Prevention Of Crime Social And Situational Strategies:

The Prevention of Crime Dennis P. Rosenbaum, Arthur J. Lurigio, Robert Carl Davis, 1998 This groundbreaking book presents a definitive look at the history of crime prevention strategies and policies in the United States It analyzes the failures of American crime prevention techniques and possible solutions our country might seek to reduce crime drugs and disorder in the future It looks at both sides of the crime prevention issue the failure of the current criminal justice system and the possibilities and advantages of citizen participation in crime prevention programs and strategies It also addresses such key issues and dilemmas as our perception of crime through the media and school crime

Rebuilding Crime Prevention Through Environmental Design Rachel Armitage, Paul Ekblom, 2019-02-11 Crime Prevention Through Environmental Design CPTED is a practice oriented approach to reduce the risk of offences such as burglary and fear of crime by modifying the built environment In recent years this approach has been criticised for duplicating terminology and for failing to integrate successfully with other approaches Rebuilding Crime Prevention Through Environmental Design explores and extends the common ground between CPTED and situational crime prevention another traditional approach in the field of crime prevention and security via the latter s evolution into the field of crime science Drawing on international research to develop new interdisciplinary perspectives this volume explores how situational crime prevention and environmental criminological theories relate to those of Crime Prevention Through Environmental Design and considers how crime science can be reformulated to merge different approaches or at least articulate them better Rebuilding Crime Prevention Through Environmental Design will appeal to students applied academic researchers and practitioners who wish to deepen their understanding and contribute in turn to the ongoing revitalisation of the field

Imagining Security Jennifer Wood, Clifford Shearing, 2013-01-11 This book is concerned with the ways in which the problem of security is thought about and promoted by a range of actors and agencies in the public private and nongovernmental sectors The authors are concerned not simply with the influence of risk based thinking in the area of security but seek rather to map the mentalities and practices of security found in a variety of sectors and to understand the ways in which thinking from these sectors influence one another Their particular concern is to understand the drivers of innovation in the governance of security the conditions that make innovation possible and the ways in which innovation is imagined and realised by actors from a wide range of sectors The

book has two key themes first governance is now no longer simply shaped by thinking within the state sphere for thinking originating within the business and community spheres now also shapes governance and influence one another Secondly these developments have implications for the future of democratic values as assumptions about the traditional role of government are increasingly challenged The first five chapters of the book explore what has happened to the governance of security through an analysis of the drivers conditions and processes of innovation in the context of particular empirical developments Particular reference is made here to waves of change in security within the Ontario Provincial Police in Canada In the final chapter the authors examine the implications of nodal governance for democratic values and then suggest normative directions for deepening democracy in these new circumstances Criminology John Muncie,2006

Social Capital and Poor Communities Susan Saegert, J. Phillip

Thompson, Mark R. Warren, 2002-01-10 Neighborhood support groups have always played a key role in helping the poor survive but combating poverty requires more than simply meeting the needs of day to day subsistence Social Capital and Poor Communities shows the significant achievements that can be made through collective strategies which empower the poor to become active partners in revitalizing their neighborhoods Trust and cooperation among residents and local organizations such as churches small businesses and unions form the basis of social capital which provides access to resources that would otherwise be out of reach to poor families Social Capital and Poor Communities examines civic initiatives that have built affordable housing fostered small businesses promoted neighborhood safety and increased political participation At the core of each initiative lie local institutions church congregations parent teacher groups tenant associations and community improvement alliances The contributors explore how such groups build networks of leaders and followers and how the social power they cultivate can be successfully transferred from smaller goals to broader political advocacy For example community based groups often become platforms for leaders hoping to run for local office Church based groups and interfaith organizations can lobby for affordable housing job training programs and school improvement Social Capital and Poor Communities convincingly demonstrates why building social capital is so important in enabling the poor to seek greater access to financial resources and public services As the contributors make clear this task is neither automatic nor easy The book's frank discussions of both successes and failures illustrate the pitfalls conflicts of interest resistance from power elites and racial exclusion that can threaten even the most promising initiatives The impressive evidence in this volume offers valuable insights into how goal formation leadership and cooperation can be effectively cultivated resulting in a remarkable force for change and a rich public life even for those communities mired in seemingly hopeless poverty A Volume in the Ford Foundation Series on Asset Building
