Political And Socioeconomic Transformation Of Turkey:

The Political and Socioeconomic Transformation of Turkey Atila Erlap, Muharrem Tunay, Birol Yesilada, 1993-08-18
The decade of the 1980s marked a crucial turning point in Turkey's socioeconomic structure and polity. At the heart of the socioeconomic transformation lay the January 24 1980 economic austerity package and the September 12 1980 coup d'etat both of which altered not only the Turkish economy and societal structure but the political system and external relations as well. The meanings of right and left modernity and backwardness and of Turkishness were completely revised. This book shows the nature of this socioeconomic and political transformation and assesses the success and failure of relevant policies as the country prepares to enter the 21st century. Jacoby traces the contours of Turkey's modernisation with the intention of formulating a fresh way to approach state development in countries on the global economic periphery particularly those attempting to effect closer ties with northern markets. It also highlights matters of social change pertinent to states grappling with issues relating to political Islam minority identity and irredentist dissent. **Turkey's Relations with the West and the Turkic Republics** Idris Bal, 2017-11-22 This title was first published in 2000. An analysis of the relations between Turkey the West and the newly independent Turkic Republics in the context of the Turkish Model proposed and supported by the West as a possible model for development in the Turkic Republics. It summarizes the Turkish Model of development as applied in Turkey including its shortcomings and discusses the role of Turkey in the area after the collapse of the Soviet Union from the point of view of both the West and Turkey itself. It also analyzes the possible reasons why the Turkish Model was proposed and how the Turkic Republics received it and why it declined from favour in a short period of time. *Economic Development and Political Reform* Bradley Louis Glasser, 2001-01-01 Providing new theoretical perspectives on Third World political and economic reform this innovative volume will be of particular interest to political economists international governmental and developmental organizations international financial institutions and non governmental organizations in this region. **BOOK JACKET Economic**

Transitions to Neoliberalism in Middle-Income Countries Alfredo Saad-Filho, Galip L. Yalman, 2009-12-04 Neoliberalism is based on the systematic use of state power to impose under the veil of non intervention a hegemonic project of recomposition of capitalist rule in most areas of social life The tensions and displacements embedded within global neoliberalism are nowhere more evident than in the middle income countries At the domestic level the neoliberal transitions have transformed significantly the material basis of social reproduction in these countries These transformations include but they are not limited to shifts in economic and social policy They also encompass the structure of property the modality of insertion of the country into the international economy and the domestic forms of exploitation and social domination The political counterpart of these processes is the limitation of the domestic political sphere through the insulation of markets and investors from social accountability and the imposition of a stronger imperative of labour control allegedly in order to secure international competitiveness These economic and political shifts have reduced the scope for universal welfare provision and led to regressive distributive shifts and higher unemployment and job insecurity in most countries They have also created an income concentrating dynamics of accumulation that has proven immune to Keynesian and reformist interventions This book examines these challenges and dilemmas analytically and empirically in different national contexts This edited collection offers a theoretical critique of neoliberalism and a review of the contrasting experiences of eight middle income countries Brazil China India Mexico South Africa South Korea Turkey and Venezuela The studies included are interdisciplinary ranging across economics sociology anthropology international relations political science and related social sciences The book focuses on a materialist understanding of the workings of neoliberalism as a modality of social and economic reproduction and its everyday practices of dispossession and exploitation It will therefore be of particular interest to scholars in industrial policy neoliberalism and development strategy

The political economy of Turkey's integration into Europe Elif Uzgören, 2025-03-11 This book examines Turkey's integration with Europe within structural dynamics of globalisation from a critical political economy perspective Critical approaches have been sidelined within European Studies Turkish enlargement is not an exemption The analyses are based on original data generated by 109 interviews conducted in 2010 2017 and 2023 with five categories of actors representatives of capital and labour political parties state officials and struggles around ecology patriarchy and migration It argues that the pro membership was hegemonic in the 2000s which was contested by two rival class strategies Ha vet and neo mercantilism In the 2010s pro membership is no longer hegemonic within rising critical tone of social forces supporting rival class strategies Unevenness of Turkey's trajectory of integration to Europe is likely to be consolidated through market integration and management of migration through transactional approach

