

Looking Back on the Reagan Presidency

EDITED BY LARRY BERMAN

Looking Back On The Reagan Presidency

Joseph A. Pika, John Anthony Maltese

Looking Back On The Reagan Presidency:

Looking Back on the Reagan Presidency Larry Berman, 1990-04 Papers of a conference held at U of California Davis in May 1988 Nineteen president watchers review the Reagan administration's impact in four areas foreign policy economic and fiscal policy institutional changes and electoral and congressional relations Annotation copyrighted by Book News Inc Portland OR

The Reagan Presidency W. Elliot Brownlee, Hugh Davis Graham, 2003 Table of contents

The Reagan Presidency Paul Kengor, Peter Schweizer, 2005-04-29 In this important new volume editors Paul Kengor and Peter Schweizer bring together original essays from leading scholars who examine topics as varied as Iran Contra abortion the Cold War governmental management and economic policy Through critical analysis these essays

The Reagan Effect John W. Sloan, 1999 Now that Reagan's achievements and failures have become more obvious it is time for a new nonpartisan appraisal of his leadership and its impact on the nation That is precisely what John Sloan delivers Sloan focuses especially on the questions raised in the highly polemical debates between conservatives and liberals concerning Reagan's economic policies He gives equal time to both sides showing how liberals were wrong in their predictions of gloom while conservatives continue to grant Reagan more credit and status than he deserves

The Presidency and Rhetorical Leadership Leroy G. Dorsey, 2008-03-26 Successful presidential leadership depends upon words as well as deeds In this multifaceted look at rhetorical leadership twelve leading scholars in three different disciplines provide in depth studies of how words have served or disserved American presidents At the heart of rhetorical leadership lies the classical concept of prudence practical wisdom that combines good sense with good character From their disparate treatments of a range of presidencies an underlying agreement emerges among the historians political scientists and communication scholars included in the volume To be effective they find presidents must be able to articulate the common good in a particular situation and they must be credible on the basis of their own character Who they are and what they can do are thus twin pillars of successful rhetorical leadership Leroy G Dorsey introduces these themes and David Zarefsky picks them up in looking at the historical development of rhetorical leadership within the office of the presidency Each succeeding chapter then examines the rhetorical leadership of a particular president often within the context of a specific incident or challenge that marked his term in office Chapters dealing with George Washington John Adams Thomas Jefferson Theodore Roosevelt Woodrow Wilson Franklin Roosevelt Dwight Eisenhower Ronald Reagan and Bill Clinton offer the specifics for a clearer understanding of how rhetoric serves leadership in the American presidency This book provides an indispensable addition to the literature on the presidency and in leadership studies

The Politics Presidents Make Stephen Skowronek, 1997-03-25 This wholly innovative study demonstrates that presidents are persistent agents of change continually disrupting and transforming the political landscape But each president also inherits a particular type of political context a regime shaped by his predecessors that he either rejects or affirms

The Politics of the Presidency, Revised 8th Edition Joseph A. Pika, John Anthony

Maltese,2013-07-15 In the most up to date core text available on the presidency *The Politics of the Presidency* Revised Eighth Edition Joseph A Pika and John Anthony Maltese once again deliver their comprehensive and accessible analysis of the presidency Never losing sight of the foundations of the office the authors maintain a balance between historical context and contemporary scholarship on the executive A solid foundation for any presidency course the revised eighth edition features updated chapters including coverage of the 2012 election and a new chapter analyzing Obama s challenges as a second term president in an entrenched partisan environment *Historical Dictionary of the Reagan-Bush Era* Richard S.

Conley,2017-03-09 From the vantage point of the 2016 presidential election and the deepening polarization of American politics in recent decades it is striking how much more distant the Reagan Bush era of the 1980s and early 1990s seems compared to the years that have actually passed Whither the Republican Party of yesteryear Like reincarnated characters from Samuel Beckett s classic play *Waiting for Godot* many disillusioned conservatives in the new millennium continue to search obdurately and in vain for a leader who embodies the acclaimed leadership traits of Ronald Reagan This second edition of *Historical Dictionary of the Reagan Bush Era* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations events institutions policies and issues This book is an excellent resource for students researchers and anyone wanting to know more about this era ***The Politics of the Presidency*** Joseph A. Pika,John Anthony Maltese,Andrew

