Utah in the Twentieth Century Brian Q. Cannon, Jessie L. Embry, 2009-06-15 The twentieth century could easily be Utah s most interesting and complex Utah in the Twentieth Century chronicles the social and cultural transitions of the time offering a well rounded perspective on the development and change the Beehive State went through during this period It was an era complicated by the push of economic development and pull of traditional culture demand for natural resources from a fragile and scenic environment questions of who governs and how who gets a vote and who controls what on contested public lands during which outside trade and a tourist economy increasingly challenged and fed an insular society Activists left and right declaimed constitutional liberties while Utah s Native Americans become the last enfranchised in the nation Proud contributions to national wars contrasted with denial of deep dependence on federal money the skepticism of provocative writers boosters eager for growth and reflexive patriotism somehow bonded to ingrained distrust of federal government A valuable resource for students and teachers this work is also fruitful reading for anyone who desires to know more about key themes of Utah s history in the twentieth century

The Navajo Political Experience David E. Wilkins, 2013-10-25 Native nations like the Navajo nation have proven to be remarkably adept at retaining and exercising ever increasing amounts of self determination

even when faced with powerful external constraints and limited resources Now in this fourth edition of David E Wilkins *The Navajo Political Experience* political developments of the last decade are discussed and analyzed comprehensively and with as much accessibility as thoroughness and detail The Din people and their governing leaders have recently experienced a host of events that dramatically affected the shape of the nation a plethora of effective grassroots organizations that had a profound impact on the structure of the Navajo political system a dramatic reduction in the size of the legislative branch from eighty eight to twenty four members the introduction of institutional gambling unresolved battles over water rights and a tense political crisis that pitted the legislative branch against the judicial branch as the court sought to ensure that the Fundamental Law was to be adhered to by all governing bodies These and other developments are examined in this new edition which includes three new appendices The Navajo Fundamental Law of 2002 The Din Natural Resource Protection Act of 2005 and *Nelson v Shirley* 2010 which add to the book s value as a classroom tool and a primary source

BOOK JACKET

Clitso Dedman, Navajo Carver Rebecca M. Valette, 2023-12 Rebecca Valette s *Clitso Dedman Navajo Carver* is the first biography of artist Clitso Dedman 1876 1953 one of the most important but overlooked Din Navajo artists of his generation Dedman was born to a traditional Navajo family in Chinle Arizona and herded sheep as a child He was educated in the late 1880s and early 1890s at the Fort Defiance Indian School then at the Teller Institute in Grand Junction Colorado After graduation Dedman moved to Gallup New Mexico where he worked in the machine shop of the Atchison Topeka and Santa Fe Railway before opening his first of three Navajo trading posts in Rough Rock Arizona After tragedy struck his life in 1915 he moved back to Chinle and abruptly changed careers to become a blacksmith and builder At age sixty suffering from arthritis Dedman turned his creative talent to wood carving thus initiating a new Navajo art form Although the neighboring Hopis had been carving Kachina dolls for generations the Navajos traditionally avoided any permanent reproduction of their Holy People and even of human figures Dedman was the first to ignore this proscription and for the rest of his life he focused on creating wooden

sculptures of the various participants in the Yeibichai dance which closed the Navajo Nightway ceremony These secular carvings were immediately purchased and sold to tourists by regional Indian traders Today Dedman's distinctive and highly regarded work can be found in private collections galleries and museums such as the Navajo Nation Museum at Window Rock the California Academy of Sciences in San Francisco and the Arizona State Museum in Tucson Clitso Dedman Navajo Carver with its extensive illustrations is the story of a remarkable and underrecognized figure of twentieth century Navajo artistic creation and innovation

Both Sides of the Bullpen Robert S. McPherson, 2017-10-19 Between 1880 and 1940 Navajo and Ute families and westward trending Anglos met in the bullpens of southwestern trading posts to barter for material goods As the products of the livestock economy of Navajo culture were exchanged for the merchandise of an industrialized nation a wealth of cultural knowledge also changed hands In *Both Sides of the Bullpen* Robert S. McPherson reveals the ways that Navajo tradition fundamentally reshaped and defined trading practices in the Four Corners area of southeastern Utah and southwestern Colorado Drawing on oral histories of Native peoples and traders collected over thirty years of research McPherson explores these interactions from both perspectives as wool blankets and silver crossed the counter in exchange for flour coffee and hardware To succeed traders had to meet the needs and expectations of their customers often interpreted through Navajo cultural standards From the organization of the post building to gift giving health care and burial services and a credit system tailored to the Navajo calendar every feature of the trading post served trader and customer alike Over time these posts evolved from ad hoc business ventures or profitable cooperative stores into institutions with a clearly defined set of expectations that followed Navajo traditional practices Traders spent their days evaluating craft work learning the financial circumstances of each Native family following economic trends in the wool and livestock industry back east and avoiding conflict In detail and depth the many voices woven throughout *Both Sides of the Bullpen* restore an underappreciated era to the history of the American Southwest They show us that for American Indians and white traders alike in the Four Corners region during the late 1800s and early 1900s barter was as much a cultural expression as it was an economic necessity

cross generational set of portraits that together depict all aspects of this specifically American Indian struggle Deyhle cites the lefthanded compliment Navajos work well with their hands which she indicates represents the limiting and all too common appraisal of American Indian learning potential that she vehemently disputes and seeks to disprove As a recognized authority on the subject qualified by multiple degrees in racial and American Indian studies Deyhle is able to chronicle the lives and survivance of three Navajo women in a way that is simultaneously ethnographic and moving Her critique of the U S education system s underlying yet very real tendency toward structural discrimination takes shape in elegant prose that moves freely into and out of time and place The combination of substantive sources and touching personal experience forms a profound and enduring narrative of critical and current importance While this book stands as a powerful contribution to American Indian studies its compelling human elements will extend its appeal to anyone concerned with the ongoing plight of American Indians in the education system

