What Is Race? Joshua Glasgow, Sally Haslanger, Chike Jeffers, Quayshawn Spencer, 2019-05-15 Across public discourse in the media politics many branches of academic inquiry and ordinary daily interactions we spend a lot time talking about race race relations racial violence discrimination based on race racial integration racial progress It is fair to say that questions about race have vexed our social life But for all we speak about race do we know what race is Is it a social construct or a biological object Is it a bankrupt holdover from a time before sophisticated scientific understanding and genetics or can it still hold up in biological genetic and other types of research Most fundamentally is race real In this book four prominent philosophers and race theorists debate how best to answer these difficult questions applying philosophical tools and the principles of social justice to cutting edge findings from the biological and social sciences Each presents a distinct view of race Sally Haslanger argues that race is a socio political reality Chike Jeffers maintains that race is not only political but also importantly cultural Quayshawn Spencer pursues the idea that race is biologically real And Joshua Glasgow argues that either race is not real or if it is it must be real in a way that is neither social nor biological Each offers an argument for their own view and then replies to the others Woven together the result is a lively debate that opens up numerous ways of understanding race Above all it is call for sophisticated and principled discussion of something that significantly permeates our lives

What Is Your Race? Kenneth Prewitt, 2016-08-02 A historical overview of the census race question and a bold proposal for eliminating it America is preoccupied with race statistics perhaps more than any other nation Do these statistics illuminate social reality and produce coherent social policy or cloud that reality and confuse social policy Does America still have a color line Who is on which side Does it have a different race line the nativity line separating the native born from the foreign born You might expect to answer these and similar questions with the government s statistical races Not likely observes Kenneth Prewitt who shows why the way we count by race is flawed Prewitt calls for radical change The nation needs to move beyond a race classification whose origins are in discredited eighteenth century race is biology science a classification that once defined Japanese and Chinese as separate races but now combines them as a statistical Asian race One that once tried to divide the white race into good whites and bad whites and that today cannot distinguish descendants of Africans brought in chains four hundred years ago from children of Ethiopian parents who eagerly immigrated twenty years ago Contrary to common sense the classification says there are only two

ethnicities in America Hispanics and non Hispanics But if the old classification is cast aside is there something better What Is Your Race clearly lays out the steps that can take the nation from where it is to where it needs to be It s not an overnight task particularly the explosive step of dropping today s race question from the census but Prewitt argues persuasively that radical change is technically and politically achievable and morally necessary **‘Race Is Everything’** David Bindman,2023-07-17

A timely and revealing look at the intertwined histories of science art and racism Race Is Everything explores the spurious but influential ideas of so called racial science in the nineteenth and the first half of the twentieth centuries and how art was affected by it David Bindman looks at race in general but with particular concentration on attitudes toward and representations of people of African and Jewish descent He argues that behind all racial ideas of the period lies the belief that outward appearance and especially skull shape as studied in the pseudoscience of phrenology can be correlated with inner character and intelligence and that these could be used to create a seemingly scientific hierarchy of races The book considers many aspects of these beliefs including the skull as a racial marker ancient Egypt as a precedent for Southern slavery Darwin race and aesthetics the purported Mediterranean race the visual aspects of eugenics and the racial politics of Emil Nolde *How Race Is Made* Mark M. Smith,2006-12-08

For at least two centuries argues Mark Smith white southerners used all of their senses not just their eyes to construct racial difference and define race His provocative analysis extending from the colonial period to the mid twentieth century shows how whites of all classes used the artificial binary of black and white to justify slavery and erect the political legal and social structure of segregation Based on painstaking research *How Race Is Made* is a highly original always frank and often disturbing book After enslaved Africans were initially brought to America the offspring of black and white sexual relationships consensual and forced complicated the purely visual sense of racial typing As mixed race people became more and more common and as antebellum race based slavery and then postbellum racial segregation became central to southern society white southerners asserted that they could rely on their other senses touch smell sound and taste to identify who was white and who was not Sensory racial stereotypes were invented and irrational but at every turn Smith shows these constructions of race immune to logic signified difference and perpetuated inequality Smith argues that the history of southern race relations and the construction of racial difference on which that history is built cannot be understood fully on the basis of sight alone In order to come to terms with the South s past and present Smith says we must explore the sensory dynamics underpinning the deeply emotional construction of race *How Race Is Made* takes a bold step toward that understanding **Race Is about Politics** Jean-Frédéric Schaub,2019-12-31

How the history of racism without visible differences between people challenges our understanding of the history of racial thinking Racial divisions have returned to the forefront of politics in the United States and European societies making it more important than ever to understand race and racism But do we In this original and provocative book acclaimed historian Jean Fr d ric Schaub shows that we don t and that we need to rethink the widespread assumption that

racism is essentially a modern form of discrimination based on skin color and other visible differences. On the contrary, Schaub argues that to understand racism we must look at historical episodes of collective discrimination where there was no visible difference between people. Built around notions of identity and otherness, race is above all a political tool that must be understood in the context of its historical origins. Although scholars agree that races don't exist except as ideological constructions, they disagree about when these ideologies emerged. Drawing on historical research from the early modern period to today, Schaub makes the case that the key turning point in the political history of race in the West occurred not with the Atlantic slave trade and American slavery as many historians have argued, but much earlier in fifteenth-century Spain and Portugal with the racialization of Christians of Jewish and Muslim origin. These Christians were discriminated against under the new idea that they had negative social and moral traits that were passed from generation to generation through blood, semen, or milk, an idea whose legacy has persisted through the age of empires to today. Challenging widespread definitions of race and offering a new chronology of racial thinking, Schaub shows why race must always be understood in the context of its political history.

