Perfidious Albion The Origins Of Anglo French Rivalry In The Levant

Robert A. Smith

Perfidious Albion The Origins Of Anglo French Rivalry In The Levant:

Perfidious Albion John Marlowe, 1971 Struggle in the Levant Caroline Attié, 2003-11-21 The 1950s in Lebanon were marked by bitter in fighting slander rivalry and rumour Caroline Attie s book seeks to explain the truth behind the intrigues that dominated by country for a decade It aims to correct for example the misperceptions surrounding the role of foreign interventionism and looks for fact behind the rumours Did the Egyptians and Syrians provide support for the rebels Did Camille Chamoun try to amend a constitution to allow him a second presidential term **How Australia Became British**

Howard T. Fry, 2016-12-15 With the rival imperial powers of Europe girdling the globe with trade how did Australia come to be British **Neopatriarchy** Hisham Sharabi, 1992-10-29 Focusing on the region of the Arab world comprising some two hundred million people and twenty one sovereign states extending from the Atlantic to the Persian Gulf this book develops a theory of social change that demystifies the setbacks this region has experienced on the road to transformation Professor Sharabi pinpoints economic political social and cultural changes in the last century that led the Arab world as well as other developing countries not to modernity but to neopatriarchy a modernized form of patriarchy He shows how authentic change was blocked and distorted forms and practices subsequently came to dominate all aspects of social existence and activity among them militant religious fundamentalism an ideology symptomatic of neopatriarchal culture Presenting itself as the only valid option Muslim fundamentalism now confronts the elements calling for secularism and democracy in a bitter battle whose outcome is likely to determine the future of the Arab world as well as that of other Muslim societies in Africa and Asia

The Encyclopedia of the Arab-Israeli Conflict Spencer C. Tucker, Priscilla Roberts, 2008-05-12 This exhaustive work offers readers at multiple levels key insights into the military political social cultural and religious origins of the Arab Israeli conflict The Encyclopedia of the Arab Israeli Conflict A Political Social and Military History is the first comprehensive general reference encompassing all aspects of the contentious Arab Israeli relationship from biblical times to the present with an emphasis on the era beginning with World War I The Encyclopedia of the Arab Israeli Conflict goes beyond simply recapping military engagements In four volumes with more than 750 alphabetically organized entries plus a separate documents volume it provides a wide ranging introduction to the distinct yet inextricably linked Arab and Israeli worlds and worldviews exploring all aspects of the conflict The objective analysis will help readers understand the dramatic events that have impacted the entire world from the founding of modern Israel to the building of the Suez Canal from the Six Day War to the Camp David Accords from the assassinations of Anwar Sadat and Yitzhak Rabin to the rise and fall of Yasser Arafat the 2006 Palestinian elections and the Israeli Hezbollah War in Lebanon **Late Georgian and Regency England, 1760-1837** Robert A. Smith, 2004-07-08 A guide to historical literature on England between 1760 and 1837 emphasising more recent work Presence, Prevention, and Persuasion Edward Rhodes, 2004-01-01 By stationing its military forces in a distant region of the world can a great power hope to shape the peacetime political development of that region In Presence

Prevention and Persuasion contributing scholars examine six historical periods in which British American and French decision makers attempted to use a regional military predominance to influence domestic and regional political outcomes The authors explore the types of military capabilities that appear critical in successful persuasion and prevention efforts and the goals that conducive to this type of action

The Oxford History of the British Empire: Volume V: Historiography

Robin Winks,1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

Channelling Mobilities

Valeska Huber,2013-08-01 The history of globalisation is usually told as a history of shortening distances and acceleration of the flows of people goods and ideas Channelling Mobilities refines this picture by looking at a wide variety of mobile people passing through the region of the Suez Canal a global shortcut opened in 1869 As an empirical contribution to global history the book asks how the passage between Europe and Asia and Africa was perceived staged and controlled from the opening of the Canal to the First World War arguing that this period was neither an era of unhampered acceleration nor one of hardening borders and increasing controls Instead it was characterised by the channelling of mobilities through the differentiation regulation and bureaucratisation of movement Telling the stories of tourists troops workers pilgrims stowaways caravans dhow skippers and others the book reveals the complicated entanglements of empires internationalist initiatives and private companies