Rudalevige,2017-07-06 This book analyses the change and continuity in the presidency during Barack Obama s two terms in an entrenched partisan environment discusses the competitive setting for the 2016 election and looks at the challenges and opportunities President Trump will face ***The Development of the American Presidency*** Richard J. Ellis,2015-06-26 A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present This developmental lens analyzing how historical turns have shaped the modern institution allows for a richer more nuanced understanding beyond the current newspaper headlines *The Development of the American Presidency* pays great attention to that historical weight but is organized by the topics and concepts relevant to political science with the constitutional origins and political development of the presidency its central focus Through comprehensive and in depth coverage this text looks at how the presidency has evolved in relation to the public to Congress to the Executive branch and to the law showing at every step how different aspects of the presidency have followed distinct trajectories of change All the while Ellis illustrates the institutional relationships and tensions through stories about particular individuals and specific political conflicts Ellis s own classroom pedagogy of promoting active learning and critical thinking is well reflected in these pages Each chapter begins with a narrative account of some illustrative puzzle that brings to life a central concept A wealth of photos figures and tables allow for the visual presentations of concepts A companion website not only acts as a further resources base directing students to primary documents newspapers and data sources but also presents interactive timelines

and practice quizzes to help students master the book's lessons. The second edition has a new chapter on unilateral powers that brings greater attention to domestic policymaking. **Hardcore Punk in the Age of Reagan** Robert Fitzgerald, 2025-05-07

Few politicians produced the musical reaction that Ronald Reagan did. His California-branded conservatism inspired countless young people to pick up guitars and thrash out their political angst. Punk bands across the United States took aim at the man, his presidency, and the idea of America he was selling to voters nationwide. Small yet vibrant scenes across the country emerged to challenge the communal norms and social values projected on them by the popular media and consumer culture. Punk enthusiast Robert Fitzgerald argues that these songs' lyrics aren't just catchy and fun to scream along with; they also reveal the thoughts and feelings of artists reacting to their political environment in real, forthright and uncensored time. In candid detail, Fitzgerald shows how these lyrics illustrated what young adults felt and how they reacted to one of the most influential and divisive leaders of the era. Punk lyrics are seemingly simple, the author argues, but they sketch out a complex, musically inspired countermovement that is as canonical in the American songbook as the folk and rock protest music that came before. **The Presidency, Congress, and Divided Government** Richard S. Conley, 2002-11-27

Can presidents hope to be effective in policy making when Congress is ruled by the other party? Political scientist Richard Conley brings to this crucial discussion a fresh perspective. He argues persuasively that the conditions of divided government have changed in recent years, and he applies a rigorous methodology that allows the testing of a number of important assumptions about party control of the legislative process and the role of the president. Conley demonstrates that recent administrations have faced a very different playing field than those in the earlier post-war years because of such critical developments in electoral politics as decreasing presidential coattails and the lack of presidential popularity in opposition members' districts. Moreover, he identifies several changes in the institutional setting in Congress that have affected both the legislative success rates of presidents' programs and the strategies presidents pursue. These institutional factors include more assertive legislative majorities, changes in leadership structure, and increased party cohesion in voting. Conley uses both case studies and sophisticated time series regression analyses to examine the floor success of presidential initiatives, the strategies presidents use in working with the legislature, and the use of veto power to achieve presidential aims. Scholars of the presidency and those interested in the larger American political process will find in this book both food for thought and a model of analytic sophistication. **The Gatekeepers** Kevin Lyles, 1997-10-28

There are more than 600 Federal district judges serving today, and they decide some 230,000 civil cases each year. About 90% of the decisions they reach are final. Lyles argues that these lower court judges not only influence the flow of information to the judicial hierarchy but they formulate questions that influence how higher courts, including the Supreme Court, respond. As such, they are key elements in the formulation and implementation of public policy. To cite a few examples, they desegregate school districts, run mental institutions, and prisons; break up monopolies; and reapportion legislatures. Lyles begins by examining the structure and function of federal courts and

detailing the history operation and purpose of the district courts He then turns to the selection nomination and appointment of district judges Lyles then analyzes the extent to which presidents might advance policy objectives through their judicial appointments to the district courts After examining how African American Latino and white judges male and female view their roles as policy actors Lyles concludes with a discussion of the implications of the study Important for students and scholars of contemporary public policy and the court system **In the Public Domain** Lori Cox Han, Diane J.

