questions from historical cultural and media perspectives but also from the heart of the culture itself from the dynamics of the tattoo studio the work of the artist and the world of the tattoo convention to the perspective of the social actors who bear designs to investigate the meanings which lie being the images It critically examines the ways in which tattoos alter social actors sense of being and their relationship with time in the semiotic ways with which they communicate to themselves or to the wider world key elements of their bodily and personal identity and sense of being
