Transcultural History Madeleine Herren, Martin Rüesch, Christiane Sibille, 2012-06-19 For the 21st century the often quoted citation past is prologue reads the other way around The global present lacks a historical narrative for the global past Focussing on a transcultural history this book questions the territoriality of historical concepts and offers a narrative which aims to overcome cultural essentialism by focussing on crossing borders of all kinds Transcultural History reflects critically on the way history is constructed asking who formed history in the past and who succeeded in shaping what we call the master narrative Although trained European historians the authors aim to present a useful approach to global history showing first of all how a Eurocentric but universal historiography removed or essentialised certain topics in Asian history As an empirical discipline history is based on source material analysed according to rules resulting from a strong methodological background This book accesses the global past after World War I looking at the well known stage of the Paris Peace Conferences observing the multiplication of new borders and the variety of transgressing institutions concepts actors men and women inventing themselves as global subjects but sharing a bitter experience with almost all local societies at this time namely the awareness of having relatives buried in far distant places due to globalised wars **International Who's**

Anglo-American Crossroads Mark Clapson,2012-12-20 The postwar British city has been shaped by many international forces during the last century but American influences on British urban research and urban planning have been particularly significant Beginning with debates about reconstruction during the Second World War Anglo American Crossroads explores how Americanisation influenced key approaches to town planning from reconstruction after 1945 to the New Urbanism of the 1990s Clapson pays particular attention to the relationship between urban sociological research and planning issues since the 1950s He also addresses the ways in which American developers and planners of new communities looked to the British new towns and garden city movement for inspiration Using a wide range of sources from American Foundation Archives to town planning materials and urban sociologies Anglo American Crossroads shows that although some things went wrong in translation from the USA to Britain there were also some important successes within a transatlantic dialogue that was more nuanced than a one dimensional process of American hegemony