Britain, Israel and Anglo-Jewry 1949-57

Natan Aridan,2004-08-02 This book focuses on the bilateral and multilateral relations between Britain the former proprietor and Israel the successor state during the period following their armed clash in January 1949 to Israel s withdrawal from the Gaza and the Sinai in March 1957 It highlights the formulation of foreign policy decisions in Britain and Israel Britain s special responsibility and influence which affected Israel s relations with neighbouring Arab states Israel s complex policy

towards Britain Anglo Jewry s attitude towards Israel and the distinctive relationship between Israel s embassy in London and the Jewish community Arch Of Society Thomas Levy,1995-01-01 This volume marks a departure from earlier descriptive archaeological summaries of the Holy Land Taking an anthropological and socio economic perspective many of the leading archaeologists who work in Israel and Jordan today present timely and concise summaries of the archaeology of this region Chronologically organized each chapter outlines the major cultural transitions which occurred in a given archaeological period To explain the processes which were responsible for culture change a review is made of the most recent research concerning settlement patterns innovations and technology religion and ideology and social organization The material culture of every period of human history in the Holy Land is explored from the earliest prehistoric hominids through the Biblical and historical periods and up to modern 20th century times Each chapter is accompanied by settlement pattern maps and a plate highlighting the major artifacts which archaeologists use to identify the material culture of the period In addition windows are presented which focus on major social issues and controversies such as The Agricultural Revolution the Israelite Conquest of Canaan and Ancient Metal Working and Social Change This volume should provide students and the general reader with a useful reference volume concerning the archaeology of societies which lived and live in the Holy Land

The Accidental Tourist, Wilfrid Scawen Blunt, and the British Invasion of Egypt in 1882 Michael D. Berdine,2020-11-25 This fascinating account highlights the extent the world s major powers will go to as they seek to insure their own interests and agendas despite the wishes of those whose countries they invade and occupy The Accidental Tourist profiles Wilfrid Scawen Blunt s involvement in the so called Arabi Revolt in 1882 It addresses Blunt s tireless efforts on behalf of the Egyptian Nationalists to mediate the differences between Britain and Egypt and prevent a British invasion of Egypt It highlights what amounted to a government cover up of the actions of certain governmental officials to precipitate the invasion by falsifying intelligence information and manipulating the press It also takes to task the scholarly tradition of maligning Blunt and questioning the accuracy of his version of the events of 1882 Blunt was branded a traitor in the House of Commons This book was written to set the record straight It is ideal reading for those interested in the field of Middle Eastern Imperial or Colonial history and will provide readers with a better understanding of the real story of imperialism that went on at the time and is still going on in the Middle East today *The Transformation of European Politics, 1763-1848*

Paul W. Schroeder,1994 This is the only modern study of European international politics to cover the entire timespan from the end of the Seven Years War in 1763 to the revolutionary year of 1848 **France's Rhineland Policy, 1914-1924**

Walter A. McDougall,2015-03-08 Walter McDougall offers an original analysis of Versailles diplomacy from the standpoint of the power that had the most direct interest and took the first initiatives in the search for a solution to the German problem The author s new view of the struggle for execution or revision of the Versailles treaty holds sober implications for assessment of the political origins of international anarchy during the 1930s and European integration in the 1950s He shows

that the Treaty of Versailles was unenforceable and that the French postwar government far from enjoying predominance in Europe suffered from financial crisis and economic and political inferiority to Germany Versailles was thus the Boche peace and the only path to a stable Europe seemed to lie through permanent restriction of German economic and political unity Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **British Foreign Policy 1874-1914** Sneh

Mahajan,2003-08-27 A challenging analysis of British Foreign Policy is provided at a time when Britain possessed the biggest Empire that humankind has ever known In this Empire India had a unique position comprising 97 per cent of Britain s Asiatic Empire All British statesmen deemed it essential to maintain their hold over India whatever the risk or cost of doing so This work focuses on aspects that have been hitherto marginalized It also contributes to debates surrounding the origins of the First World War the multipolar diplomacy of the late nineteenth century and the nature of imperial connections *British Policy in Mesopotamia, 1903-1914* Stuart A Cohen,2022-07-01 British imperial interests in Iraq during and after the First World War are well known and have often been studied But what of British policy towards the Mesopotamian provinces before 1914 In this well documented study Stuart Cohen provides the first coherent account of growing British interest in these provinces in which the defense of India commercial considerations the protection of Shia Muslim pilgrims and fear of a German dominated Berlin to Baghdad railway all had a vital role to play First published in 1976 and now available in paperback for the first time this book is essential reading not only for an understanding of the making of British policy towards the Arab provinces of the Ottoman empire but also of the last days of Turkish rule in Iraq itself **The Druze**