Global Issues and Innovative Solutions in Healthcare, Culture, and the Environment Merviö, Mika, 2020-06-12. Despite the development of environmental initiatives, healthcare and cultural assimilation in today's global market, significant problems in these areas remain throughout various regions of the world. As countries continue to transition into the modern age, areas across Asia and Africa have begun implementing modern solutions in order to benefit their individual societies and keep pace with the surrounding world. Significant research is needed in order to understand current issues that persist across the globe and what is being done to solve them. *Global Issues and Innovative Solutions in Healthcare, Culture, and the Environment* is an essential reference source that discusses worldwide conflicts within healthcare and environmental development as well as modern resolutions that are being implemented. Featuring research on topics such as health insurance reform, sanitation development, and cultural freedom, this book is ideally designed for researchers, policymakers, physicians, government officials, sociologists, environmentalists, anthropologists, academicians, practitioners, and students seeking coverage on global societal challenges in the modern age.

How Real Is Race? Carol C. Mukhopadhyay, Rosemary Henze, Yolanda T. Moses, 2025-02-26 Biologically speaking there is no such thing as race Yet this seems to contradict the experiences of people in the United States and other countries where racial classification is used daily by individuals and institutions Race still matters whether in wealth accumulation educational achievement health the legal system or in personal safety How can race not be real when we experience its effects every day Mukhopadhyay Henze and Moses systematically deconstruct the myth of race as biology and address the reality of race as a cultural invention drawing on biocultural historical and cross cultural anthropological perspectives In doing so they shed light on the intricate interplay among race biology culture power and stratification Part I The Fallacy of Race as Biology unravels the myth that races are biologically valid divisions of humanity Part II Culture Creates Race explores race as a social construction the emergence of the racial worldview as ideological justification for inequality and how social processes especially restrictions on interracial sex and marriage maintained visible markers of racial hierarchy Part III Contemporary Issues examines current manifestations of racial stratification including the educational achievement gap health disparities and how the language of race embodies and reinforces a racial worldview New to this Edition New Chapter 11 Unpacking the Health Consequences of Racial Stratification explores the continuing impacts of the racial worldview on race related health disparities using the COVID 19 pandemic maternal health and weathering and exposure to environmental toxins as case studies New Chapter 12 Dismantling the Racial World View explores racial ideology including language and offers alternative approaches to racial language dilemmas Updated and expanded discussion of human evolution includes contemporary critiques and alternative scenarios of long standing models of human evolution and emphasizes our collective African roots Updated and expanded coverage of genomics DNA epigenetic processes and the enormous human variability at the molecular level all challenging nature versus nurture models of how we become who we are New data on immigrants languages religions socio economic and regional racial ethnic patterns interracial marriage and other trends explores contemporary diversity in the United States and suggests traditional racial ideology and categories are becoming obsolete

Why Fascism Is on the Rise in France Ugo Palheta, 2025-08-26 Recent polls have indicated for the first time that a far right candidate could win the French presidential election in 2027 Reactionary and racist ideologues increasingly sully the French media Assaults by fascist groups are on the rise as they grow in size and confidence How did this happen in a country once so proud of its revolutionary past Writer and academic Ugo Palheta shows that the fascist threat is rooted in the triple radicalization neoliberal authoritarian and racist of the French ruling class Unable to win majority support for the self interested policies represented by Emmanuel Macron this class has sought support by adopting more radical right wing positions Palheta argues for a renaissance of anti

fascism to inspire resistance to the far right and the triple threat encouraging its rise Why Fascism Is on the Rise in France has repositioned the question of fascism to place it at the centre of intellectual debate in France

Quality of Death Rates by Race and Hispanic-origin Harry Michael Rosenberg,1999 This report summarizes current knowledge and research on the quality and reliability of death rates by race and Hispanic origin in official mortality statistics of the United States produced by the National Center for Health Statistics NCHS It provides a quantitative assessment of bias in death rates by race and Hispanic origin and identifies areas for targeted research Death rates are based on information on deaths from death certificates filed in the states and compiled into a national database by NCHS and on population data from the Census Bureau Researchers summarized selected studies of race Hispanic origin misclassification and undercoverage on deaths and population They made estimates on the separate and joint bias on death rates by race and Hispanic origin from the two sources They made simplifying assumptions about the stability of the biases over time and among age groups Original results are presented using an expanded updated database from the National Longitudinal Mortality Study Death rates for all groups show net effects of race misclassification and undercoverage For whites and blacks published death rates are overstated in official publications by 10 percent and 50 percent respectively resulting mainly from undercounts in the census Death rates for other minority groups are understated as follows American Indians 21 percent Asian or Pacific Islanders 11 percent and Hispanics 2 percent SM

