Understanding Spirituality and living it 24x7: Real Questions, Rational Answers Ramesh Bijlani,2025-06-30 From being a fashionable substitute for religion to a sophisticated synonym for being a good person and many things in between spirituality can mean anything But what does it really mean Why should we know what it really means Is spirituality mere intellectual entertainment Isn't it enough to be a good person and let rationality guide life Understanding Spirituality and living it 24 x 7 answers all these questions and more in a language that is clear simple and easy to understand Using examples from everyday life it shows how spirituality can bring joy peace and fulfillment to individuals as well as make the world a better place to live in Catholic Origins of Quebec's Quiet Revolution, 1931-1970 Michael Gauvreau,2005-11-14 The Catholic Origins of Quebec's Quiet Revolution challenges a version of history central to modern Quebec's understanding of itself that the Quiet Revolution began in the 1960s as a secular vision of state and society which rapidly displaced an obsolete clericalized Catholicism Michael Gauvreau argues that organizations such as Catholic youth movements played a central role in formulating the Catholic ideology underlying the Quiet Revolution and that ordinary Quebecers experienced the Quiet Revolution primarily through a series of transformations in the expression of their Catholic identity Providing a new understanding of Catholicism's place in twentieth century Quebec Gauvreau reveals that Catholicism was not only increasingly dominated by the priorities of laypeople but was also the central force in Quebec's cultural transformation He makes it clear that from the 1930s to the 1960s the Church espoused a particularly radical understanding of modernity especially in the areas of youth gender identities marriage and family **Secular Spirituality** Harald Walach,2014-09-18 This book discusses spirituality as an emerging scientific topic from a historical perspective with extensive discussion of the mind body problem and of scientific concepts of consciousness While the book focuses on the Western tradition of Enlightenment it also implicitly addresses the double meaning of the term with the Eastern tradition describing it as a state of true knowledge which is an important goal on an individual's spiritual path and the Western tradition seeing it as the collective process of getting rid of narrow minded dogmas and concepts The book is based on a simple yet challenging premise Science has not gone far enough in the scientific process of going from a collective mind tied up in dogmatic teachings to a truly free mind that seemingly freed itself from bondage and restrictions The book shows that science and with

it our whole Western culture has to incorporate spirituality if it is to realize this goal of enlightenment If that is done and it can only be done by many individuals actually practicing spirituality this will also lead to the individual type of enlightenment
