Eccentric Laughter Benedict Morrison, 2024-11-01 *Eccentric Laughter* explores new ways to watch postwar British film comedies arguing that their representations of eccentricity offered a set of possible queer futures for a Britain that had been destabilized by years of conflict and social upheaval Far from being the apolitical cinema described by previous critics these comedies including both perennial favorites from Ealing Studios and neglected films ripe for rediscovery make a joke of and suggest alternatives to the heterocentric home and family Referencing a wide range of theories the book gives details of how these films comic queernesses are not structured on fixed identities but on an open play of possibilities depicting eccentricity artifice drag ruins and the wild in ways that can still offer inspiration for experiments in living today Engaging with contemporary queer theories and politics the book argues that these films continue to address questions of urgent relevance to students and other viewers in the twenty first century Films discussed include *The Belles of St Trinian's* *Genevieve* *The Lavender Hill Mob* *Simon and Laura* *The Stranger* *Left No Card* and *Young Wives Tale*

Class, Culture and Community Anne Baldwin, Chris Ellis, 2012-11-15 In recent years historians have debated fervently on the reason for the decline of British Labour History as an academic discipline Most certainly the challenge of Thatcherism to the working classes and trade unions in the 1980s and the fragmentation of Labour history into gender studies industrial studies and women's history have contributed to its apparent decline Post modernists challenges to the concept of class culture and community have done their damage As a result Labour history in its broad school sense has been taught less and less in British universities Yet it

survives and there are grounds for believing that it will revive This collection of chapters arose from a conference held at the University of Huddersfield in November 2010 held under the auspices of the Society for the Study of Labour History where nineteen papers were presented Ten of this disparate array of papers form the basis of this collection The theme of community and localised struggle form the first section ranging as it does from the newspapers representation of Yorkshire miners to brass bands and the development of separate culture The second section deals with the more traditional trade unionism and varieties of industrial struggle The third section focuses upon the political aspects of working class activity drawing upon the role of women and Labour policy on steel nationalisation and defence The fourth deals with radicalism ranging from the failure of Chartism the policy of working class organisations to emigration and the failure of the soft section of the British left in the 1920s and 1930s There is no all embracing concept here for what is a varied collection of chapters However what can be said is that British Labour history continues to provide new areas for research Indeed its death as an academic discipline has been greatly exaggerated This collection of book chapters represents the current revival in Labour history which has emerged in a form that brings together community and culture alongside class and political representation to explore the breadth and depth of working class identity

Before and Beyond the 'Big Society' Joseph Forde, 2022-05-26

John Milbank's theology has shaped much modern political thinking both within and without the Church In *Before and Beyond the Big Society* Joseph Forde presents the first study devoted exclusively to John Milbank's theology of welfare and how it has influenced policy in the Church of England since 2008 By examining the favourable response the Church gave to the Big Society project in 2010-12 Forde shows that Milbank's Blue Socialist fingerprint increasingly dominates However this theology has not evolved in a vacuum and Forde expertly places it in its historical and theoretical context He offers a detailed critical discussion of Milbank's own critique of what has been the mainstream Temple Anglican theology of welfare in the Church of England since the 1940s and a fresh contribution to the assessment of Anglican social theology Finally he demonstrates how Milbank's ideas have been furthered by other influential Anglicans It is this influence that will carry the greatest implications for the Church of England's policy on welfare going forward making this study relevant to all who care about its contribution to the provision of welfare

Dressing for Austerity Geraldine Biddle-Perry, 2017-04-30

A new look for Austerity The coldest winter on record rationing successive economic crises bombed out towns and cities with some justification Austerity Britain in the late 1940s is coloured in the popular imagination in tones of drab *Dressing for Austerity* shines a light on alternative visions of post war optimism and aspiration It traces how set against the Labour government's philosophy of Austerity by design in a climate of post war idealism the desire for affordable fashionable clothing access to leisure and the health time and money to enjoy them became totemic symbols of post war ambition that impelled new strategies of state control and consumer agency The book examines the immediate post war period its politics its fashions and its people in new ways and on its own terms as a critical tipping point in the making of modern Britain