Race and the Politics of the Exception Utz McKnight,2013-07-04 The traditional assumption today about race is that it is not political that it has no political content and is a matter of individual beliefs and attitudes In Race and the Politics of the Exception Utz McKnight argues that race is in fact political and defines how it functions as a politics in the United States McKnight organizes his book into three sections beginning with a theoretical section about racial politics in the United States Using theorists such as Benjamin Agamben and Schmitt McKnight discusses how the idea of racial communities went from being constituted through the idea of racial sovereignty and a politics of the exception that defined blacks as the internal enemy to being constitutionally defined through the institutions of racial equal opportunity In the second section McKnight further develops his critical race theory by exploring in more detail the social use of race today The election of President Obama has brought the politics of racial equality to a critical point In spite of a very powerful set of political tools to define it as a thing of the past race matters In the final section McKnight engages with important African American fiction from each of the three major periods of racial politics in the US Earlier descriptions of political theory are used throughout these analyses to refine the argument for a new critical politics of race Scholars of political theory identity politics African American studies and American Studies will find this work ground breaking and relevant

Elvstrøm Explains the Racing Rules Paul Elvstrom,Soren Krause,2020-09-10 This book is a must have for any serious racing sailor Sir Ben Ainslie four time Olympic gold winning sailor Paul Elvstrom is arguably the greatest Olympic sailor of all time Proving that understanding the rules is crucial to winning he devised this unique approach

to explaining them using bird's eye diagrams. His detailed explanations are applied to myriad racing situations each cross referenced to relevant case studies provided by World Sailing formerly ISAF. Included with the book are a set of plastic boats for use during protest hearings. They are transparent but coloured differently so can also be used with an overhead projector. This edition is completely revised to cover the new rules issued for 2021-24. It includes the full text of the latest rules with a handy quick reference guide highlighting the latest changes. There is also a confidence building section on how to present your case in a protest and the back cover shows the signal flags for instant easy reference on the race course. Long established as the most accessible and most trusted guide to the racing rules, Paul Elvstrom's *Explains* is a must have. Whether racing in a dinghy, keelboat or large yacht, it is the perfect pocket reference for those who want to win. **Critical Race**

Theory Kimberlé Crenshaw, Neil Gotanda, Gary Peller, Kendall Thomas, 1995. In the past few years a new generation of progressive intellectuals has dramatically transformed how law, race and racial power are understood and discussed in America. Questioning the old assumptions of both liberals and conservatives with respect to the goals and the means of traditional civil rights reform, critical race theorists have presented new paradigms for understanding racial injustice and new ways of seeing the links between race, gender, sexual orientation and class. This reader, edited by the principal founders and leading theoreticians of the critical race theory movement, gathers together for the first time the movement's most important essays. Back cover.

Sociological Imaginations from the Classroom Plus A Symposium on the Sociology of Science Perspectives on the Malfunctions of Science and Peer Reviewing Mohammad H. Tamdgidi, Anna D.

Beckwith, 2008-03-01. This Spring 2008 VI 2 issue of *Human Architecture: Journal of the Sociology of Self-Knowledge* includes two symposium papers by Klaus Fischer and Lutz Bornmann who shed significant light on why the taken-for-granted structures of science and peer reviewing have been and need to be problematized in favor of more liberatory scientific and peer reviewing practices more conducive to advancing the sociological imagination. The student papers included by Jacquelyn Knoblock, Henry Mubiru, David Couras, Dima Khurin, Kathleen O'Brien, Nicole Jones, Nicole (pen name Eric Reed), Joel Bartlett, Stacey Melchin, Laura Zuzevich, Michelle Tanney, Lora Aurise and Brian Ahl make serious efforts at developing their theoretically informed sociological imagination of gender, race, ethnicity, learning, adolescence and work. The volume also includes papers by faculty Satoshi Ikeda, Karen Gagne, Leila Farsakh who self-reflectively explore their own life and pedagogical strategies for the cultivation of sociological imaginations regardless of the disciplinary field in which they do research and teach. Two joint student-faculty papers and essays by Khau Pithouse and Mason Powers Schaefer also imaginatively and innovatively explore their own or what seem at first to be strangers' lives in order to develop a more empathetic and pedagogically healing sociological imagination for their authors and subjects. The journal editor Mohammad H. Tamdgidi's call in his note for sociological re-imaginings of science and peer reviewing draws on the relevance of both the symposium and other student and faculty papers in the volume to one another in terms of fostering in theory and practice.
