[The Full Employment Horizon in 20th-Century America](#) Michael Dennis, 2021-02-11 Through moments of social protest policy debate and popular mobilization this book follows the campaign for economic democracy and the fight for full employment in the United States Starting in the 1930s Dennis explores its intellectual and philosophical underpinnings the class struggle that determined the fate of legislation and the role of left wing civil rights activists in its revival Demonstrating how the campaign for full employment intersected with movements for women's liberation and civil rights it explores how social groups and oppressed minorities interpreted and appropriated the promise of full employment For many full employment provided an indispensable path to racial and gender emancipation In this book Dennis uncovers the class dimensions and the resistance to full employment in the US He demonstrates how the recurring debates over full employment consistently exposed the contradictions inherent in a capitalist society and

challenged the assertion that an allegedly free enterprise system automatically generated employment for all The Executive Branch of State Government Margaret R. Press Portrayals of Women Politicians, 1870s-2000s , Teri Finneman,2015-11-25 Recent history suggests the United States is within reach of its first woman president This book examines the media experiences of women political pioneers who helped pave the way to the breaking of the glass ceiling It analyzes newspaper treatment of four pioneering politicians between the 1870s and 2000s and explores how media discourse of women politicians has and hasn t changed over 150 years The women featured are Victoria Woodhull the first woman to run for president Jeannette Rankin the first woman elected to Congress Margaret Chase Smith the first woman to receive a presidential nomination at a major party s convention and Sarah Palin the first Republican woman vice presidential candidate The social political and journalistic cultures of each woman s era are also explored to provide context for the women s media coverage The findings illustrate that the press has used a variety of discursive strategies to delegitimize the candidacies of women politicians throughout history which might have contributed to negative voter attitudes toward women in politics Gendered stereotypes gendered news frames and double binds utilized in news coverage served to protect a male dominated status quo Yet a significant finding in Palin s coverage indicates that gender bias in news coverage is increasingly facing criticism suggesting the tide may finally be turning in favor of more equalized discourse