Building on the strong foundations of the prior editions, *The Evolution of the Welfare State* Sixth Edition has been updated to include new intersectional viewpoints on welfare such as the role of gender. Expanded coverage of the post 1948 period. Updated methodological perspectives in the light of the latest research. Supermac D R Thorpe, 2010-09-09 Great grandson of a crofter and son in law of a Duke, Harold Macmillan 1894-1986 was both complex as a person and influential as a politician. Marked by terrible experiences in the trenches in the First World War and by his work as an MP during the Depression, he was a Tory rebel, an outspoken backbencher opposing the economic policies of the 1930s and the appeasement policies of his own government. Churchill gave him responsibility during the Second World War with executive command as Viceroy of the Mediterranean. After the War, in opposition, Macmillan was one of the principal reformers of the Conservatives and after 1951, back in government, served in several important posts before becoming Prime Minister after the Suez Crisis. *Supermac* examines key events including the controversy over the Cossacks repatriation, the Suez Crisis, 'You've Never Had It So Good', the Winds of Change, the Cuban Missile Crisis and the Profumo Scandal. The culmination of thirty-five years of research into this period by one of our most respected historians, this book gives an unforgettable portrait of a turbulent age. Shortlisted for the Orwell Prize.

Analysing Social Policy Concepts and Language Daniel Béland, Klaus Petersen, 2015-10-07 Social policy scholars and practitioners work with concepts such as welfare state and social security, but where do these concepts come from and how has their meaning changed over time? Which are the dominant social policy concepts and how are they contested? What characterises social policy language in specific countries and regions of the world and how do social concepts travel between countries? Addressing such questions in a systematic manner for the first time, this edited collection, written by a cross-disciplinary group of leading social policy researchers, analyses the concepts and language used to make sense of contemporary social policy. The volume focuses on OECD countries located on four different continents: Asia, Australasia, Europe and North America. Combining detailed chapters

on particular countries with broader comparative chapters the book strikes a rare balance between case studies and transnational perspectives It will be of interest to academics and students in social policy social work political science sociology history and public administration as well as practitioners and policy makers Warrior Race Lawrence James, 2007-04-01 Modern Britain is a nation shaped by wars The boundaries of its separate parts are the outcome of conquest and resistance The essence of its identity are the warrior heroes both real and imagined who still capture the national imagination from Boadicea to King Arthur Rob Roy to Henry V the Duke of Wellington to Winston Churchill It is a sense of identity that grew under careful cultivation during the global struggles of the eighteenth century and found its most powerful expression during the world wars of the twentieth In Warrior Race Lawrence James investigates the role played by war in the making of Britain Drawing on the latest historical and archaeological research as well as numerous unfamiliar and untapped resources he charts the full reach of British military history the physical and psychological impact of Roman military occupation the monarchy's struggle for mastery of the British Isles the civil wars of the seventeenth century the total war experience of twentieth century conflict But Warrior Race is more than just a compelling historical narrative Lawrence James skillfully pulls together the momentous themes of his subject He discusses how war has continually been a catalyst for social and political change the rise survival and reinvention of chivalry the literary quest for a British epic the concept of birth and breeding as the qualifications for command in war and the issues of patriotism and Britain's antiwar tradition Warrior Race is popular history at its very best incisive informative and accessible immaculately researched and hugely readable Balancing the broad sweep of history with an acute attention to detail Lawrence James never loses sight of this most fascinating and enduring of subjects the question of British national identity and character *The Schuman Plan and the British Abdication of Leadership in Europe* Edmund Dell, 1995 This book provides the first detailed examination of the Attlee government's rejection of British participation in the Schuman Plan in 1950 which proposed the establishment of a common market for steel and coal as a way of avoiding future Franco German conflict This also represented Britain's rejection of a leading role in fashioning European political and economic intergration Many received myths are contested the Schuman Plan was not a bolt from the blue domestic political circumstances did not make it impossible for Britain to join participation would not have been incompatible with Britain's global and Commonwealth roles Edmund Dell assesses Ernest Bevin's conduct as Foreign Secretary during this last year of his life in declining health but still believing himself indispensable he was arrogantly mistaken about the Schuman plan and lacked colleagues of comparable stature able to tell him he was wrong The only hope was Stafford Cripps the Chancellor of the Exchequer but he was on the point of resignation due to ill health and lacked the energy to press his doubts Ministerial inadequacy was compounded by the Foreign Office the leading officials in which were no less arrogant and quite as blind to the implications of the proposal The consequence was a major policy failure which has influenced Britain's relations with its European partners right up to the present Edmund Dell works with

archival evidence and the memoirs of participants to place these events in the context of the big questions dominating British policy formation security the dollar shortage and the difficult relationship with an American administration intent both on attacking the sterling area and pressing for European federation The result is an incisive revaluation of a key episode in post war European history
