who wish to be introduced to the work on equal terms with that inner circle of adepts The reason is that its dramatic moments lie quite outside the consciousness of people whose joys and sorrows are all domestic and personal and whose religions and political ideas are purely conventional and superstitious To them it is a struggle between half a dozen fairytale personages for a ring involving hours of scolding and cheating and one long scene in a dark gruesome mine with gloomy ugly music and not a glimpse of a handsome young man or pretty woman Only those of wider consciousness can follow it breathlessly seeing in it the whole tragedy of human history and the whole horror of the dilemmas from which the world is shrinking today Shaw interprets the Ring in Marxian terms as an allegory of the collapse of capitalism from its internal contradictions Musicologically his interpretation is noteworthy for its perception of the change in aesthetic direction beginning with the final scene of Siegfried in which he claimed that the cycle turns from Musikdrama back towards opera
