LaGuardia,2016-05-06 Intertextual Masculinity in French Renaissance Literature is an in depth analysis of normative masculinity in a specific corpus from pre modern Europe narrative literature devoted to the subject of adultery and cuckoldry The text begins with a set of general questions that serve as a conceptual framework for the literary analyses that follow why were early modern readers so fascinated by the figure of the cuckold What was his relation to the real world of sexual behavior and gender relations What effect did he have on the construction of actual masculinities To respond to these questions David LaGuardia develops a theoretical approach that is based both on modern critical theory and on close readings of records and documents from the period Reading early modern legal texts penance manuals criminal registers and exempla collections in relation to the Cent nouvelles nouvelles Rabelais s Tiers Livre and Brant me s Dames galantes LaGuardia formulates a definition of masculinity in this historical context as a set of intertextual practices that men used to relay and to reinforce their gender identities By examining legal and literary artifacts from this particular period and culture this study highlights the extent to which this supposedly normative masculinity was historically contingent and materially conditioned by generic practices **Villainy in France (1463-1610)** Jonathan Patterson,2021-04-15 Obscene poetry servants slanders against their masters the diabolical acts of those who committed massacre and regicide This is a book about the harmful outward manifestation of inner malice villainy in French culture 1463 1610 In pre modern France villainous offences were countered if never fully contained by intersecting legal and literary responses Combining the methods of legal anthropology with literary and historical analysis this study examines villainy across juridical documents criminal records and literary texts Whilst few people obtained justice through the law many pursued out of court settlements of one kind or another Literary texts commemorated villainies both fictitious and historical literature sometimes instantiated the process of redress and enabled the transmission of conflicts from one context to another Villainy in France follows this overflowing current of pre modern French culture examining its impact within France and across the English Channel Scholars and cultural critics of the Anglophone world have long been fascinated by villainy and villains This book reveals the

subject's significant Frenchness and establishes a transcultural approach to it in law and literature. In this study, villainy's particular significance emerges through its representation in authors remembered for their less than respectable even criminal activities: François Villon, Clément Marot, François Rabelais, Pierre de L'Estoile, Christopher Marlowe, Ben Jonson, John Marston, and George Chapman. Villainy in France affords legal literary comparison of these authors alongside many of their lesser-known contemporaries, in so doing it reinterprets French conflicts within a wider European context from the mid-fifteenth century to the early seventeenth century.

Homer and the Question of Strife from Erasmus to Hobbes

Jessica Wolfe, 2015-01-01. From antiquity through the Renaissance, Homer's epic poems, the *Iliad*, the *Odyssey*, and the various mock epics incorrectly ascribed to him, served as a lens through which readers, translators, and writers interpreted contemporary conflicts. They looked to Homer for wisdom about the danger and the value of strife, embracing his works as a mythographic shorthand with which to describe and interpret the era's intellectual, political, and theological struggles. *Homer and the Question of Strife from Erasmus to Hobbes* elegantly exposes the ways in which writers and thinkers as varied as Erasmus, Rabelais, Spenser, Milton, and Hobbes presented Homer as a great champion of conflict or its most eloquent critic. Jessica Wolfe weaves together an exceptional range of sources, including manuscript commentaries, early modern marginalia, philosophical and political treatises, and the visual arts. Wolfe's transnational and multilingual study is a landmark work in the study of classical reception that has a great deal to offer to anyone examining the literary, political, and intellectual life of early modern Europe.

The Complete Works of François Rabelais François Rabelais, 1991. Presents the complete works of French writer François Rabelais. *Dispositio* Paul J. Smith, 2007. Drawing on the classical concept of rhetorical *dispositio*, this study gives new interpretations of a number of literary texts of the French Renaissance: Rabelais, Du Bellay, Montaigne, and others. The often problematic ordering of these texts is studied from a variety of perspectives: historical, theoretical, and cultural.

Laughter in the Middle Ages and Early Modern Times Albrecht Classen, 2010-09-22. Despite popular opinions of the dark Middle Ages and a gloomy early modern age, many people laughed, smiled, giggled, chuckled, entertained, and ridiculed each other. This volume demonstrates how important laughter had been at times and how diverse the situations proved to be in which people laughed, and this from late antiquity to the eighteenth century. The contributions examine a wide gamut of significant cases of laughter in literary texts, historical documents, and art works where laughter determined the relationship among people. In fact, laughter emerges as a kaleidoscopic phenomenon reflecting divine joy, bitter hatred, and contempt, satirical perspectives, and parodic intentions. In some examples, protagonists laughed out of sheer happiness and delight; in others, because they felt anxiety and insecurity. It is much more difficult to detect premodern sculptures of laughing figures, but they also existed. Laughter reflected a variety of concerns, interests, and intentions, and the collective approach in this volume to laughter in the past opens many new windows to the history of mentality, social and religious conditions, gender relationships, and power structures.