Turkish Foreign Policy Since 1774 William M. Hale, 2013 This revised and updated version of William Hale's *Turkish Foreign Policy 1774 2000* offers a comprehensive and analytical survey of Turkish foreign policy since the last quarter of the eighteenth century when the Turks relations with the rest of the world entered their most critical

phase In recent years Turkey's international role has changed and expanded dramatically and the new edition revisits the chapters and topics covered in light of these changes Drawing on newly available information and ideas the author carefully alters the earlier historical narrative while preserving the clarity and accessibility of the original Combining the long historical perspective with a detailed survey and analysis of the most recent developments this book fills a clear gap in the literature on Turkey's modern history For readers with a broader interest in international history it also offers a crucial example of how a medium sized power has acted in the international environment Performance Management Systems

Arup Varma, Pawan S. Budhwar, Angelo DeNisi, 2008-08-28 Performance management is the process by which organizations set goals determine standards assign and evaluate work and distribute rewards But when you operate across different countries and continents performance management strategies cannot be one dimensional HR managers need systems that can be applied to a range of cultural values This important and timely text offers a truly global perspective on performance management practices Split into two parts it illustrates the key themes of rater motivation rater ratee relationships and merit pay and outlines a model for a global appraisal process This model is then screened through a range of countries including Germany Japan USA Turkey China India and Mexico Using case studies and discussion questions and written by local experts this text outlines the tools needed to understand and measure performance in a range of socio economic and cultural contexts It is essential reading for students and practitioners alike working in human resources international business and international management

Turkish Foreign Policy in Post Cold War Era İdris Bal, 2004 With the end of Cold War discipline the world has entered a new era Parameters have changed new handicaps as well as new opportunities have been created for countries Turkey as a neighbor of former USSR a member of NATO and located at the center of a sensitive region covered by Caucasus Balkans and Middle East has been affected by the end of Cold War radically Turkey has lost some of her bargaining cards in the new era and therefore has needed new arguments This need encouraged Turkey to take active steps in Post Cold War era This book analyzes Turkey's relations with US EU Balkans Middle East Caucasus Central Asia Russia China and Japan At the same time effects of economic crises and domestic developments on foreign policy Turkish model in Turkish foreign policy water conflict and Kurdish problem are analyzed as well To conclude it is possible to argue that although Turkey lost some of her bargaining cards in Post Cold War era new developments pushed Turkey to the center of world politics rather than to periphery Contributors Meliha Benli Altunisik Deniz İke Aribogan H. Contemporary Turkish Politics Ergun Özbudun, 2000 Since 1945 Turkey has witnessed no fewer than three breakdowns of the democratic process 1960 1971 and 1980 and three retransitions to democracy 1961 1973 and 1983 In this text the author analyzes 50 years of Turkish politics and provides a theoretical and comparative perspective **State**

Violence and the Right to Peace Kathleen Malley-Morrison, 2009-10-22 A thought provoking revelation of the ways ordinary people conquerors and conquered imperialists and the colonized Christians Jews and Muslims think about war and peace Filled with personal reflections from every corner of the globe *State Violence and the Right to Peace* An International Survey of the Views of Ordinary People is a masterful portrayal of how people from diverse cultures religions and experiences think about war and peace Spanning four volumes *State Violence and the Right to Peace* brings together the views of shopkeepers day laborers clerical workers students teachers social workers veterans and others talking about governmental aggression torture and protesting acts of war These views from Europe North America South America the Middle East Africa and Asia are seen in the context of major historical battles including the empire building of Western European countries the emergence and contraction of the Soviet Union and the wars in the Middle East As this remarkable resource shows there are some surprising similarities in thinking about war and peace across nations and cultures and some equally surprising cases where opinions diverge

