Shelton**

Policy And Opinion In The Gulf War:

Policy and Opinion in the Gulf War John Mueller, 1994-07 The Persian Gulf crisis may well have been the most extensively polled episode in U S history as President Bush his opponents and even Saddam Hussein appealed to and tried to influence public opinion As well documented as this phenomenon was it remains largely unexplained John Mueller provides an account of the complex relationship between American policy and public opinion during the Gulf crisis Mueller analyzes key issues the actual shallowness of public support for war the effect of public opinion on the media rather than the other way around the use and misuse of polls by policy makers the American popular focus on Hussein s ouster as a central purpose of the War and the War s short lived impact on voting Of particular interest is Mueller s conclusion that Bush succeeded in leading the country to war by increasingly convincing the public that it was inevitable rather than right or wise Throughout Mueller author of War Presidents and Public Opinion an analysis of public opinion during the Korean and Vietnam wars places this analysis of the Gulf crisis in a broad political and military context making comparisons to wars in Panama Vietnam Korea and the Falklands as well as to World War II and even the War of 1812 The book also collects nearly 300 tables charting public opinion through the Gulf crisis making Policy and Opinion in the Gulf War an essential reference for anyone interested in recent American politics foreign policy public opinion and survey research **Public Opinion and**

the International Use of Force Philip Everts, Pierangelo Isernia, 2003-12-16 Recent years have witnessed a growing interest in the relationship between public opinion and foreign policy in Western democracies This international board of contributors examine the ways in which the connection between public opinion and the use of military force has developed since the end of the Cold War In doing so it also addresses the crucial and topical question of whether and to what extent a democratic foreign policy is possible **Wars of Revelation** Rebecca Lissner, 2021-10-26 As American foreign policy

experts anticipate a new Cold War with China there is no better time to reflect on the evolution of the United States grand strategy during its decades long contest with Russia Lissner shows that military interventions in Korea Vietnam and Iraq were crucibles for American foreign policy in the latter half of the 20th century testing strategic axioms on the battlefield and compelling adjustments to Washington s conception of its global role In each case these wars of revelation provided searing insights into the capabilities and intentions of America s most dangerous international adversaries as well as the potential and limits of its own national power By centering her narrative of post World War II American foreign relations on these pivotal episodes Lissner provides an historically rich and theoretically compelling narrative that will interest readers keen to understand the past present and future of US grand strategy **Freedom and Order** Gabriel Rubin, 2011-05-19 The book examines how governments and publics react to terrorist attacks in the United States the United Kingdom and Israel It focuses specifically on why civil liberties are abridged in some cases and not in others The chapters cover the topic by looking at it through a number of different lenses including topics like how governments might manipulate fear public

opinion trends after terrorist attacks how the Patriot Act was passed and case studies where legislation was blocked by the legislature and a government chief executive did not seek to pass legislation at all after a terrorist attack This innovative book compares different responses to terrorism without simply focusing on the case of 9 11 and through comparison reveals new findings about best practices for dealing with terrorism Freedom and Order gives a fine grain analysis of how the Patriot Act was passed that does not exist in any other text to date and compares public responses to terror attacks from three different countries Rubin deals a blow to the theory that the public rallies around their leader after terrorist attacks and that civil liberties are always abridged after terrorist attacks

Presidential Rhetoric on Terrorism under Bush, Obama and Trump Gabriel Rubin,2020-03-21 Through the analysis of eighteen years of presidential data this book shows how Presidents Bush Obama and Trump have conducted and framed the war on terror since its inception in 2001 Examining all presidential speeches about terrorism from George W Bush s two terms as President Barack Obama s two terms as President and Donald Trump s first year as President this book is the first to compare the three post 9 11 presidents in how they have dealt with the terror threat Presidential Rhetoric on Terrorism under Bush Obama and Trump argues that when policies need to be sold to the public and Congress presidents make their pertinent issues seem urgent through frequent speech making and threat inflation It further illustrates how after policies are sold a new President s reticence may signify quiet acceptance of the old regime s approach After examining the conduct of the war on terror to date it concludes by posing policy suggestions for the future

International Security and Conflict Bruce Russett,2017-03-02 This important collection of classic articles and papers presents a variety of perspectives on key topics in international security and conflict These include how the structure of the international system constrains nations choices how domestic politics may affect decisions on war and peace how individual and small group behaviour can affect foreign policy and how international organizations can affect the security of states and peoples Some of the selections are classics but most represent recent research and analysis They draw on international scholars working from different kinds of theories realist liberal institutionalist and constructivist and research methods to ask why nation states may fight violently or stay at peace

The Media and International Security Stephen Badsey,2013-09-13 A collection of the papers from the 1995 Sandhurst conference presented by leading members of the armed forces the media and academia The conference marked a major advance in British thinking on this very topical and fast moving subject bringing together authorities from various fields in a multidisciplinary investigation which has been and will be of great interest to a wide variety of specialist readers