Community and the Lebanese State Yusri Hazran,2014-07-11 One of the fundamental questions of Middle Eastern and Lebanese studies in particular is the history of the relationship between the Druze community and the state in modern Lebanon Arguing that the Druze community has been politically alienated from the Lebanese state this book explores the historical and political origins of this alienation The Druze Community and the Lebanese State contends that the origins of this alienation lie in the state s national ideology its political confessional system and the Druze s historical background during the medieval period Moreover this book examines the extent to which the Druze s attitude vis vis the Lebanese state has been influenced by their historical rivalry with the Maronites Particular emphasis is placed on the political and ideological practices adopted by the Druze leadership and intelligentsia as they dealt with the changes taking place in their community s political status following the political settlements of 1920 and 1943 the establishment of Greater Lebanon and the National Pact respectively A welcome addition to existing literature on Lebanon this book will be an essential reference

tool for students and researchers with an interest in nationalism identity and Middle East Politics more broadly The Napoleonic Wars Alexander Mikaberidze, 2020-01-13 The first truly global history of the Napoleonic Wars the world's first world war **Charles de Gaulle's Legacy of Ideas** Benjamin M. Rowland, 2011-08-16 The essays in this volume examine selected national regional European and international policies of Charles de Gaulle giving consideration to their significance in his own time and today Not everything de Gaulle did withstands the test of time Nor obviously was everything beyond criticism in his own time Nonetheless a main finding in the words of one essayist is that de Gaulle had an uncanny sense of where history was going and the skill to position his country accordingly De Gaulle also stands as a testament to the power of individuals in history a somewhat unfashionable viewpoint in modern university curriculums Today when France's destiny appears increasingly to depend on structures and institutions beyond its national control including a Europe weakened by the sovereign debt crisis and a global economic system accountable to no one it seems timely to reconsider the record of the twentieth century's greatest Frenchman whose skill at dealing with the problems of his time can inspire today's generation of politicians and statesmen *Blue-Water Empire* Robert Holland, 2012-01-26 Blue Water Empire is Robert Holland's magnificent narrative of Britain's military and cultural ties with the Mediterranean Sea in the style of the epic naval histories of N A M Rodger Britain has been a major presence in the Mediterranean from the Battle of the Nile to the end of empire as both a military and a colonising force on the islands and coastlines of the sea Robert Holland traces the fascinating story of that presence from its legacies in culture language and law to the Mediterranean's own influence on Britain Evoking the conflicts and contrasts between British and local societies caught up in dramatic events as well as their mutual resilience under pressure Blue Water Empire charts with vigour flair and clarity the British experience in the Mediterranean in the age of empire Reviews An important corrective to current historical amnesia the definitive account of Anglo Mediterranean history for years to come Amanda Foreman New Statesman A rich and readable account of the British in the Middle Sea As Holland's learned lucid and enjoyable work makes clear many British politicians saw the Mediterranean as the pre eminent global strategic arena representing the key to victory in Europe and Asia Dominic Sandbrook Sunday Times This is an important subject and it has never before been drawn together into a single coherent narrative Blue Water Empire puts the land not the sea at the heart of the story Literary Review Robert Holland's masterly history of the Mediterranean is a pleasure to read Blue Water Empire shows how Britain's mastery of the Middle Sea shaped the modern world whilst reminding us how profoundly the Mediterranean has influenced the British Simon Ball author of The Bitter Sea The Struggle for Mastery in the Mediterranean 1935 1949 Lively and absorbing Philip Mansel Spectator About the author Robert Holland is one of the world's leading historians of the Mediterranean and the author of Britain and the Revolt in Cyprus 1954 59 and with Diana Markides The British and the Hellenes Struggles for Mastery in the Eastern Mediterranean 1850 1960 He holds professorial positions at the Centre for Hellenic Studies in King's College London and the Institute of Commonwealth Studies

in the same University
