Palestinian Autonomy Self Government And Peace

Alaa Tartir, Timothy Seidel, Tariq Dana

Palestinian Autonomy Self Government And Peace:

Palestinian Autonomy, Self-government, And Peace Harvey Sicherman,1993-02-22 Palestinian Autonomy, Self-government, And Peace Harvey Sicherman,2019-06-04 Describing the changes of heart and mind that reordered the Middle East in the wake of the First World War Albert Hourani one of the great scholars of the modern Middle East has written Wars are catalysts bringing to consciousness feelings hitherto inarticulate and creating expectations of change The Gulf War of early 1991 bears the signs of having been such a catalyst Having proved its assertiveness and strength and having led a wide ranging coalition into battle the United States has since the war s end embarked on an energetic diplomatic effort aimed at settling the long standing conflict between the majority of the Arab states and Israel The peace conference that Secretary of State James A Baker III has organized will grapple with a number of issues One of the most contentious and significant will be the future of the Palestinians of Gaza and the West Bank **Palestinian Self-government (autonomy)** Harvey Sicherman,1991 *Resisting Domination in Palestine* Alaa Tartir,Timothy Seidel,Tariq Dana,2024-04-04 This meticulously curated edited volume presents an assemblage of insightful critical and contemporary perspectives on how Israeli domination has been sustained and reproduced in new forms and means using various mechanisms and techniques of control coloniality and settler colonialism Based on original empirical fieldwork the contributors to this book adopt interdisciplinary and decolonial approaches in their examination of the intricate functions and structures of domination that permeate Palestinian life by illuminating the power dynamics at play and revealing the mechanisms that sustain the settler colonial regime This book identifies sites of colonial control and domination exerted on Palestine by Israel and demonstrates how these sites of control are also sites of Palestinian resistance The first section explores the political sites of control by focusing on governmentality institutions and technologies and mechanisms of control including how Israel manages access to health life and death The second section examines the economic mechanisms of exploitation dispossession and development including banking taxation and the relationships between finance capital aid and military occupation The third section turns attention to environmental sites of control focusing on land indigeneity space and racial capitalism Finally section four scrutinizes the intellectual sites of control highlighting how norms narratives and knowledge production perpetuate domination **New Political Entities in Public and Private International Law** Amos Shapira,Mala Tabory,1999-03-01 New political entities usually come into being in the midst of political wrangling often accompanied by security problems and not infrequently violence This book taking the Israeli Palestinian conflict as its starting point goes on to deal with the general problems of new entities including such core concepts as sovereignty autonomy and legal personality In exploring human rights issues the complex notions of nationality and minority rights are examined On a more practical level several authors inquire into issues of legal assistance in civil and criminal matters security arrangements fiscal and monetary policies foreign investment guarantees economic privatization and transboundary

water pollution On many of these topics German and European legal experience is introduced to shed a useful comparative light Altogether this volume represents an attempt to provide a primer for those responsible for or interested in the various aspects of new political entities at the end of the second millennium *A History of Israel* Howard M. Sachar, 2013-07-31 First published in 1976 Howard M Sachar's *A History of Israel From the Rise of Zionism to Our Time* was regarded one of the most valuable works available detailing the history of this still relatively young country Decades later readers can again be immersed in this monumental work The second edition of this volume covers topics such as the first of the Aliyahs in the 1880s the rise of Jewish nationalism the beginning of the political Zionist movement and later how the movement changed after Theodor Herzl the Balfour Declaration the factors that led to the Arab Jewish confrontation Palestine and its role both during the Second World War and after the war of independence and the many wars that followed it over the next few decades and the development of the Israeli republic and the many challenges it faced both domestic and foreign and still faces today This is a truly enriching and exhaustive history of a nation that holds claim to one of the most complicated and controversial histories in the world **The Quest for Peace between Israel and the Palestinians** Haig A.

Khatchadourian, 2011-06-29 A Palestinian state alongside a secure Israel is the sine qua non of a stable peace between Arabs and Israelis and at this late date would realize a modicum of the Palestinians moral and legal territorial rights roughly equal to those of the Jews Israelis and a long standing aspiration for self determination A defense of the two state option and a qualified defense of the Oslo Accords against Islamist and radical Jewish rejectionist critics is therefore offered Besides satisfying Palestinian aspirations Palestinian statehood would help open the way to a comprehensive peace between the Arabs and Israel through a just negotiated settlement of the Syrian Lebanese Israeli territorial disputes A comprehensive peace in turn should stimulate economic and cultural cooperation between Israel and the Arab countries the peace dividend lending it additional strength Increased stability should also result from the hoped for liberalization and democratization of the region's Arab regimes Preventing Palestine Seth Anziska, 2020-03-24 For seventy years Israel has existed as a state and for forty years it has honored a peace treaty with Egypt that is widely viewed as a triumph of U S diplomacy in the Middle East Yet the Palestinians the would be beneficiaries of a vision for a comprehensive regional settlement that led to the Camp David Accords in 1978 remain stateless to this day How and why Palestinian statelessness persists are the central questions of Seth Anziska's groundbreaking book which explores the complex legacy of the agreement brokered by President Jimmy Carter Based on newly declassified international sources *Preventing Palestine* charts the emergence of the Middle East peace process including the establishment of a separate track to deal with the issue of Palestine At the very start of this process Anziska argues Egyptian Israeli peace came at the expense of the sovereignty of the Palestinians whose aspirations for a homeland alongside Israel faced crippling challenges With the introduction of the idea of restrictive autonomy Israeli settlement expansion and Israel's 1982 invasion of Lebanon the chances for Palestinian statehood narrowed even further The

first Intifada in 1987 and the end of the Cold War brought new opportunities for a Palestinian state but many players refusing to see Palestinians as a nation or a people continued to steer international diplomacy away from their cause **The United Nations In Action** David J. Whittaker,2002-11-01 This is a clear survey of the role played by the United Nations in the major political crises of the post war world In covering its high profile peace keeping role its support of new nations and its involvement in new initiatives such as famine relief and drug control the author presents an introduction to the UN in action

Palestinians Anna Carew-Miller,2014-10-21 At the center of one of the world s most intractable conflicts are a people who number fewer than 10 million worldwide the Palestinians For centuries these people of Arab ancestry lived in the eastern Mediterranean region known as Palestine or because of its significance to the christian faith as the Holy Land In 1948 a United Nations plan to partition Palestine into Jewish and Arab states led to what Palestinians call al Nakba the disaster an Arab Israeli war that produced hundreds of thousands of refugees and left Palestinians without a homeland Another war in 1967 brought hundreds of thousands of Palestinians in the West Bank and Gaza Strip areas under Israeli military rule Since that time Palestinians and Israelis have been locked in bloody conflict This continued violence has prevented the establishment of an independent Palestinian state Discusses the geography history economy government religion people foreign relations and major cities of the Palestinians *Conflict and Reconciliation in the Contemporary World* David J.

Whittaker,1999 Conflict and Reconciliation examines the interdependent processes of conflict origins resolutions and reconciliation in the light of eight case studies including Yugoslavia Israel Northern Ireland and South Africa **Politics and Society in Modern Israel** Adam Garfinkle,2015-03-04 With full coverage of recent dramatic events in Israeli politics from the Rabin assassination through the May 1996 elections this work provides an up to date introduction to Israeli politics and society It seeks to convey a strong sense of everyday life in Israel the nuances and contradictions of Israeli identity the ethnic composition and institutional structure of Israeli society as well as Israeli political culture and the issues that dominate the country s domestic and foreign policy **The ^ACold War** Ronald E. Powaski,1997-09-25 For half of the twentieth

century the Cold War gripped the world International relations everywhere and domestic policy in scores of nations pivoted around this central point the American Soviet rivalry Even today much of the world s diplomacy grapples with chaos created by the Cold War s sudden disappearance Here indeed is a subject that defies easy understanding Now comes a definitive account a startlingly fresh clear eyed comprehensive history of our century s longest struggle In *The Cold War* Ronald E Powaski offers a new perspective on the great rivalry even as he provides a coherent concise narrative He wastes no time in challenging the reader to think of the Cold War in new ways arguing that the roots of the conflict are centuries old going back to Czarist Russia and to the very infancy of the American nation He shows that both Russia and America were expansionist nations with messianic complexes and the people of both nations believed they possessed a unique mission in history Except for a brief interval in 1917 Americans perceived the Russian government whether Czarist or Bolshevik as