Democracies at War Dan Reiter,Allan C. Stam,2010-07-01 Why do democracies win wars This is a critical question in the study of international relations as a traditional view expressed most famously by Alexis de Tocqueville has been that democracies are inferior in crafting foreign policy and fighting wars In Democracies at War the first major study of its kind Dan Reiter and Allan Stam come to a very different conclusion Democracies tend to win the wars they fight specifically about eighty percent of the time Complementing

their wide ranging case study analysis the authors apply innovative statistical tests and new hypotheses In unusually clear prose they pinpoint two reasons for democracies success at war First as elected leaders understand that losing a war can spell domestic political backlash democracies start only those wars they are likely to win Secondly the emphasis on individuality within democratic societies means that their soldiers fight with greater initiative and superior leadership Surprisingly Reiter and Stam find that it is neither economic muscle nor bandwagoning between democratic powers that enables democracies to win wars They also show that given societal consent democracies are willing to initiate wars of empire or genocide On the whole they find democracies dependence on public consent makes for more rather than less effective foreign policy Taking a fresh approach to a question that has long merited such a study this book yields crucial insights on security policy the causes of war and the interplay between domestic politics and international relations *The Oxford Handbook of Political Communication* Kate Kenski, Kathleen Hall Jamieson, 2017-06-23 Since its development shaped by the turmoil of the World Wars and suspicion of new technologies such as film and radio political communication has become a hybrid field largely devoted to connecting the dots among political rhetoric politicians and leaders voters opinions and media exposure to better understand how any one aspect can affect the others In *The Oxford Handbook of Political Communication* Kate Kenski and Kathleen Hall Jamieson bring together leading scholars including founders of the field of political communication Elihu Katz Jay Blumler Doris Graber Max McCombs and Thomas Paterson to review the major findings about subjects ranging from the effects of political advertising and debates and understandings and misunderstandings of agenda setting framing and cultivation to the changing contours of social media use in politics and the functions of the press in a democratic system The essays in this volume reveal that political communication is a hybrid field with complex ancestry permeable boundaries and interests that overlap with those of related fields such as political sociology public opinion rhetoric neuroscience and the new hybrid on the quad media psychology This comprehensive review of the political communication literature is an indispensable reference for scholars and students interested in the study of how why when and with what effect humans make sense of symbolic exchanges about sharing and shared power The sixty two chapters in *The Oxford Handbook of Political Communication* contain an overview of past scholarship while providing critical reflection of its relevance in a changing media landscape and offering agendas for future research and innovation

Contemporary Controversies and the American Racial Divide Robert C. Smith, Richard Seltzer, 2000-05-30 *Contemporary Controversies and the American Racial Divide* is a detailed study of some of the most racially divisive issues America has encountered in the past decade Smith and Seltzer employ more than forty surveys to explore race based public opinion differences on high profile controversies including the Rodney King and O J Simpson cases the arrest trial jailing and subsequent reelection of Washington D C Mayor Marion Barry the Million Man March and Louis Farrakhan and the Clarence Thomas Anita Hill controversy The authors also look at race based opinion differences on the inner city crack cocaine

epidemic and the spread of AIDS among the American populace The divisions in opinion between blacks and whites on these controversies are explained in terms of the distinctive historical and cultural experiences of the different races and the gaps gulfs and chasms in their contemporary social and economic conditions While also noting significant commonalities in opinion across the color line the book focuses on racial differences and their sources and in a concluding chapter advances suggestions as to how the nation might overcome its racial divisions This innovative study is a unique rich contextualized dynamic analysis of race opinion unlike anything else in literature

Encyclopedia of U.S. Political History Andrew Robertson, Michael A. Morrison, William G. Shade, Robert Johnston, Robert Zieger, Thomas Langston, Richard Valelly, 2010-04-01 Unparalleled coverage of U S political development through a unique chronological framework

Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader s guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors

VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence

VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system

VOLUME 3 Expansion Division and Reconstruction 1841 1877 Volume Editor William Shade Lehigh University emeritus This volume examines three decades in the middle of the

nineteenth century which witnessed the emergence of the debate over slavery in the territories which eventually led to the Civil War the military conflict itself from 1861 until 1865 and the process of Reconstruction which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877 VOLUME 4 From the Gilded Age through the Age of Reform 1878 1920 Volume Editor Robert Johnston University of Illinois at Chicago With the withdrawal of federal soldiers from Southern states the previous year 1878 marked a new focus in American politics and it became recognizably modern within the next 40 years This volume focuses on race and politics economics labor and capitalism agrarian politics and populism national politics progressivism foreign affairs World War I and the end of the progressive era VOLUME 5 Prosperity Depression and War 1921 1945 Volume Editor Robert Zieger University of Florida Between 1921 and 1945 the U S political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts the Great Depression and World War II The main topics covered in this volume are declining party identification the Roosevelt Coalition evolving party organization congressional inertia in the 1920s the New Deal Congress during World War II the growth of the federal government Franklin D Roosevelt s presidency the Supreme Court s conservative traditions and a new judicial outlook VOLUME 6 Postwar Consensus to Social Unrest 1946 1975 Volume Editor Thomas Langston Tulane University This volume examines the postwar era with the consolidation of the New Deal the onset of the Cold War and the Korean War It then moves into the 1950s and early 1960s and discusses the Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977 1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes social policy and the size of national government It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War Stateless terrorism symbolized by the 9 11 attacks the continuing American tradition of civil liberties and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered
