Lore of Nutrition Tim Noakes, 2017-11-01 In December 2010 Professor Tim Noakes was introduced to a way of eating that was contrary to everything he had been taught and was accepted as conventional nutrition wisdom Having observed the benefits of the low carb high fat lifestyle first hand and after thorough and intensive research Noakes enthusiastically revealed his findings to the South African public in 2012 The backlash from his colleagues in the medical establishment was as swift as it was brutal and culminated in a misconduct inquiry launched by the Health Professions Council of South Africa The subsequent hearing lasted well over a year but Noakes ultimately triumphed being found not guilty of unprofessional conduct in April 2017 In Lore of Nutrition he explains the science behind the low carb high fat Banting diet and why he champions this lifestyle despite the constant persecution and efforts to silence him He also discusses at length what he has come to see as a medical and scientific code of silence that discourages anyone in the profession from speaking out against the current dietary guidelines Leading food health and medical journalist Marika Sboros who attended every day of the HPCSA hearing provides the fascinating backstory to the inquiry which often reads like a spy novel Lore of Nutrition is an eye opener and a must read for anyone who cares about their health