Religion, Secularism and Politics Jeffrey Haynes, Guy Ben-Porat, 2018-10-24 Political debates in many Mediterranean countries today are increasingly framed in dichotomous terms highlighting divisions between religious and secular worldviews The role of religion in public life or put another way the public return of religion is a pertinent and controversial political question everywhere in the Mediterranean region How do we explain this phenomenon On the one hand we can point to both economic and demographic changes while on the other we can trace the impact of continuing secularisation Together these two sets of developments produce new challenges to existing political arrangements This book examines the contemporary interaction of religion and politics in the Mediterranean region with a specific focus on democratization and democracy and the role in this context of selected religious actors Individual contributions focus on several European countries France Italy and Turkey while others are concerned with states in the Middle East and North Africa Egypt Israel Morocco and Tunisia Among European countries France is widely regarded as a highly secular country with over 50% of people regarding themselves as without religion Morocco on the other hand is a much more religious country measured by the fact that an estimated 94.5% of Moroccans self identify themselves as Muslims The specific country studies were selected because whether they are religious or not each case has current controversies involving both religious and secular actors which impact upon key political relationships centrally involving religion secularization and democratization democracy This book was published as a special issue of *Mediterranean Politics*

Daring and Caution in Turkish Strategic Culture M. Mufti, 2009-10-23 Mufti argues that Turkey's security policy is dominated by an insular and risk averse Republican strategic culture paradigm that this paradigm has fallen into crisis bringing some of its core elements in conflict with others and that this crisis has permitted the reassertion of a more cosmopolitan and risk taking Imperial counter paradigm

Middle East Lecturer in the Recent Economic History of the Middle East and Fellow Roger Owen, Roger Owen, 2002-04-12

Roger Owen has fully revised and updated his authoritative text to take into account the considerable developments in the Middle East in the 1990s **Dangerous Neighborhood** Michael Radu, 2018-02-06 Contemporary Turkish politics have long

been roiled by cultural and social debates rooted in the legacy of modernization initiated in the 1920s by Mustafa Kemal Atati 1 2rk Islamist challenges to Atatürk's secularism to political corruption and economic inefficiency and debates over the meaning of human rights all remain open to argument in Ankara as well as elsewhere Undoubtedly they exert influence on

Turkey's position in world affairs and reinforce its double identity between the West and the Islamic world Dangerous Neighborhood examines Turkish foreign policy problems both with its immediate neighbors in the Caucasus and Middle East and in its essential strategic relations with the European Union and the United States How important is Washington for Turkey's strategic interests considering its controversial relations with the European Union The Kurdish problem has affected Turkey's bid for EU membership and also its relations with the United States as the war on terrorism is pursued Are Turkish values and national interests based on the legacy of Atati 1 2rk compatible with minority rights as defined by the European Union and if not why not Moreover is there any advantage to Turkey in joining the European Union or is the price too high relating to human rights concessions and legal issues These important questions are examined in this volume In the Caucasus Turkey is an important factor if for no other reason than its size and common borders Turkey's role whether Ankara likes it or not remains important for both Russian ambitions and local ethnic groups seeking either autonomy or independence Chechens Abkhaz Circassians among others Ankara's dilemma is whether to support co nationals and co religionists or to seek normal relations with Moscow The solution to this dilemma is debated in this volume In other parts of the world Turkey also plays a central role For example Ankara's close military and political relations with Israel contribute to a different strategic and military balance in the Middle East Turkey's views are seldom made public and few Turks have believed it is important to present their case This book with contributors from Turkey as well as the West is intended in part to broaden understanding of Turkey's position Dangerous Neighborhood will be of interest to political scientists foreign policy analysts and Middle East specialists *Turkish Politics and the Rise of the AKP* Arda Can Kumbaracibasi, 2009-09-10

The Justice and Development Party AKP has been in power since 2002 This book charts the rise and development of the most successful party with an Islamic background in the history of the Turkish Republic party from its roots through to government analysing in particular its internal organisation and dynamics Institutional Origins of Islamist Political
