Perez,2012-02-01 Rene Perez has the ability to stop time In fact time stops as soon as you start reading one of his short stories You find yourself transported into the minds and lives of people you thought you didn't know Suddenly they are your best friends They live in Texas Most of them are Hispanic But their problems are universal Like Alfredo driving home from Dallas to Greenton with the body of his friend Frankie Ochoa in the back of his hearse and his son Ramon ready to drive if Alfredo's eyesight fails again Or Joey just back from basic training and ready to ship out with his Marine platoon He's having beers with his best friend J R at Flojo's a bar outside of Greenton run by Liz and Vicente the toughest couple in town Or Benny who drops into Flojo's for the first time in years and finds his one time friend Gumby drinking himself into oblivion Turns out Gumby's luck is even worse than Benny's Or Virginia the schoolteacher who's trying to become better educated in the hope that her son who went to Stanford will come back home to Corpus Christi Or Eric who spent all his money on two flashy wheels for his car and put them both on the passenger side so that they'll impress everyone on the sidewalk as he passes Or Andy who breaks into a home he's always wanted to see from the inside You'll want to know them all And you will count yourself fortunate to have met them *In Quest of Indian Folktales* Sadhana Naithani,2006-05-21 A rare piece of scholarly detective work Margaret Mills Ohio State University In Quest of Indian Folktales publishes for the first time a collection of northern Indian folktales from the late 19th century Reputedly the work of William Crooke a well known

folklorist and British colonial official the tales were actually collected selected and translated by a certain Pandit Ram Gharib Chaube In 1996 Sadhana Naithani discovered this unpublished collection in the archive of the Folklore Society London Since then she has uncovered the identity of the mysterious Chaube and the details of his collaboration with the famous folklorist In an extensive four chapter introduction Naithani describes Chaube s relationship to Crooke and the essential role he played in Crooke s work as both a native informant and a trained scholar By unearthing the fragmented story of Chaube s life Naithani gives voice to a new identity of an Indian folklore scholar in colonial India The publication of these tales and the discovery of Chaube s role in their collection reveal the complexity of the colonial intellectual world and problematize our own views of folklore in a postcolonial world **Water and the Search for Life on Mars** David M. Harland,2007-09-24

Mars has long been believed to have been cold dead and dry for aeons but there is now striking new proof that not only was Mars a relatively warm and wet place in geologically recent times but that even today there are vast reserves of water frozen beneath the planet s surface As well as casting fascinating new insights into Mars past this discovery is also forcing a complete rethink about the mechanisms of global planetary change and the possibility that there is microbial life on Mars David Harland considers the issue of life on Mars in parallel with the origin of life on Earth At the time the Viking instruments were designed it was thought that all terrestrial life ultimately derived its energy from sunlight and that the earliest form of life was the cyanobacteria with chlorophyll for photosynthesis It was assumed the same would be the case on Mars and that microbial life would be on or near the surface that the Vikings had sampled In parallel with these NASA projects the European Space Agency developed the Mars Express remote sensing orbiter which has detected traces of methane that may have been released by microbes If microbial life is found on Mars will it be based on DNA Will this indicate that life developed independently Or that it has characteristics in common with the most ancient forms of terrestrial life If life is found on two planets in the same planetary system this would favour the panspermia hypothesis And if martian life is radically different then in light of the discovery of planetary systems around other stars this would as remarked by Philip Morrison of MIT transform life from the status of a miracle to that of a statistic These are all questions that the exploration of Mars for life are aimed to answer *DK Eyewitness Back Roads Great Britain* DK Eyewitness,2019-01-22 Take to the open road with DK Eyewitness Back Roads Great Britain and discover 25 leisurely drives through the country s beautiful villages and stunning landscapes Explore the spectacular scenery of the Lake District follow a whiskey trail through the Highlands or discover picturesque coastal villages in Cornwall Packed with insider tips and information this easy to use e guide reveals incredible sights hidden gems and authentic local experiences that can be discovered only by road Inside DK Eyewitness Back Roads Great Britain 25 easy to follow driving tours each lasting one to five days Guided walks take you through Great Britain s historic towns and villages Experts suggest the best off road activities in each area from whiskey trails to water sports Contains essential travel tips including our pick of where to stay eat and shop plus useful travel visa and health
