**Textual Power** Robert E. Scholes, 1985-01-01 Robert Scholes has written an enviable book on the uses and abuses of literary theory in the teaching of literature One of his most forceful points is that literary theory is not something a teacher may either use or not use for teaching itself is an unavoidably theoretical activity Gerald Graff Novel Scholes emphasis in Textual Power is indicated by the book's subtitle After a provocative analysis of disciplinary values and departmental tendencies he proposes that we must stop teaching literature and start studying texts His book is essential for college libraries R C Gebhardt Choice There is no issue more current more relevant to the present scene than the problem of pedagogy and its relation to contemporary theory Textual Power is an important provocative and above all useful contribution to this discussion Gregory L Ulmer Robert Scholes author of Structuralism in Literature and