The Shaping of Text John Porter Houston,1993 The Shaping of Text pays homage to the work of the late John Porter Houston who wrote extensively on style rhetoric and narrative and poetic techniques in Western European literature It is appropriate that the essays in this volume focus on the form of the literary work and the ways in which form determines meaning William Calin s essay on the saint s life analyzes the use of antithesis as a poetic and structural device that illustrates the saint s fundamental understanding of the relationship between the ephemeral reality of his physical existence and the absolute timeless reality to which he aspires Raymond LaCharite s study of Rabelais focuses on the author s self conscious awareness of this relationship and of Renaissance preoccupation with reading as both an act of creation and interpretation George Joseph s study of three Renaissance poets focuses on the use of paradox as both a figure of speech and as a genre that serves both as a structure and as a basis for the interaction in the poetry David Rubin s essay on La Fontaine emphasizes the ways in which the register of style in the Fables is used to set the tone and control the meaning of the language In the chapters devoted to nineteenth and twentieth century literature one can see the continuing closer relationship between the book as a work of art and the reality in which it interacts Suzanne Nash analyzes the strategy Mme de Stael uses in writing *De l Allemagne* a book written less to present an accurate portrayal of Germany than to promote her own republican ideals for France Ross Chambers s essay probes the question of the theme of melancholy in Romantic writing and its relationship to the social and political structures of the period Edward Kaplan shows how a growing ethical social concern can be seen in Baudelaire s revised *Les Fleurs du Mal* Rima Reck and Edward Kaplan reflect the growing use of literature as a vehicle for influencing public opinion Stirling Haig analyzes Flaubert s careful use of style and his awareness that reality is ultimately shaped by the beholder s perspective Finnally Virginia La Charite s chapter on Proust returns to the idea of a structure within a structure in this case the architecture of the cathedral as a metaphor of synthesis an aesthetic device that gives an intelligible structure to Proust s enormous but intricately complex mass of details If John Porter Houston focused on form and style it is because he understood the semiotic nature of all things that a writer s style is a subtle form of refined communication or as Houston wrote style is an absolute manner of seeing things for Proust a question of vision and so constitutes the ultimate reality of literature

François Rabelais and the Renaissance Physiology of Invention Raphaële

Garrod,2024-12-18 *François Rabelais and the Renaissance Physiology of Invention* Ingenious Animation explores the medical poetics of inventive embodied thinking or ingenuity instantiated in Rabelais Gargantua and mostly in his Quart livre It unsettles established dichotomies in Rabelaisian scholarship between Rabelais s lowly laughter and his high erudite message and reassesses the Rabelaisian grotesque by highlighting its debts to grotesque ornament this marginal yet omnipresent Renaissance visual art Bodily functions are a trademark of Rabelais s poetics Scholarship has read them as signs of carnivalesque inversion in line with the Bakhtinian grotesque or of satirical degradation in both instances the lowly is opposed to the high the belly to the head Yet for a physician like Rabelais the head or the brain as the site of cognition is not opposed to what is below it the chest as the site of breathing the belly and its nether regions as sites of nutrition and generation In Renaissance medicine these are integrated physiological systems whose products fuel each other s operations including cognition Read through this lens and alongside his diagnosis of the healthy or diseased culture of his time rotting scholasticism the humanist digestion of the classical heritage or the schismatic convulsions shaking Christianity Rabelais s fictions testify to his reflexive investigation into how culture results from physiological processes fuelling the inventive ability

of the human animal made manifest in pedagogical artistic mechanical and spiritual inventions They display the life rather than the truth of culture stemming from human ingenia that is wits conditioned by biological natures While these might be idiosyncratic their animation is fuelled and shaped by the food one eats the air one breathes the places one inhabits the company one keeps In this respect Rabelaisian fiction is grotesque in a period sense With its emphasis on hybrid forms capturing the metamorphic powers of animation grotesque ornament reflexively commented on the embodied inventive processes underpinning Renaissance mimesis Rabelais's fictions display a similar logic they foreground the inventive powers of ingenious animation and articulate reflexive often ironic alternatives to the humanist views they alter a thoroughly embodied anthropology a naturalist genealogy of cultural production and transmission a phantastical account of artistic invention as uncanny liveliness

Pilgrimage and Narrative in the French Renaissance Wes Williams, 1998-11-26 This is the first full length study of the place and meaning of pilgrimage in European Renaissance culture It makes new material available and also provides fresh perspectives on canonical writers such as Rabelais Montaigne Marguerite de Navarre Erasmus Petrarch Augustine and Gregory of Nyssa Wes Williams undertakes a bold exploration of various interlinking themes in Renaissance pilgrimage the location representation and politics of the sacred together with the experience of the everyday the extraordinary the religious and the represented Williams also examines the literary formation of the subjective narrative voice in his texts and its relationship to the rituals and practices he reviews This wide ranging and timely new work aims both to gain a sense of the shapes of pilgrim experience in the Renaissance and to question the ways in which recent theoretical and historical research in the area has determined the differences between fictional worlds and the real
