Preventing Falls J. Thomas Hutton,2010-10-29 The risk of serious injury resulting from a fall increases with age as our eyesight ability to react quickly memory and cognitive functions begin to decline For the growing population of people over age 65 falls can lead to loss of dignity and independence and they can cause serious injury or even death Preventing Falls is an essential guide for the elderly caregivers Parkinson s sufferers and many others who face this health risk in their daily lives As people age knowing how to accommodate motor sensory and cognitive changes is important While no single cause for a fall exists the leading factors are environmental hazards balance problems muscle weakness poor vision and impaired judgment Parkinson s patients as well as those with various neurological or muscular disorders are especially prone to falls because their motor skills are seriously compromised This book addresses valuable skills and coping mechanisms as well as environmental changes and assistive devices that are needed to prevent falls Many elderly victims of a fall require the skilled care of a nursing home within a year of the incident especially those elders who cannot care for themselves and whose family members are unable to provide adequate help The editors place emphasis on successful aging the ability to maintain mobility and remain independent Preventing Falls is a handy guidebook for elders to decrease their risk of falls develop personal

confidence and maintain their independence This vital sourcebook is complemented with a valuable 60 minute videotape offering step by step instruction on the best methods for preventing falls J Thomas Hutton M D Ph D Lubbock TX is the Director of the Neurology Research and Education Center at Covenant Health System and Medical Director of the National Parkinson Foundation Center of Excellence at Covenant Health System Jeffrey W Elias Ph D Reno NV is Associate Director for Research at the Sanford Center on Aging at the University of Nevada Jo Ann Shroyer Ph D Lubbock TX is Professor and Chair of the Department of Merchandising Environmental Design and Consumer Economics at Texas Tech University Zane Curry Ph D Lubbock TX is Associate Professor in the Department of Merchandising Environmental Design and Consumer Economics at Texas Tech University

My Journey with Parkinson's Disease Robert E. Spekman, 2018-03-27 I have had Parkinson s disease PD for twenty two years I am told I have a mild case but it is still my PD and I live with it 24 7 I would be a gross understatement to say my life was changed forever Interesting many of these changes have made me a more compassionate empathetic and caring person In part this book was motivated by the following premise Many of us will experience a life changing event that will cause us to pause and reassess where we are what we do and why we do it For some it might be the death of a loved one or a personal tragedy Or it might be a re awakening that aha moment For me it was January 2 1995 when my neurologist said Mr Spekman I have some bad news for you you have Parkinson s My life as it knew it crumpled around me I could have wallowed in self pity but I am a fighter and chose eventually to manage my PD I have adopted a number of Eastern non traditional approaches to deal with my PD I have a yoga practice meditate daily and engage in massage acupuncture and chiropractic adjustments All these different approaches complement my medication and all contribute to my being very healthy given the length of time I have had Parkinson s I will take you on a journey my journey starting with denial to depression to finally acceptance This book is more than the story of one man s journey with PD it is a story of hope and personal transformation If you permit me I am going to take you on a journey that began over two decades ago I have years to travel so do not ask where the destination is or ask if we are there yet During the course of this book I will share with you aspects of my life that were previously know to only a small number of people It is through this intimacy that you will come to better understand and hopefully better deal with adversity that might affect your life

Neurogenic Communication Disorders: Life Stories and the Narrative Self Plural Publishing, Incorporated, 2008-07 There is currently considerable focus on psychosocial issues for persons with aphasia and their significant others However there has been little unifying work that brings diverse interdisciplinary perspectives together to understand the impact of aphasia and other neurogenic communication disorders on the social construction and mediation of self or identity In this book the authors explore this idea of social construction of self as it relates to the human need to create share and modify life stories particularly when confronting major life changes Their premise is that impaired communication can have a profound impact on one s perception of self and one s ability to negotiate the social reconstruction of self in the context of a neurological

disorder The nature and extent of impact varies as seen in the book s in depth examination of narrative self for persons living with aphasia ALS Parkinson s disease and dementia as well as those aging without impairment The authors present theoretical grounding for using the concepts of self and the idea of a social and cultural tool kit that enables clients to interact with others and to define themselves in the context of those around them The text moves from theory to qualitative analyses of living with neurogenic disorders to implications for clinical interventions for individual clients and their significant others Voices of Resilience: Conversations with Parkinson's Disease Warriors, Caregivers, and Advocates - Book I Dr. George Ackerman,2024-09-07

This book of interviews aims to raise awareness and hope for a cure for Parkinson s Disease I contacted individuals worldwide to obtain the interviews because PD does not discriminate and affects individuals families and communities worldwide I believe we must be family in this fight for a cure When I learned that approximately 1 million individuals are diagnosed in the United States and over 10 million worldwide I felt that many other journeys needed to be shared So many inspired me to keep advocating for a cure **Parkinson Disease** Wayne Martin,Oksana

Suchowersky,Katharina Kovacs Burns,Egon Jonsson,2010-02-16 Part of the successful Institute of Health Economics IHE book series this handbook and ready reference adopts a unique approach in combining policy recommendations with specific treatment options for Parkinson patients The first part of the book deals with the clinical medical social and economical aspects of Parkinson Disease These ten chapters include the latest diagnosis and treatment options for patients the economical consequences social and ethical implications and end of life issues The second part of the book essentially covers a large scale case study on Parkinson in Alberta Canada since most of the issues discussed are relevant in all developed countries With its strong focus on correct diagnosis and early intervention this is an invaluable guide for clinicians and policymakers dealing with this devastating disease *YOUNG PARKINSON'S HANDBOOK* ,1995 **Twitch** Annmarie

O'Connor,2025-09-11 Candid and compelling blazes onto the page with life and hope Emilie Pine author of Notes to Self Moving and insightful Rosanna Davison Remarkably honest brutally heroic and darkly humorous memoir following a devastating diagnosis of early onset Parkinson s disease Twitch is a frank and funny memoir about picking up the pieces when personal tragedy hits In 2021 Irish Examiner columnist stylist author and podcaster Annmarie O Connor was diagnosed with early onset Parkinson s disease an incurable neurodegenerative condition broadly affecting movement and mental health Though she is no longer working as a stylist as part of her career due to Parkinson s complications Twitch outlines her journey from a life altering diagnosis to becoming an activist and agent of change **Conquering Parkinson's Disease**

Dinesh Patel,2014 How would you react if you were told you had contracted an incurable illness Scared Angry Upset Devastated When Dinesh Patel was diagnosed with Parkinson s disease in incurable illness of the central nervous system one expected him too to go through a roller coaster of emotions Except he said it was better to have Parkinson s than conditions like heart attack stroke cancer asthma kidney failure and so on that are treatable In Conquering Parkinson s Disease Dinesh

writes an intimate and inspirational account of how he took on the illness headfirst and emerged victorious He continued to lead an enriching life full of music and art while privately battling a progressive disease His contagious optimism for life infected all those who came in contact with him including acclaimed Marathi playback singer Sanjeevani Bhelande and noted actress Smita Jaykar His enthusiasm is exemplary notes Bhelande
