmers has not waited for a top down peace treaty Instead they have actively resisted forced displacement and co optation by guerrillas army soldiers and paramilitaries for two decades in Colombia s war torn Urab region Based on ethnographic action research over a twelve year period Christopher Courtheyn illuminates the community s understandings of peace and territorial practices against ongoing assassinations and displacement San Jos s peace through autonomy reflects an alternative to traditional modes of politics practiced through electoral representation and armed struggle Courtheyn explores the meaning of peace and territory while

also interrogating the role of race in Colombia's war and the relationship between memory and peace Amid the widespread violence of today's global crisis Community of Peace illustrates San José's rupture from the logics of colonialism and capitalism through the construction of political solidarity and communal peace **Sorting Out the Mixed Economy** Amy C. Offner, 2021-06-08

The untold story of how U.S. development efforts in postwar Latin America helped lead to the dismantling of the U.S. welfare state In this groundbreaking book Amy Offner brings readers to Colombia and back showing the entanglement of American societies and the contradictory promises of midcentury statebuilding The untold story of how the road from the New Deal to the Great Society ran through Latin America Sorting Out the Mixed Economy also offers a surprising new account of the origins of neoliberalism **New Racial Missions of Policing** Paul Amar, 2013-09-13

This book identifies new formations of race racism and ethnicity at the intersection of neoliberalism security urban governance and the law through a comparative international analysis of police organizations and practices It pushes analytical and theoretical boundaries by examining racialization and ethnicization in locations where the topic is politically taboo such as in China India and France and where racial and ethnic hierarchies have supposedly been banished to the past as in Bosnia and South Africa This book also examines police and security services not as mere artefacts of state authority or the prerogatives of capitalist development but as relatively autonomous and uniquely productive intersections of new kinds of state social and cultural formations that are remaking race embodiment fear and control on their own terms This book was published as a special issue of Ethnic and Racial Studies *Regionalism and Modern Europe* Xosé M. Núñez Seixas, Eric Storm, 2018-12-13

Captives Yesenia Barragan, 2021-07-01 Freedom's Captives is a compelling exploration of the gradual abolition of slavery in the majority black Pacific coast of Colombia the largest area in the Americas inhabited primarily by people of African descent

From the autonomous rainforests and gold mines of the Colombian Black Pacific Yesenia Barragan rethinks the nineteenth century project of emancipation by arguing that the liberal freedom generated through gradual emancipation constituted a modern mode of racial governance that birthed new forms of social domination while temporarily instituting de facto slavery Although gradual emancipation was ostensibly designed to destroy slavery she argues that slaveholders in Colombia came to have an even greater stake in it Using narrative and storytelling to map the worlds of Free Womb children enslaved women miners free black boatmen and white abolitionists in the Andean highlands *Freedom's Captives* insightfully reveals how the Atlantic World processes of gradual emancipation and post slavery rule unfolded in Colombia *A Fervent Crusade for the National Soul* Catalina Muñoz-Rojas, 2022-01-04 *A Fervent Crusade for the National Soul* examines the implementation of cultural policies in relation to the contested configuration of citizenship in Colombia between 1930 and 1946 At a time when national identities were re imagined all over the Americas progressive artists and intellectuals affiliated with the liberal governments that ruled Colombia established an unprecedented bureaucratic apparatus for cultural intervention that celebrated so called popular culture and rendered culture a social right This book challenges pervasive narratives of state failure in Colombia attending to the confrontations negotiations and entanglements of bureaucrats with everyday citizens that shaped the relationship between the ruler and the ruled Catalina Muñoz argues that while culture became an instrument of inclusion the liberal definition of popular culture as authentic and static was also a tool for domination that reinforced enduring structures of inequality founded on region race and gender Liberals crafted the state as the paternalistic protector of acquiescent citizens instead of a warden of political participation Muñoz suggests that this form of governance allowed the elites to rule without making the structural changes required to craft a more equal society *Other Geographies* Sharad Chari, Susanne Freidberg, Vinay Gidwani, Jesse Ribot, Wendy Wolford, 2017-07-27 An international group of distinguished scholars pay homage to and build on the work of one of the most influential thinkers of our time Michael Watts Shows how Michael Watts research writings teaching and mentoring have relentlessly pushed boundaries transforming his chosen field of geography and beyond Spans an array of topics including the political economy and ecology of African societies governmentality and territoriality in various Southern contexts food security cultural materialist expositions of capitalism modernity and development across the postcolonial world Builds on his legacy exploring its theoretical analytical and empirical implications and proposing exciting new possibilities for further exploration in the tracks of Watts *Afro-Latin American Studies* Alejandro de la Fuente, 2018-04-26 Examines the full range of humanities and social science scholarship on people of African descent in Latin America *Colombia: A Country Study* Rex A. Hudson, 2010-09-08 Treats in concise and objective manner the dominant historical social political economic and national security aspects of contemporary Colombia Chapter bibliographies appear at the end of the book ***History of Modern Latin America*** Teresa A. Meade, 2016-01-19 Now available in a fully revised and updated second edition *A History of Modern Latin America* offers a comprehensive and

