Nurse As Executive:

The Nurse as Executive Barbara Stevens Barnum, Karlene M. Kerfoot, 1995 This new edition of Aspen's bestselling book *The Nurse as Executive* has been thoroughly revised and updated to reflect the significant changes in nursing management. The nurse executive's role as a member of the executive team is examined as well as the nurse executive's role in health care issues such as quality outcomes, team building, and cost containment. Organizing the book around the new resource-driven management model rather than the goal-driven management model makes this book unique and distinguishes it from other management texts. **The Doctor of Nursing Practice and the Nurse Executive Role** Albert Rundio, 2014-10-07

Offering real world guidance and seasoned insight *The Doctor of Nursing Practice and the Nurse Executive Role* is the first book to offer DNP trained nurse executives the tools needed to create and manage successful nursing care systems. Crucial topics in leadership and personal and organizational success are addressed using current concrete examples in nursing management. This is a unique indispensable tool for nursing educators, current nurse executives, and those planning on taking up the nurse executive role. Suitable as a reference for both clinical and classroom use, *The Doctor of Nursing Practice and the Nurse Executive Role* will take seasoned nursing professionals and future leaders of the profession on an educational journey where they will learn why evidence-based practice is critical to the delivery of quality patient care. Tough questions such as: How can nursing faculty inspire, educate, and empower nurse executive DNP students? Essential pearls to help you on your journey to successful leadership and management. Why implementing the Magnet model makes sense even if your organization does not intend to pursue Magnet status? Why healthcare organizations must continually focus on improvement? The necessity of organizational transformation to ensure optimal ethical climates? How to become an effective delegator? How personal self-awareness leads to success? How to create an environment that fosters professional sustainability? How to use succession planning and management to develop and maintain strong leadership. [Nurse Executive](#) Linda Thompson

Adams, Edward H. O'Neil, 2008-03-10 This book takes insights drawn from the Executive Nurse Fellows program established by the Robert Wood Johnson Foundation to promote the idea of leadership development as an empowering force among nurses at ALL levels. It is intended as both a guide for professional leaders in schools of nursing, hospitals, and other health care delivery systems, ambulatory care, long term care, public and occupational health, and public policy, and as a text in leadership courses for students at master's level and beyond. It presents the core competencies developed by the RWJ Nurse Fellows program: interpersonal and communication effectiveness, risk taking and creativity, self knowledge, inspiring and leading change, and strategic vision as the keys to nursing leadership. The book is organized around the program's leadership compass, a method used in leadership skill development. The four points of that compass are: Purpose, the vision to lead; People, the passion to work with others; Process, the skills to manage change; Personal, the self knowledge to thrive. For each of these four points, the contributors, all graduates of the RWJ program, explore related competencies in each of three sections of the

book issues in public health education and service The chapters reflect real world experiences and are built around case studies that highlight one or two of the competencies