Heith, 2006-06-01 Explores how recent presidents have managed communications with the American public

Congressional Record United States. Congress, 2001 Historical Dictionary of the U.S. Presidency Richard S. Conley, 2015-12-14 This book covers the development of the presidential office within the context of constitutional interpretations of presidential power and socio political and economic developments as well as foreign affairs events from 1789 2015 It provides details on the men who have held the office and biographies of vice presidents unsuccessful candidates for the office and noteworthy Supreme Court and other appointees The Historical Dictionary of the U S Presidency contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on the development of the institution of the presidency and details the personalities domestic and foreign policy governing contexts elections party dynamics and significant events that have shaped the office from the Founding to the present day This book is an excellent resource for students researchers and anyone wanting to know more about the U S Presidency **Presidential Lightning Rods** Richard J. Ellis, 1994 Choice Outstanding Title H R Haldeman President Nixon's former chief of staff is said to have boasted Every president needs a son of a bitch and I'm Nixon's I'm his buffer and I'm his bastard I get done what he wants done and I take the heat instead of him Richard Ellis explores the widely discussed but poorly understood phenomenon of presidential lightning rods cabinet officials who take the heat instead of their bosses Whether by intent or circumstance these officials divert criticism and blame away from their presidents The phenomenon is so common that it's assumed to be an essential item in every president's managerial toolbox But Ellis argues such assumptions can oversimplify our understanding of this tool Ellis advises against indiscriminate use of the lightning rod metaphor Such labeling can hide as much as it reveals about presidential administration and policymaking at the cabinet level The metaphor often misleads by suggesting strategic intent on the president's part while obscuring the calculations and objectives of presidential adversaries and the lightning rods themselves Ellis also illuminates the opportunities and difficulties that various presidential posts especially secretaries of state chiefs of staff and vice presidents have offered for deflecting blame from our presidents His study offers numerous detailed and instructive examples from the administrations of Truman Dean Acheson Eisenhower Richard Nixon John Foster Dulles Herbert Brownell and Ezra Taft Benson LBJ Hubert Humphrey Ford Henry Kissinger and Reagan James Watt These examples Ellis suggests should guide our understanding of the relationship between lightning rods and presidential leadership policymaking and ratings Blame avoidance he warns does

have its limitations and may even backfire at times Nevertheless President Clinton and his successors may need to rely on such tools The presidency Ellis points out finds itself the object of increasingly intense partisan debate and microscopic scrutiny by a wary press Lightning rods can deflect such heat and help the president test policies gauge public opinion and protect his political power and public image Ellis s book is an essential primer for helping us understand this process

School Desegregation and U.S. Presidents LaRuth H. Gray, 2023-06-05 The Supreme Court s *Brown v Board of Education* of Topeka Kansas decision of 1954 yielded unwavering and contentious mass resistance to dismantling the legally sanctioned dual system of public schooling in the United States Extensive literature exists that focuses on the action of the courts legislative actions of the federal government and actions of local politicians and school districts addressing the challenges posed in transitioning from a legalized racially segregated system to a nationally integrated school system *School Desegregation and US Presidents* chronicle a different look at the nation s attempt to address the landmark decision THE POWER OF THE PRESIDENCY Receiving short shrift in the literature has been the use and effect of the bully pulpit of seven Presidents providing leadership to resolve those issues related to the implementation of the mandates of *Brown* It examines how the various symbolic and political powers of each President were exercised to advance or stall progress in desegregating the country s schools Words matter In accessing the bully pulpits of each of the Presidents significant examples of their voices are provided through excerpts of their speeches press coverage and excerpts with cabinet members or other administration officials and civil rights leaders

Hatred of America's Presidents Lori Cox Han, 2018-06-15 This work examines expressions of personal hostility and animosity toward presidents even beloved ones throughout American history and their impact on policymaking politics and culture People involved or simply interested in politics often ask whether today s political environment is more toxic than ever before *Hatred of America s Presidents* Personal Attacks on the White House from Washington to Trump presents an impartial and authoritative history of invective toward the White House so readers can determine the answer for themselves The book focuses on the most representative and commonplace attacks of a vitriolic and personal nature detailing who instigated and trafficked in the attacks and how presidents administrations and political parties defended themselves It also illustrates how honest disagreements about policy such as FDR s New Deal Ronald Reagan s Central America policies George W Bush s invasion of Iraq and Barack Obama s Affordable Care Act fueled expressions of hatred and condemnation Finally the book includes perspectives from both the right and the left on the legitimacy of these attacks and the victims defenses as well as their impact on American politics and policy

Reagan's First Four Years John David Lees, Michael Turner, 1988
