The Prayers and Tears of Jacques Derrida John D. Caputo,1997-09-22 Caputo s book is riveting A singular achievement of stylistic brio and impeccable scholarship it breaks new ground in making a powerful case for treating Derrida as homo religiosus There can be no mistaking the importance of Caputo s work Edith Wyschogrod No one interested in Derrida in Caputo or in the larger question of postmodernism and religion can afford to ignore this pathbreaking study Taking full advantage of the most recent and least discussed writings of Derrida it offers a careful and comprehensive account of the religious dimension of Derrida s thought Merold Westphal [Video Game Chronotopes and Social Justice](#) Mike Piero,2022-01-25 Video Game Chronotopes and Social Justice examines how the chronotope which literally means timespace is an effective interpretive lens through which to understand the cultural and ideological significance of video games Using slow readings attuned to deconstruction along the lines of post structuralist theory gender studies queer studies continental philosophy and critical theory Mike Piero exposes the often overlooked misogyny heteronormativity racism and patriarchal structures present in many Triple A video games through their arrangement of timespace itself Beyond understanding time and space as separate mechanics and dimensions Piero reunites time and space through the analysis of six chronotopes of the bonfire the abject the archipelago the fart as pharmakon madness and coupled love toward a poetic meaning making that is at the heart of play itself all in affirmation of life equity and justice

Literature Suspends Death Chris Danta,2011-09-29 This is the first book length study of how three important European thinkers Kierkegaard Kafka and Blanchot use the Binding of Isaac to illuminate the sacrificial situation of the literary writer Danta shows that literature plays a vital and heretical role in these three writers highly idiosyncratic accounts of the Akedah His claim is twofold firstly that all three authors choose to respond to the Genesis narrative by manifesting literature and secondly that each heretically endows literature or fiction with the power to suspend the sacrifice Abraham s near sacrifice of Isaac is traditionally read as the story of faith in action But what does it mean to play the game of not quite belief with the story of religious faith By examining the literary and heretical treatments of Isaac s sacrifice in the work of Kierkegaard Kafka and Blanchot this book develops an original account of literature as a form of sacrificial thinking For each writing acts like God s sacrificial demand of Abraham to suspend the writer s usual relation to his daily and earthly

Contributors Midrash Tanhuma: Genesis, 1989 Tanhuma is one of the jewels of midrash literature As one of the Yelammedenu midrashim it is less diffuse than *Genesis Rabbah* and its units are shorter than those of the *Pesikta* It thus strikes a balance between the jumble of the one and the long sermons of the other Just over a century ago Solomon Buber published a new version of the *Tanhuma* based on an Oxford manuscript which is substantially different from the more common printed versions It is this version or one very close to it which Rashi had before him and whose interpretations he often commends and recommends Despite its importance and appeal no version of *Midrash Tanhuma* has ever been translated into English This volume is the first in a series which will bring the riches of the Buber edition to the English reader **Autopsia** Marius Timmann Mjaaland, 2008-08-27 There are certain things that can be explained and certain things that cannot be explained This book is about the latter It is a book about death how death interrupts and influences the reflection on the self It is a book about God a detailed and critical discussion on how Kierkegaard and Derrida apply the

concept of God in their philosophical reflections The most ground breaking analysis concerns the famous passage on the self A A in The Sickness unto Death where the author combines logical rhetorical and dialectical means to establish a new perspective on Kierkegaard s thinking in general The Cartesian doubt then constitutes a common trait for his detailed and rigorous analysis of Derrida and Kierkegaard on death madness faith and rationality showing how they both seek to break up the Hegelian Aufhebung from within but still remain dependent on Hegel After Kierkegaard and Derrida the certainty and total uncertainty of death and of God as infinite other gives the self a basic though non foundational responsibility The significance of this responsibility of this other of this death requires sustained and thorough consideration Where others mark a conclusion this book therefore marks a point of departure reflecting on oneself at the graveside of a dead man thus introducing an Autopsia **The Advance** ,1911
