Jung and Twentieth Century Psychological Astrology Laura Andrikopoulos, 2024-10-11 Using the works and theories of Carl Gustav Jung and the astrologers Alan Leo, Dane Rudhyar and Liz Greene, this volume provides a cultural history of psychological astrology in the twentieth century, demonstrating the prevalence of magic in modern culture through its presence in astrology. Astrology's links to psychology are akin to those in wider culture, such as the exploration of the unconscious by writers and artists. The dominant form of astrology in the twentieth century was psychological astrology, a form principally influenced by the work of the psychologist Carl Gustav Jung. Through in-depth exploration of the three major astrologers of the period, Alan Leo, Dane Rudhyar and Liz Greene, and their psychological innovations, this volume considers whether psychology was used by astrology as a survival strategy to legitimise magic in the modern world and whether the result was an astrology that has lost its magic. Chapters consider the survival of magic in the modern world, the history of astrology as a psychological subject and astrology's relationship to modernity, as well as a fundamental exploration of the nature of astrology. Ultimately arguing that the existence of psychological astrology represents a form of living magic, this book will be of interest to researchers, scholars and postgraduate students studying Jung and analytical psychology, magic, astrology and alchemy, and culture in the twentieth century more broadly.

Astrology Roger B. Culver, Philip A. Ianna, 1988-09 Contemporary astrologers claim that their craft is scientifically based and rationally consistent and above all that astrology works, a belief shared by millions of Americans, including highly visible political and media personalities. As a result, the practice of consulting the stars for advice has never been more popular or more dangerous. Professional astronomers Roger B. Culver and Philip A. Ianna have produced a highly readable and well-referenced response to the claims of astrologers. This book points out the glaring inconsistencies associated with the basic concepts of modern astrology, from the zodiac itself to the fabled Age of Aquarius. Tracing humanity's historical fascination with the heavens that produced the celestial twins of astronomy and astrology, the authors leave little doubt concerning the difference between astronomical science and astrological art. *Astrology: True or False* offers a complete and extensive summary of available evidence on astrology's basic definitions, concepts and effectiveness. The authors' research revealed thousands of predictions gone bust, from the start of World War III to claims about the existence of an anti-Earth orbiting on the other side of the sun. They studied the famous twenty-year cycle of presidential death and disaster, the moon cycles of crime and murder in major cities, and the incidences of major personality traits in certain sun signs. Their conclusions, while disappointing to the determined believer in astrology, are nevertheless refreshingly rational.

Alan Leo's Dictionary of Astrology Alan Leo, 2010-12 In 1917, at the height of his fame, Alan Leo was charged with fortune telling, which was illegal and taken to court. He had been tried on similar charges in 1914, which had been dismissed. But the charges brought in 1917 stuck. Leo was given a hefty fine. As winning on appeal seemed unlikely, Leo paid the fine and went to Cornwall for a rest, where on 30 August 1917 he unexpectedly died of a cerebral hemorrhage, aged 57. His friends blamed it

on the strain of the court proceedings At the time of his death this Dictionary was one of Leo s unfinished projects Installments of the Dictionary had appeared in Leo s monthly magazine Modern Astrology up to the end of the article Horoscope pgs 130 136 That the project was long standing is hinted by the article on Hindu Astrology pgs 76 101 written by Sepharial some years before and which Leo had presumably purloined More material was in preparation but Leo s untimely death brought matters to a halt By the early 1920 s Vivian Robson had succeeded Leo as editor of Modern Astrology a post he shared with Bessie Leo the widow An intense scholarly type Robson stumbled across bound copies of Leo s incomplete book while he was compiling his own astrological dictionary At the suggestion of Bessie Robson abandoned his dictionary and set about to complete Leo s using the many notes and fragments that Leo had left Which was published in 1929 as Alan Leo s final book Shortly thereafter Bessie and Vivian had a falling out whereupon Vivian left This book was to be an orphan Like its precursor James Wilson s Dictionary of Astrology of 1819 Leo s book contains several full blown monographs Both books have lengthy entries on Horary Astrology for example These articles tend to break the flow of the book For this reason the current publishers Astro America have added headings to each page that the reader may know whereabouts in the book he may be The publishers have also added a list of principal articles to the front as well as a complete list of entries forming an index in the back Alan Leo s Dictionary of Astrology is again in print Profit from the wealth of knowledge it contains