Along Navajo Trails Will Evans, 2020-03-30 A piece of Navajo history otherwise forgotten the first hand observations of a Mormon trader on the culture and art of his Navajo contemporaries The overwhelming interest of Will Evans proprietor of the Shiprock Trading Company in Navajo culture spanned a half century He shared his enthusiasm through frequent publication of portraits vignettes and essays he also compiled much of his writing into a book manuscript His subjects were his customers friends and neighbors their stories of historic events such as the Long Walk and their life as he understood it Evans s writings were colored by his uncommon friendship and familiarity with Navajo people but also by who he was a trader folk artist and Mormon Inspired by sand paintings Evans appropriated their sacred images for his own paintings of murals and everyday objects In his writing he preserved unique records of Navajo history and of individuals about whom little biographical information otherwise remains Much of that was based on what he heard from his Navajo acquaintances but it also drew on his direct observations and particular beliefs about the people their culture and their history Evans s granddaughter Susan E Woods collaborated with historian Robert S McPherson author of numerous books on Navajo and Four Corners history to prepare and publish Will Evans s manuscript which is illustrated with a remarkable and rare selection of photos from the collections of Evans and his colleagues

Rainbow Bridge to Monument Valley Thomas J. Harvey, 2013-07-29 The Colorado River Plateau is home to two of the best known landscapes in the world Rainbow Bridge in southern Utah and Monument Valley on the Utah Arizona border Twentieth century popular culture made these places icons of the American West and advertising continues to exploit their significance today In Rainbow Bridge to Monument Valley Thomas J Harvey artfully tells how Navajos and Anglo Americans created fabrics of meaning out of this stunning desert landscape space that western novelist Zane Grey called the storehouse of unlived years where a rugged more authentic life beckoned Harvey explores the different ways in which the two societies imbued the landscape with deep cultural significance Navajos long ago incorporated Rainbow Bridge into the complex origin story that embodies their religion and worldview In the early 1900s archaeologists crossed paths with Grey in the Rainbow Bridge area Grey credited

with making the modern western novel popular sought freedom from the contemporary world and reimagined the landscape for his own purposes In the process Harvey shows Grey erased most of the Navajo inhabitants This view of the landscape culminated in filmmaker John Ford s use of Monument Valley as the setting for his epic mid twentieth century Westerns Harvey extends the story into the late twentieth century when environmentalists sought to set aside Rainbow Bridge as a symbolic remnant of nature untainted by modernization Tourists continue to flock to Monument Valley and Rainbow Bridge as they have for a century but the landscapes are most familiar today because of their appearances in advertising Monument Valley has been used to sell perfume beer and sport utility vehicles Encompassing the history of the Navajo archaeology literature film environmentalism and tourism Rainbow Bridge to Monument Valley explores how these rock formations Navajo sacred spaces still have become embedded in the modern identity of the American West and of the nation itself

Viewing the Ancestors Robert S. McPherson,2014-03-17 The Anaas z people left behind marvelous structures the ruins of which are preserved at Mesa Verde Chaco Canyon and Canyon de Chelly But what do we know about these people and how do they relate to Native nations living in the Southwest today Archaeologists have long studied the American Southwest but as historian Robert McPherson shows in *Viewing the Ancestors* their findings may not tell the whole story McPherson maintains that combining archaeology with knowledge derived from the oral traditions of the Navajo Ute Paiute and Hopi peoples yields a more complete history McPherson s approach to oral tradition reveals evidence that contrary to the archaeological consensus that these groups did not coexist the Navajos interacted with their Anaas z neighbors In addition to examining archaeological literature McPherson has studied traditional teachings and interviewed Native people to obtain accounts of their history and of the relations between the Anaas z and Athapaskan ancestors of today s Hopi Pueblo and Navajo peoples Oral history McPherson points out tells why things happened For example archaeological findings indicate that the Hopi are descended from the Anaas z but Hopi oral tradition better explains why the ancient Puebloans may have left the Four Corners region the drought that may have driven the Anaas z away was a symptom of what had gone wrong within the society a point that few archaeologists could derive from what is found in the ground An important text for non Native scholars as well as Native people committed to retaining traditional knowledge *Viewing the Ancestors* exemplifies collaboration between the sciences and oral traditions rather than a contest between the two

Navajo Talking Picture

Randolph Lewis,2012-07-01 Navajo Talking Picture released in 1985 is one of the earliest and most controversial works of Native cinema It is a documentary by Los Angeles filmmaker Arlene Bowman who travels to the Navajo reservation to record the traditional ways of her grandmother in order to understand her own cultural heritage For reasons that have often confused viewers the filmmaker persists despite her traditional grandmother s forceful objections to the apparent invasion of her privacy What emerges is a strange and thought provoking work that abruptly calls into question the issue of insider versus outsider and other assumptions that have obscured the complexities of Native art Randolph Lewis offers an insightful

introduction and analysis of Navajo Talking Picture in which he shows that it is not simply the first Navajo produced film but also a path breaking work in the history of indigenous media in the United States Placing the film in a number of revealing contexts including the long history of Navajo people working in Hollywood the ethics of documentary filmmaking and the often problematic reception of Native art Lewis explores the tensions and mysteries hidden in this unsettling but fascinating film