despotic Russians saw the United States as conspiring to prevent it from reaching its place in the sun U S military intervention in Russia s civil war with the aim of overthrowing Lenin s upstart regime entrenched Moscow s fears Soviet American relations difficult before World War II when both nations were relatively weak militarily and isolated from world affairs escalated dramatically after both nations emerged as the world s major military powers Powaski paints a portrait of the spiraling tensions with stark clarity as each new development added to the rivalry the Marshall Plan the communist coup in Czechoslovakia the Berlin blockade the formation of NATO the first Soviet nuclear test In this atmosphere Truman found it easy to believe that the Communist victory in China and the Korean War were products of Soviet expansionism He and his successors extended their own web of mutual defense treaties covert actions and military interventions across the globe from the Caribbean to the Middle East and finally to Southeast Asia where containment famously foundered in the bog of Vietnam Powaski skillfully highlights the domestic politics diplomatic maneuvers and even psychological factors as he untangles the knot that bound the two superpowers together in conflict From the nuclear arms race to the impact of U S recognition of China on detente to Brezhnev s inflexible persistence in competing with America everywhere he casts new light on familiar topics Always judicious in his assessments Powaski gives due credit to Reagan and especially Bush in facilitating the Soviet collapse but also notes that internal economic failure not outside pressure proved decisive in the Communist failure Perhaps most important he offers a clear eyed assessment of the lasting distortions the struggle wrought upon American institutions raising questions about whether anyone really won the Cold War With clarity fairness and insight he offers the definitive account of our century s longest international rivalry Concise Encyclopaedia of World History Carlos Ramirez-Faria,2007 The Concise Encyclopedia Of World History Offers The Global Reading Public Students And Professors A Handy Complete And Accurate Guide To All Political Formations Since The Beginning Of History It Reaches Into Pre History Through The Inclusion Of The Important Families Of Languages Spoken Today It Also Tracks Ethnic Groups Especially Nomadic Which Have Been Influential In The Creation Of Civilizations And States The Entries On Existing Independent States Include Up To Date Political Facts And Statistics They Mention Each Country S World Heritage Sites To Complement The Individual Entries In This Encyclopedia There Is An Extensive Commentated World Historical Chronology A Special Feature In This Work Is The Inclusion Of Individual Political Chronologies For Ancient Civilizations And Important Countries And Regions The World Over To Round Out This Easy To Consult And Thoroughly Researched Work There Is A Cross Referenced Index Especially Designed For Provinces Cities And Other Entities Which Have No Entries Of Their Own But Appear In The Entries Sometimes Prominently As For Example Abu Dhabi In The United Arab Emirates Or Amritsar In India **The Middle East and North Africa 2004** ,2003-10-30 Now in its 50th edition this title continues to provide the most up to date geo political and economic information for this important world area Covers the Middle East and North Africa from Algeria to Yemen Offers quick access to a wide range of data Accurately and impartially records the latest political and economic developments

Provides comprehensive data on all major organizations in the region General Survey Introductory essays covering topics relating to the region as a whole including Arab Israeli Relations 1967 2003 The Jerusalem Issue Documents on Palestine The Removal of Saddam Hussain and the Deconstruction of Iraq Natural Gas in the Middle East and North Africa Oil in the Middle East and North Africa and Islamic Banking and Finance Country Surveys Individual chapters on each country containing articles on geography recent history and economy an economic and demographic survey using all the latest available statistics on population agriculture industry finance trade transport tourism and education directory sections with names addresses and contact numbers covering the constitution government legislature judiciary political organizations diplomatic representation religious groups the media finance trade and industry including petroleum and tourism Regional Information Includes all major international organizations active in the region their aims activities publications and principal personnel Research Institutes specializing in the region Bibliographies of books and periodicals covering the Middle East and North Africa

The Israeli-Palestinian Conflict Yehuda Lukacs,1992 A collection of documents and statements of the position of the parties involved in attempts to resolve the Israeli Palestinian conflict