Afterlives of Discovery heidi andrea restrepo rhodes, 2025-03-28 In *Afterlives of Discovery* heidi andrea restrepo rhodes traces global and national histories as they entangle through the concept and material life of Discovery across Colombia's evolution into a liberal settler colonial state Rather than seeing Discovery as a singular event or bygone era rhodes theorizes Discovery as a globally encompassing racialized formation of domination and geographic speculation that continues to structure settler colonialism Discovery's logics they argue are rooted in colonial and capitalist fantasies projected onto the racialized space and place of the colonized other rhodes draws on critical theory human rights research and Colombian archives to challenge dominant narratives that maintain the Colombian armed conflict began as a Marxist insurgency in 1964 Instead rhodes shows that the conflict is an extension of Discovery's ongoingness via projects of dispossession extraction whitening and epistemic and political hegemony Given that Colombia's national past present and future are grounded in Discovery rhodes asks How is it possible to build futures that escape Discovery's grasp

Blood and Capital Jasmin Hristov, 2014-07-31 In *Blood and Capital* The Paramilitarization of Colombia Jasmin Hristov examines the complexities dynamics and contradictions of present day armed conflict in Colombia She conducts an in depth inquiry into the restructuring of the state's coercive apparatus and the phenomenon of paramilitarism by looking at its military political and legal dimensions Hristov demonstrates how various interrelated forms of violence by state forces paramilitary groups and organized crime are instrumental to the process of capital accumulation by the local elite as well as the exercise of political power by foreign enterprises She addresses as well issues of forced displacement proletarianization of peasants concentration of landownership growth in urban and rural poverty and human rights violations in relation to the use of legal means and extralegal armed force by local dominant groups and foreign companies Hristov documents the penetration of major state institutions by right wing armed groups and the persistence of human rights violations against social movements and sectors of the low income population *Blood and Capital* raises crucial questions about the promised dismantling of paramilitarism in Colombia and the validity of the so called demobilization of paramilitary groups both of which have been widely considered by North American and some European governments as proof of Colombian president Iv  r Uribe's advances in the wars on terror and drugs

Violence

against Women in and beyond Conflict Julia Carolin Sachseder, 2022-09-16 Violence against Women in and beyond Conflict explores the processes and structures that underlie and contribute to sexual violence and internal displacement in armed conflict utilizing extensive ethnographic research to provide cutting edge insights The author argues that the key to understanding violence against women lies at the intersection of transnational capital race and gender that not only contribute to its production but also to its persistence The book uses the Colombian armed conflict as the primary case study but develops a broader framework for theorizing the relationship between the global political economy the history of coloniality and intersectional constructions of gender and race with regard to conflict and violence It offers an understanding of violence against women as not isolated from but part and a symptom of a larger system of political social and economic inequality that is rooted in colonialism and exploited and exacerbated by transnational capital relations The author also shows how the state and non state actors most prominently paramilitaries are involved in this relationship of violence The book highlights implications for meaningful and sustainable peace in post conflict contexts This book will be of great interest to students and scholars of international relations gender studies and conflict studies as well as policymakers non governmental organizations and practitioners interested in conflict and security

Path of Empire Aims McGuinness III, 2016-12-01 Most people in the United States have forgotten that tens of thousands of U S citizens migrated westward to California by way of Panama during the California Gold Rush Decades before the completion of the Panama Canal in 1914 this slender spit of land abruptly became the linchpin of the fastest route between New York City and San Francisco a route that combined travel by ship to the east coast of Panama an overland crossing to Panama City and a final voyage by ship to California In *Path of Empire* Aims McGuinness presents a novel understanding of the intertwined histories of the California Gold Rush the course of U S empire and anti imperialist politics in Latin America Between 1848 and 1856 Panama saw the building by a U S company of the first transcontinental railroad in world history the final abolition of slavery the establishment of universal manhood suffrage the foundation of an autonomous Panamanian state and the first of what would become a long list of military interventions by the United States Using documents found in Panamanian Colombian and U S archives McGuinness reveals how U S imperial projects in Panama were integral to developments in California and the larger process of U S continental expansion *Path of Empire* offers a model for the new transnational history by unbinding the gold rush from the confines of U S history as traditionally told and narrating that event as the history of Panama a small place of global importance in the mid 1800s

Crafting a Republic for the World Lina del Castillo, 2018-06 In the wake of independence Spanish American leaders perceived the colonial past as looming over their present *Crafting a Republic for the World* examines how the vibrant postcolonial public sphere in Colombia invented narratives of the Spanish colonial legacy Those supposed legacies included a lack of effective geographic knowledge blockages to a circulatory political economy existing patterns of land tenure entrenched inequalities and ignorance among popular sectors At times collaboratively and at

times combatively Colombian leaders tackled these colonial legacies to forge a republic in a hostile world of monarchies and empires The highly partisan yet uniformly republican public sphere crafted a vision of a virtuous nation that unlike the United States had already abolished slavery and included Indians as citizens By the mid nineteenth century as suffrage expanded to all males over twenty one Colombian elites nevertheless tinkered with territorial divisions and devised new constitutions to manage the alleged colonial legacy affecting the minds of popular voters The book explores how the struggle to be at the vanguard of radical republican equality fomented innovative contributions to social sciences including geography cartography political ethnography constitutional science history and the calculation of equity through land reform

Paradoxically these efforts created a kind of legal pluralism reminiscent of the Spanish monarchy during the colonial period
